Rules for Ladies Travelling Alone.

1. Before starting on a journey, familiarize yourself with the route, and with names of good hotels at the various stopping places.

2. Never travel with just enough money, but always carry enough to provide for any possible emergency. This will save much anxiety.

3. Wear but little jewelry, and keep the larger part of your money in some inside pocket, out of sight.

4. Always look ahead, especially, and do not allow a stranger to procure your ticket or check for your baggage.

5. Avoid, if possible, making changes in car by night, but when unavoidable, go with others. Do not become separated from the crowd.

6. If any doubt as to changing cars, checking baggage, etc., inquire in advance of the conductor. The conductors on our trains are always polite and will be glad to be of service, especially to women traveling alone.

7. Do not wait till about to make some change in train before inquiring of the conductor, for ten to one, he will then be hurried and you will only half inform yourself; and finally,

8. Under all circumstances, endeavor to retain presence of mind. One who can do this will have no trouble traveling, and instead of its being unwise for women to travel alone, I think it an advantage for them to make trips alone, for there are few people who are not at times obliged to do so, and experience does not show much of the possible danger in traveling.

9. Where Tin Ores are Found. Tin is one of the earliest metals known, which is contrary to what, not many years ago, was the general opinion of scientists.

10. A Female Mail-Robber. Special Agents Tidball and Henderson, of the Post-office Department, returned to Washington, the other day, with a large amount of money.

11. Food Dry Goods. A dry goods clerk who was staying after ordering his dinner at a Washington restaurant the other day, was requested by the waiter to take charge for a minute while he stepped around the corner.

12. Hygiene of House Plants. It is well known that the animal and vegetable world are balanced over against each other.

13. Mother-in-Law. Very young men, or very conceited ones, indulge in a great deal of cheap satire at the expense of managing mamma.

14. A New Agricultural Plant. A new plant, says the New Haven Palladium, has appeared in the interior of the State of Connecticut, and is laying waste fields of corn.

15. The Extended Popularity of DOOLEY'S YEAST POWDER is the best evidence of its worth. Whenever you want a light, white, sweet biscuit, delectable popovers, elegant cakes, or a choice pudding, DOOLEY'S BAKING POWDER should be used.

16. Make Hens Lay. An English Veterinary Surgeon and Chemist now traveling in this country, says that most of the hens he has seen are laid up with the disease known as "the dry bones."

Furlons Sharks.

As the large seine of the East Haven Fishing Company was being drawn to shore recently, and when the catch was close in to the beach and the heads and tails of thousand of whitefish constantly appeared and disappeared, thickly filling the surface of the water in the net enclosure, an unusual and violent commotion told of the presence of more sharks in the net.

Exciting scene on the beach. The operation of hauling until five of the whitefish intruders were making for the sand fly on the beach, and snapping their saw-teeth in the most savage fashion. A beam-pole inserted in the mouth of one of them was held as in a vice, and pieces of board were bitten in two.

A Servant Girl's Paradise.

A lady in Melbourne, Australia, who had advertised for domestic aid, received a call from a pretty maid, with unexceptionable references, a pleasing manner, and a willing disposition.

The lady was charmed and engaged her on the spot. "But I have always had a whole day's leave of absence every fortnight," the young girl remarked, pausing on the threshold.

"You shall not be deprived of them," was the ever-ready reply. "And this is a very lonely place, ma'am," the girl rejoined, "and I could not come home by myself. Would the master mind coming for me?"

The lady hesitated a moment, but as a good girl is not to be picked up every day, she finally consented. The next day, she found her new servant, and her husband returned she informed her that he would have to refuse all invitations for two nights in one week and one in the other in order to go after the new help.

"Let me have men about me that are fat," said Caesar, and if the modern aspirant for the toga and the crown has a like wish, there are plenty of men who will supply the requisite avoirdupois. But from whence come the affinity between claims and fat men? We rarely ever hear of them except in connection with a bake of that rough and indigestible bivalver shell fish.

No one ever hears of a company of thin men going on an expedition for that purpose expressly, and it would be quite a natural thought that those men who are so susceptible of blubber and oil would be better employed in studying the philosophy of Banting than in adding to their weight through the administration of a clam-baking Soyer.—Newark Advertiser.

Encouragement for the Feeble. So long as the falling and vitality are capable of being rekindled into warm and genial glow, just so long there is hope for the weak and emaciated invalid. Let him rest, therefore, patiently, and derive encouragement from this and from the further fact that there is a restorative most potent in renewing the dilapidated powers of a broken-down system.

Does the World Move? "De ans do move, for in de morning" it shines on dis side ob de house, while in de evening, 'on dis side ob de house, 'de ans do move, how come he dar?" Notwithstanding Mr. Jasper's logic, we yet believe the world moves. When Mr. Jasper's idea constituted the popular belief, people thought that to die of small-pox or cholera was simply fulfilling one of nature's laws. Now, through vaccination, small-pox is averted, while cholera, dysentery, and diarrhoea are readily cured by the use of Dr. Pierce's Compound Extract of Smart-Weed.

WILMORE'S FEVER AND AGUE TONIC. "CHILL, FEVER, AND SICKNESS." Dr. Wilmore's Tonic is curative and preventive. It will cure Chills and protect from further attacks. Its effect is established. In the house ready for any emergency, it is an ever-ready remedy for croup, whooping cough, sore throat, and all other ailments of the throat. It is a simple and safe remedy, and its effects are permanent. It is cheap, because it saves doctors' bills, and it is harmless, because it acts so gently on the system.
