If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOVE, 61 Terrace Street, Boston.

A SHOCKING DEATH.

A DEAF FISHERMAN AT HAWESVILLE KILLED BY A LOCAL FREIGHT TRAIN.

His Head Cut in Two and His Body Horribly Mangled—The Trainmen in Nowise to Blame.

David Morgan, a deaf fisherman, was run over by the local freight train Friday afternoon and instantly killed. He was walking down the track towards Hawesville, and when the train rounded a curve he was discovered ahead of it, but too near for it to stop before reaching him.

The whistle was blown, the bell rung and the engine reversed, but it was too late. The pilot struck him and knocked him into the air, and when he fell it was with his head in front of one of the swift-flying wheels. The locomotive ground over his body, and when he was taken out it was found that his head was cut in two and his body was otherwise horribly mangled.

The trainmen took up the mangled remains and put them together, after which they notified the authorities of Hawesville, who sent out and had his body brought to town.

There was no blame attached to the trainmen, as they were running at an ordinary rate of speed, and the man would never have been killed except for his misfortune in being deprived of his hearing.—Owensboro Messenger.

WE KNEW IT!

Since our published reduction in prices of our Clothing our Salesmen have been kept busy—in fact, we have had a big run on our stock, and certain styles have perceptibly dwindled down. A few more weeks like the one just passed and some of the choicest styles will be closed out. Don't delay a visit to our store. Our polite salesmen will show you every attention, whether you purchase or not. It is a very common thing for Clothing dealers to continually advertise reductions. When we do the same periodically the public know that we mean it, and they come to us feeling confident that they will not be hood-winked. It affords us much pleasure to have the confidence of the people.

GEORGETOWN COLLEGE

40th Session begins Sept. 2nd. Young men if they wish through collegiate training or if they can spend only a year or two in college and yet wish a useful and practical course of study at reasonable cost should go to the old Blue Grass College at Georgetown, Ky. Address the President, R. M. DUDLEY, D. D., GEORGETOWN, KY.

The City Council.

The City Council met in regular session last Friday night, Mayor Hamblen occupied the chair, J. C. Nolte, represented the first ward and C. E. Lightfoot, Geo. Weatherholt the second. Minutes of the last meeting read and approved. The ordinance committee reported an ordinance regulating the running of trains of the L. St. L. & T. railroad, which was adopted and ordered printed. See ordinance in another column.

On motion of Mr. C. E. Lightfoot the ordinance passed, May 4 1888, granting the Cloverport Mineral Company the exclusive privilege of supplying the city with natural gas was repealed. The following is the ordinance.

Be it enacted by the Mayor and Council of the City of Cloverport, that the Cloverport Mineral Company is hereby granted the exclusive privilege of laying Conduit pipes for the transportation and flow of Natural Gas under and through the streets and alleys of the City of Cloverport for the period of thirty years from this date, but said privilege shall not be exercised in such a manner as to not interfere with the use and travel on said streets and alleys, or the sewerage thereof except that in laying said pipes they may have the reasonable use of the streets or alleys for that purpose. Provided, that said Company shall upon the completion of the laying of the said pipes and when transporting gas therein shall furnish to said city free of charge, during the existence of this privilege, gas for fifty street lamps or so many as the council shall require, not exceeding fifty in number and the city shall have privilege to tap or connect with the Company's pipes at such points as the city shall desire where such connection can be made.

A committee was appointed to get plans and bids for a new city jail the cost not to exceed \$1,000.

Misses Susan and Hester Tate, of Custer, paid this vicinity a flying visit last Sunday.

Messrs. M. Meyer & Co. are receiving a large stock of goods which they will dispose of at a reasonable profit.

Tobacco worms are reported very plentiful. Such is always the result when there is a small crop planted. Of course there are always about the same number of the pests, but the scarcity of tobacco makes them appear more abundant.

Miss Jennie Gilson, of Louisville, who has been visiting this place for three weeks past, returned home last Tuesday. She was accompanied home by A. L. McGuffin, who expected to see the double hanging—Dilger and Smart—but he, like many others, got badly disappointed and had to remain outside the jail wall and can only tell us what others saw.

