The turnpike raiders are still getting in their work in Central Kentucky.

The first and only negro ever elected to office in this country, died in Washington D. C. last week. He was a member of Congress.

MR. JOHN P. HASWELL, JR., of Hardinsburg, Representative elect has announced himself as a candidate for speaker of the House.

Now is a good time to get in a good advertising law for the state, says the Carrollton News. Five newspaper men will be members of the next Legislature.

PRESIDENT McKinley's message which he is preparing for Congress will be unusually lengthy. He has denied himself to all visitors for sometime, being engaged in its preparation.

PARTIES holding state bonds have threatened suit against the Fiscal officers of the state for their money. It is openly charged that the state's finances have been poorly managed for some years.

THERE is only one woman representative in the General Assembly of the Knights of Labor, says a correspondent. Yet in nearly all the classes of labor the women take to it more willingly than the men.

THE magnificent steamer Bluff City, burned to the water's edge on the lower Mississippi last week. No lives were lost but at last it was a narrow escape. A railroad smash up would probably have caught them all.

Now is the winter of our content made glorious, by the thought of to-morrow when our heart will turn lightly to roast turkey, oysters and cranberry sauce. Yes thankful, even if we should be disappointed.

At the rate the telephones are running in this county it may not be long until there is one on every public road. The people up about Garfield and Custer are so charmed with it that they sometimes talk over it all night.

THE last and most reliable grape vine intelligence from Mark Hanna is to the effect that he will be the next Senator from Ohio. The Hanna and McKinley combination is hard to down. Republicanism in its strong holds is hard to overthrow.

THE postal savings banks is another scheme to concentrate the money of the people in the moneyed centers. Keep your money at home, invest it in home securities, is the best way of making your home people and your home communities prosperous.

OUR young and enthusiastic nephew of the Messenger, we are afraid is in the hands of the politicians. So long as he does their bidding he'll be a fine fellow. But let him refuse to come to time just once and what'll do for him and say about him will be a plenty.

WM. C. WHITNEY, of New York, has just returned from England and speaks thus political. "If the Democracy be true to itself it will resume control of the nation in 1900." Being true to itself and getting itself in proper shape are two quite different matters. But there is time to do wonders in three years.

THE coming Legislature will be largely Democratic and some of the members have already given it out in advance that they intend to fix things so that the Democratic party, which contains the majority of whites, intelligence and property of the state shall continue to hold the governing power.

THERE was a Democratic love feast held in Louisville last week. Those present were office seekers and prominent politicians. The object of the meeting, we understand was to talk over the recent victory and raise funds to keep the Dispatch going. About \$25.00 was subscribed. Our experience is that sentiment goes a mighty little way in the business of publishing a newspaper.

THERE is some interest manifested, as to what the official vote in the state will be between the candidates for clerk of the Court of Appeals. Shackelford made a good run, but his majority was not as large as was anticipated. As for Hindman he was so horribly done up that his vote may be lost sight of altogether. His chief organ, the Courier-Journal, make a hard fight and a manly surrender.

I had a pleasant visit last Sunday and Sunday to Arlington, the home of Mr. and Mrs. Thos. H. Ditto. That good frugal wife proves what can be done with poultry and marketing on a farm. From March last till July she sold from 50 hens, 650 dozen eggs besides raising 300 young chickens and using all she needed in family. 50 fine broods turkeys are now ready for market, and 50 pekin ducks which will be the last as they are too troublesome in the yard. Mr. Tado, the Japanese lecturer, filled his appointment here Friday evening. The audience was very good, but nothing compared to what should have heard him. People who wish to inform themselves often make shipwreck of opportunities for a few cents. The gentleman had exhibits with which to illustrate the various departments of life in Japan. One thing that he said that I wish to note. They have no kissing, none at all. Even the lover does not kiss his sweetheart. "Now isn't that awful?"

The command "Thou shalt not steal" should not be confined to such trashy things as one's purse, but as the Sunday-school Times says: "We must follow the Golden Rule very closely, or we shall often break the Eighth Commandment by taking happiness, or time or health from others and really robbing them of more than if we had taken only money or other property."

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement of the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.
