Hard Times, You Say. Must Cut My Advertising. Are You Wise? Reflect

Further. The outlook is better. Keep your advertising going, you will be there when the boom comes and get the cream, the timid will come after and take the skimmed milk.

The Breckenridge News. Goes into over 2,000 homes in Breckenridge, Meade and Hancock counties. This means over ten thousand readers. Just think of what a vast audience you will talk to.

DEMOCRATIC TICKET. For County Judge JOHN ALLEN MURRAY. For County Attorney MILTON BOARD. For County Clerk R. C. RICHARDSON. For Sheriff F. K. RHODES. For Assessor HENRY GARNER. For Surveyor A. A. LAHEIST. For Justice J. S. DEJERNETTE. For Coroner WM. EMBRY.

A COMPANY for the Commonwealth is being organized at Paducah.

BUSINESS is reviving in this town. Our brick plants are all in active operation this week.

JUST at the present time Owensboro is in all the throes of selecting a name for a new park.

THE second installment of our deeply interesting serial "A Fight for Millions" is published on another page of this issue.

EX-POLICEMAN Jeff Burdett, of Owensboro, was fined \$100 last week in the Circuit Court of Daviess county, for killing Wyatt Tinsley, an old negro, about a year ago.

LOUISVILLE boycotts Breckenridge county brick and Breckenridge county asphalt. How would Louisville like to see Breckenridge county merchants going to Cincinnati for their goods?

EVERY town in the state that pretends to be a town is building water works. What's the matter with this town? Just waiting for the fire fiend to wipe us from the face of the earth.

JUDGE Bradley has over-ruled the motion made for a new trial in the Breckenridge-Pollard case, and the counsel for Mr. Breckenridge gave notice that an appeal would be taken to the Court of Appeals of the District of Columbia.

OUR correspondents will please be patient. We will give you all a hearing next week. An unexpected rush of ads and job work has kept our whole force up to their eyes in work and we have been compelled to let some of our correspondents go over.

THE State Press is grooming itself for a delightful time at Frankfort in June. Geo. Willis, of the Daily Capital, and other members of the local press are arranging a very enjoyable program, and the meeting promises to be one of the most pleasant in the history of the association.

MR. GEO. DUBELLE, a fine lawyer and excellent gentleman, is a candidate for the Republican nomination for Congress in the Louisville district. If Louisville wants to be represented in the Halls of Congress by a Republican, she couldn't send a better man than George Duffelle. There is nothing bad about him except his politics.

IT is now State Senator and Adjutant General A. J. Gross, not, he says, of his own predilection, but of a power beyond his control. The General says when a good thing is forced upon him, the only way he knows out of it is to accept, whether it is just to his liking or not. Viewing it from this standpoint it is a question whether any of us would throw a \$2,000 office to the breeze.

BRECKENRIDGE county asphalt, with offices in Louisville, is being shipped through Louisville to Buffalo, New York, where it has been declared the finest in the world, and the streets of that city are being laid with it. Now right in the face of this, the Board of Aldermen, of Louisville, last week, passed an ordinance, providing that all the asphalt streets of Louisville be made of Trinidad asphalt. This asphalt is handled exclusively by the Barber Asphalt Company, and the home of the Barber Asphalt Company is Buffalo, New York. Now, it should not be a moment before that the Louisville Aldermen are a set of mullet-heads, for such is not the case. However, it is reasonable to suppose that the Louisville representative of the Barber Asphalt Company knows just what kind of argument to use on a Louisville Alderman to convince him that Trinidad asphalt should be used on Louisville streets. The same argument caused Cloverport paving brick to get a black eye last summer in favor of the John Porter, West Virginia, brick, a material far inferior in every respect to the Cloverport vitrified brick.

"I pronounce you husband and wife." The ceremony is over, and one by one the guests enter the reception room and view the presents. That beautiful sterling silverware, that dainty clock, that showy bronze, and many of the other presents come from T. C. Lewis & Co. Emmet Mattingly gave an old-fashioned goose supper at his restaurant last Saturday night. It was largely attended and much enjoyed by all. No man or woman can cook a goose like Emmet. For the benefit of those who failed to get in last Saturday he has decided to give another next Saturday night. Don't fail to be on hand early.

Articles of Incorporation of the Drake & Brown Tricycle Company were filed in the County Clerk's office here Monday. Its principal office is at Irvington, Ky. The nature of the business to be conducted is the manufacturing of vehicles propelled by hand or foot. The incorporators are Marshal D. Drake, Wm. E. Brown and Agnes T. B. Brown.

LADIES. Needing a tonic, or children that want building up, should take BROWN'S HOOK WITTE'S. It is pleasant to take, cures Malaria, Indigestion, and Biliousness. All druggists keep it.

BRANDENBURG.

Mentioning the fact in this column a few weeks ago that some parties skipped the town and left a board and livery bill unpaid must not be taken as an evidence that such tricks are common here. On the other hand it is rarely the case that we have comers and goers who fail to settle all bills. The hotels are run by prudent, accommodating men, and their guests, as a rule, are those who pay.