I had the inefable pleasure of attending a picnic and speaking combined at Locust Hill on the 1st. Everything went off quietly until the Hon. Milton Coke commenced his wonderful harangue of how the Democrats had legislated to the detriment of our people's interests, when a genuine, old-fashioned knock commenced just in front of the speaker. The people, thinking the fight a better species of entertainment than a Republican speech, forsook the fascinating song of High Protection and rushed to the scene of disturbance, which delighted them more. The parties were separated before any serious damages were done, and after considerable parrying, the audience returned and listened to the "Siren song of unjust taxation," after which Mr. Jolly was represented by Mr. Monarch who in an unanswerable speech of short duration, successfully refuted the chaffy arguments of his opponent.

The echoes of heavy thunder in the West indicate that the speaking which is to commence in a few minutes will be attended by rain. I expect that Mr. Coke will appreciate a little water before Mr. Monarch gets through with him to-day.

Joseph Friel, James Petry, R. B. Pierce, C. M. Ballitt, A. Inglis, C. W. Satterfield.

Notice is hereby given that, Alexander Inglis, Geo. Bentley, R. B. Pierce, Joseph Friel, C. W. Satterfield, James Petry and C. M. Ballitt, have associated themselves as a body corporate and politic, under the corporate name of PANTHER CREEK GAS AND MINERAL COMPANY, of Breckenridge County, Ky., its principal place of business at Cloverport Breckenridge County, Kentucky.

The Right Kind of EDUCATION PAYS!

If you want your child educated send him to a TEACHER; if you send him to school to get rid of him or because it is customary, then send him to a HEARER OF RECITATIONS. There is a vast difference between teachers and recitation hearers. A teacher stimulates his pupils and encourages them to learn for the sake of the power it gives them; the time-serving recitation-hearer encourages his pupils to memorize their lessons in order that they may recite well and get a good mark. Which will you choose for your boy and your girl? If the former, then patronize the

CLOVERPORT HIGH SCHOOL!

Which enters its Second year under the guidance of

MAJOR C. W. FOWLER, &c.

Monday, September 9th, 1889.

One year's work has shown us the defects of the old plan that has been followed in the past, and it has enabled us to prepare a graded course of study, extending from the primary to the high school. Of course this will require more help, and the Board of Trustees has given me an

INCREASED NUMBER OF TEACHERS.

If you want your child to have a first-class GENERAL EDUCATION let him take our REGULAR COMMON and HIGH SCHOOL COURSE, consisting of, in addition to the Common School Branches, which include Physiology and Civil Government, Algebra, Geometry, Trigonometry and Surveying, with Field Practice German, Latin and higher English; Geology, Botany, Physics, Physical Geography and Chemistry. What school presents a better course? And remember we have over \$150 worth of Apparatus and \$300 worth of Engineering Instruments, all of which are used in our regular Course without extra charge.

TERMS FOR TUITION:

Primary per month	\$1.50
Intermediate per month	2.00
Preparatory	2.50
Beyond Prep. " "	3.00

The Regular Course, at present, contemplates two years beyond the common school branches, but it is confidently believed the course will be extended two more years in 1890.

If you do not care to take the Regular Course, or if you want something more practical, then take our

BUSINESS COURSE

Consisting of Practical Arithmetic, Algebra, Letter Writing, Book-keeping, Commercial Law and Typewriting from Phonographic dictation; the first school in the State to introduce this wonderful invention! By means of this little instrument the necessity for laborious shorthand writing no longer exists, for it will repeat at any time anything spoken into it, any number of times. They are rapidly supplying the place of stenographer in our large cities, and the young man that can supply and use a Typewriter and Phonograph is Certain of a Good Position.

BUSINESS COURSE, (Extra.)

The Complete Course with use of Instruments, per month	\$4.00
Typewriting per month, with use of Instrument	2.00
and Phonograph	3.00
Book-keeping per month	2.00
