ANNOUNCEMENT.

To the Republican party of Garrard county: I am the Republican nominee for County Attorney and will appreciate your support. B. D. Herndon.

Hon. Champ Clark, gives the following piece of political history, which should encourage all good Democrats and cause them to be true to their party:

In the Fifty-ninth Congress the Republicans had a majority in the House of 114. In the sixtieth Congress they had a House Majority of 57. In the present House their majority is only 47. So that even a blind man can see that the current runs against them. Holding all the seats that we now have, we must gain only 24 in order to control the next House.

Surely the tariff fiasco ought to give us not only 24 seats now held by the Republicans, but twice 24. Indeed, the Payne-Aldrich bill is such a defiance of public desire, that we ought to have as big a majority in the Sixty-second Congress as we had in the Fifty-second, when even New England sent more Democrats than Republicans to the House, as fruits of the McKinley bill. History has a strange and instructive way of repeating itself.

A few figures may serve to elucidate the situation, and here they are: There are 19 Republican members whose pluralities are below 1,000; nine whose pluralities are below 2,000 and above 1,000, and eighteen whose pluralities are below 3,000 and above 2,000. That makes 46 all told. With the current running against them not a man of the 46 is certain of reelection. When they think of the Payne-Aldrich tariff bill and then of the first Tuesday after the first Monday in November, 1910, the cold chills creep up and down their spinal columns.

One other thing is quite likely to help us in 1910. In any event the Senate will remain Republican till 1913. When the beneficiaries of the Payne-Aldrich bill reflects upon that fact and upon the further fact that they will hold the White House till March 4, 1912, they may conclude that there is no sense in squandering their wealth in electing a Republican House in 1910, and therefore leave Republican candidates to paddle their own canoes. Democratic prospects are improving every hour.

Judge M. C. Sauley, of Stanford, has been an interested visitor in circuit court this week. He is one of the attorneys in the Gray will case. He is very popular in Danville and both Republicans and Democrats as a rule consider the candidacy of Judge Herndon, of Lancaster, as a joke—Kentucky Advocate.

Those familiar with the conditions assert that, if he makes the race, he will be defeated by a majority hitherto unknown, in the Judicial District.

The world is still discussing the discovery of the North Pole, and the majority, very properly, give the honor to Dr. Cook. It is conceded that the account of the exploration of Peary confirms the statements of Dr. Cook, and he will always be given the honor of making the discovery, even if Peary went to the pole after he did, which is not likely. Only one discovers, discloses or sees first, however many may see afterward.

The people here and at Hubble will gladly learn that Dr. E. H. Pearce will still have charge of the congre-

gations of the Methodist church here and there. Reference is made elsewhere, in this issue, to his work as pastor. He is highly qualified and his pure, constant and unselfish Christian service has endeared him to the people of all denominations.

In the death of Governor John A. Johnson, of Minnesota, the nation suffers a great loss. He was three times elected governor and it was thought by many that he would have been the democratic nominee for President in 1912. His loyalty to his party, to the people, and, above all, to the principles of eternal right, made him at once a leading national character. The nation stands sadly in need of such men, who hold right above might.

President Taft said, at St. Paul, that he joined in the prayers that the life of Governor Johnson be spared, because he is a man that the State and Nation cannot afford to lose. This is an honest confession, coming from one who does not agree with the Governor on the leading issues of the day. Truly the people do need such men as Johnson, but he died on Tuesday.

Mr. Clarence Lebus has announced that he will not claim the \$10,000 bonus, and the Burley Society and the Society of Equity have joined interests in this year's pool of tobacco. These facts will encourage those who favor the Pool, and, as it will be declared off or on, October 1, it behooves the growers to think and act quickly.

President Taft is making a tour of many thousand miles during which he is speaking to the dear people, patting Aldrich on the back and defending the Tariff bill, which is destructive to the interests of the masses. He is certainly electioneering for the second term.

We are glad to note that the State Fair was a full and complete success, over 100,000 people having attended, and the vast resources of Kentucky were brought to light in a glowing manner.

The meeting of Commercial Clubs at Lexington was well attended, and steps were taken to create a unity of interests and encourage immigration and the investment of capital in Kentucky.

Judge S. W. Hager has purchased the Owensboro Inquirer and will make it a red hot Democratic paper, he being competent to do so in an exceptional manner.

A Burglar in Town

His name is "had cough." He doesn't care for gold or silver but he will steal your health away. If he appears in your house arrest him at once with Ballards Horsebound Syrup. It may mean consumption if you don't cure for all coughs, colds and chest troubles. Price 25c and \$1.00 per bottle. Sold by R. E. McRoberts. 1m

Dr. Notts' letter aroused a storm of protest. Sticks stoutly to statement. Offers to put up money to back his opinion.

In a recent issue of this paper Dr. Nott, whose fame is a matter of national recognition, stated that there was no cure for baldness. An opinion which is evidently not shared by all, otherwise the existence of numerous concerns that advertise to cure baldness, to put hair in a billiard hall, etc., would be unimpaired. What Dr. Nott did state, as reference to the issue containing his statements will corroborate, was that he had never seen in all of the thousands of cases which have passed under his notice, one instance where the disease of baldness had been cured. But he did state as well that he cheerfully admitted that there were remedies that would restore gray hair to the color of youth, and that there were Hair Tonics which would encourage the growth of hair, cure dandruff and the ordinary diseases of the scalp, he referred particularly to Q-Ban Hair Restorer and Q-Ban Hair Tonic. Dr. Nott states that he will give to any charitable institution named \$1,000 on receipt of any authentic proof showing that hair has ever been put on a bald head where the roots were dead. Since his last statement the druggists have in general laid in a supply of Q-Ban Hair Restorer and Tonic. Any one who wants to win the \$1,000 that the doctor offers, may send a letter to Q. B. Depot, Memphis, Tenn. He states, and any druggist will endorse the statement, to the effect if six bottles of Q-Ban Hair Restorer falls in a single instance to change gray hair to a natural color, that if the patient has used six bottles and the result is not as claimed, a letter written to Dr. Nott will bring back the money expended, and that if a six-bottle lot of the tonic doesn't increase the growth and strength of the hair, cleanse and purify the scalp in good condition, money will also be returned. You know your druggist—ask him.

R. E. McRoberts recommends and sells these preparations.

If you are gray haired or your hair is commencing to fade you can have the first full size 50c bottle by sending 12c in postage to the Hessig-Elis Drug Co., Memphis Tennessee.

Convenience in City. In Leipzig there are street kiosks where for a penny the city directory can be inspected.

Cat's Bite May Cause Loss of Hand. As Annie Kromer was walking along the street in Nazareth, Pa., she stooped to get a stray cat. The beast sprang at her and fastened its teeth in the back of her left hand. Suffering excruciating pain, the girl ran several blocks to her home, with the infuriated cat still hanging on. It had to be killed with a club before it let go its hold. It is feared the girl will lose her hand.

Cures and Prevents. W. T. Ballinger, Lexington, Ky., says: "I have used Bourbon Hog Cholera Remedy and I think it is the only remedy ever made that will cure and prevent hog cholera." For sale by J. R. Mount & Co.