Mr. M. M. Gilmore, the merry-go-round man, was here Monday. He says he will start with his machine soon at Leavenworth, Ind. He will not visit Hardinsburg unless he can make it a point to be here on the day of Robinson's circus. He says Mr. Thomas Duffey talks of quitting the railroad business and taking an interest with him in the merry-go-round.

There is a big sale of fertilizers in this town. Five years ago when they first began the sale of fertilizers, B. F. Beard & Co. say that one car load was the extent of their sales the first year. The trade on the article has grown so that this year they say, their sales will reach eighty-five tons. Hook, Miller & Co., also have a large trade in fertilizers. Every farmer in the country that raises anything like a crop hadily thinks of starting into the planting season, now, without a good supply of fertilizer.

For the first time, probably within the history of the place, the little city of Brandenburg at this session of Circuit Court had the presence of a negro lawyer. Mr. Yancy is the name of the colored gentleman, and his first case was a defense for another negro, whom the jury sent to the penitentiary for twenty years. Yancy came here Monday and I understand will attend the session of Circuit Court here the 2d Monday in May. He hails from Chicago.

EPWORTH LEAGUE. It gives us great pleasure to have the older christians present at our Epworth League spiritual meetings on the 3rd Tuesday evening and every Sunday afternoon.

We love to make our own church a power in the world, while we live to love every other church which exalts our Christ.—Epworth League. Henry L. Stanton, the Kentucky poet, will give a recital at this place in May, under the auspices of the Epworth League. He has never gone to so small a place before. The League is highly honored.

The object of the League is to promote intelligent and loyal piety in the young members and friends of the church; to aid them in the attainment of purity of heart, and in constant growth in grace, and to train them in works of mercy and help.

The "Epworth League" is an active and earnest body of young christians who want to accomplish great good. There is intense activity in every department. The devotional exercises are energetically spiritual.

The young Epworthians are taking hold of the League work with such enthusiasm the growth of its membership is rapidly on the increase. At our last regular literary meeting of the League Shakespeare day was observed. The church was beautifully decorated with the Epworth League colors, red and white.

The quotations from Shakespeare were apt and pithy. The paper—"Characteristics of Shakespeare's Women," was full of thought and food for the mind and soul.

It is impossible in a brief way to do justice to "Fortia" and "Shylock." Portia, cultured and refined, and of sweet and gracious spirit, was a favorite. Shylock, novel and bold, followed fearlessly to a finish.

The music was excellent and very much delighted the audience. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggist, 75c. Swiped The Grip. The Hardinsburg Post-office is Robbed of a Small Satchel and \$325 in Stamps.

HARDINSBURG, Ky April 30.—The post-office was robbed here last week of \$325 in stamps. Nothing else of much value was taken. The stamps were in a small hand satchel, which Mr. McClure used in carrying stamps and small packages to and from his home. He says his son set the satchel down in the office, some time after supper and went out intending to return in a short while and get it and take it home as was his custom. When he returned to the office the satchel was missing. There has been no clue to the thief.

A man stepped up to the shirt counter the other day, remarking: "I never had a shirt to fit me any better than a pillow slip would." What can you do for me? We have this order and we will do the rest—Babbage, the leading shirt, collar and cuff dealer.

SIROCCO.

The plowman homeward plods a weary way. The swallow twitt-reth from his straw-bait shed. The chauticleer's shrill clarion heralds the coming morn,—before a fellow gets half a rough sleep.

The lowing herd wind slowly o'er the lea,—but they won't do it much longer. We're going to have a stock law. Who, ho, ho, who is she writing from Payneville, anyhow? 'Pears like the Kirk correspondent's thoughts were "kinder dogishly" inclined last week.

The Sirocco merchant got "cotch" on the Grand Jury last week. Seems like old bachelors don't quit courting after they get married. Frank Glasgow died of consumption, near Big Spring, the 21st ult. and was buried at—burying ground the 23rd ult.

Misses Ella and Mary Haynes and grandma, Mrs. Martha Haynes, have returned from a ten-days visit to Mr. Boyd Withers, near Willowdale. They report a nice time, and Mrs. Haynes who is an invalid, says the trip has helped her very much.

Joe Brown of Wolf creek has rented the Burkhardt property near Payneville, and Uncle Dan Burkhardt, who is paralyzed on one side, has moved to his son Sam's, at the place vacated by Mr. Iven Squires, near Sirocco.

I want to apologize to McDaniels for the harshness of my return to her unkind thrust. The harshness of her panegyric outbursts led me to believe that the effusion was from a masculine pen. There was not that smooth, rippleless flow—suavity of style usually perceived flowing from a feminine pen. Madam, please excuse me.

Here is the sheet of unadulterated Sirocco, that the poor little thing has been crying for. Read it to mama deary, then go to sleep. "I've your baby hunting. Papa's gone a hunting. To catch a little rabbit skin. To wrap the baby up in."

Guffaw, guffaw. Why can't some people get over the late campaign? I believe all the defeated candidates will survive their defeat, but really I am getting uneasy about our neighbor across the way. Wonder if he wasn't promised a position in the clerk's office? I expect we had better send him up Salt river to keep his defeated friend company. The trip would doubtless be beneficial to his health. He is pining for the departed, send him.

Rumor is current to the effect that Ike Berman, the little Jew peddler, whom mention was made of in my last letter of having passed through Sirocco, was foully murdered by two men by the name of Thompson, somewhere between Cold Spring and Cedar Branch, last week. Thompsons, it is reported, made their escape by crossing the river. I have not been able to learn the particulars of the dastardly deed.

Joe Brown has returned from Rockport, Ind. He says the "shakes" ran him back to his old Kentucky home. He reports chills innumerable in that part of Indiana; gives a glowing description of wheat fields and predicts an abundant crop. The anticipation of high water has caused the low landers to be more backward with corn planting in that section, than they otherwise would have been.

The colored school on Prospect Hill will close the 4th inst. Rev. Morrison of Brandenburg, will address the school after preliminary exercises are through with the school was to have closed last week, but Charlie Burch, the chairman of the Board of Trustees, said she shouldn't and she didn't. Sabbath school and preaching on the above-mentioned hill every Sunday evening.

The most singular freak among the reptiles that we have noticed lately is the gathering together of a vast number of tortoises in a lonely hollow just below Payneville, known as the Miller hollow. Up to date, fifty all told have made their appearance, and were seen encamped by one, Mr. Huff, of Payneville vicinity. A fruit tree agent was travelling that way, and when told of the singular army encamped near his road changed his course. The supposition is that the terrapins are gathering together for the purpose of re-enforcing Coxe's command.

While in Brandenburg, the 26th ult., I had a pleasant conversation with Mr. Ed F. Windell, of Indiana, who has purchased land in the vicinity of Weldon, Ky., for the purpose of growing peaches, pears and smaller fruits, such as currants, gooseberries, raspberries, blackberries, etc. He began planting his trees last fall. His fall and spring setting amounts to, in all, 5,410 trees. Budded peaches 4,910, Keefer pears 500. From the struggle that is being made by fruit growers, and the adaptability of our soil, surely no state in the union will excel old Kentucky, and no county will excel old Meade, in a few years, for such fruits as are adapted to our soil.

Noah says the Ark is ready to receive animals now. A forlorn old Billy Goat was the first one to put in an appearance and as he had no mate, Noah told him to vamose, that there was no place for him. Noah certainly has forgotten the time that he and that poor old Billy Goat played together before he got a mate. Some people though, are naturally heartless, and too, when some people marry they look down with degradation on their fellow paymates that are not able to follow suit. Noah ought to hunt a mate for that old goat and take him in. Its cruel, Mr. Noah, cruel, I say.

Mr. Elisha Ashcraft was the happiest man in Meade county, a few nights ago. He bought the Yager farm just across the river and moved it over into Kentucky. He bought him a gilded carriage and a span of cream-colored horses and had a liverman set up there pulling the lines. Had his pockets full of money and was just set in back chawin' spittin' out the bulls, when low and behold he woke to find it all a dream. He says he wishes he had slept a week.

DROPPED DEAD. Samuel M. C. Jolly, a Well-known Daviess County Farmer, Dies in His Field.

Samuel M. C. Jolly, an aged farmer living about two and a half miles south of this city, near the Hartford road, dropped dead yesterday morning. He was at work in a field and came to the house at 10 o'clock to get a lunch. When the dinner hour came, his daughter called and receiving no answer, went to the field and found him lying prostrate. Dr. Pennington pronounced it apoplexy. Coroner Hayden held the inquest in the afternoon.

The dead man was 63 years old and leaves a wife, who is at present in Breckenridge county. He was an old and prosperous farmer and leaves many friends.—Owensboro Messenger.

"It will do it!" "It will do it!" protested a member of the family that had long been afflicted with a case of consumption. Reference was had to Dr. Fenner's Golden Relief. Doubt had been expressed that it would cure consumption. The protesting member had witnessed the invalid, the frequent visits of the Doctor, and had accompanied the "trips South." Had noticed the "hectic flush," the "nervous irritation," the "constant cough" the "profuse expectoration."

He had also seen the discontinuance of all these—the administration of Dr. Fenner's Golden Relief, followed by the restoration to perfect health, and he knew the Golden Relief was what had done it. He was "honest and fearless" enough to "tell the truth." Cures also sorethroat, bronchitis, cold, dysentery, bruises, burns, cuts and all sore—in fact, inflammation in any form or place from a corn to a consumption. No inflammation no corn, no inflammation no consumption. One tabespoonful dose cures La Grippe. Never disappoints. If satisfaction not given, money refunded. Take a bottle home to-day.
