"Hello" Joe Rhodes! We are glad you appreciated Yellow Lake items. Home news is more interesting to a boy when several miles separates him away from his old "stamping ground." May your love never grow less for home and friends.

I was sketching an old book the other day and on a page I found written by an old friend of mine, one who now sleeps beneath the daisies, these words, "This is a cold, hard and unfeeling world, at least I have always found it so." How well that sentence may be applied to many. Who of us escapes the coldness and struggling realities of this world one must face through life. Who has not met with disappointments in their best laid plans and fondest hopes, who has not found the trusted heart turned. Oh, so strangely cold and those we best love, the first to leave our side. Yet amid all opposition to our wishes we must bravely labor on, never resting upon the oar, or say with faltering voice, the labor is too heavy. To pause means to go backward. Ever onward hold thy painful journey and ever upward lift thy weary soul, onward and upward 'till the race be finished, upward and onward 'till we reach the "Better Land."

PETTIT

We would gladly welcome a dry month. The News was a fine paper this week. Very little work has been done toward the new crop.

Our roads are in a terrible condition, in places almost impassable.

I sincerely sympathize with the "old hen of ad count-nance" in not finding a garden to scratch up.

Mr. Vessels and wife, of Owensboro, formerly of Hardinsburg, took dinner with us a few days ago.

We were so glad to see Rosetta stems. Whoever you are, write often. We always welcome news from the "Old Trysting place."

A letter from Herbert Head, in Third Kentucky, says he will be glad to get back as a citizen, and (don't tell it) some one else will be glad too.

Small pox has scared some of our old topics so badly that they are afraid to town after their whiskey; consequently they will be sober until excitement dies out.

Mrs. Grinnell has flowers by the arm load laid at her feet and she deserves them all. Here's hoping she may continue to gather roses along the path as she scatters seeds of kindness.

I have been "ah-in" for two weeks on account of illness, and what a treat it was to have good books to while away the tedious hours. My neighbors too were good, and that make me thankful.

Our boy, William Joseph, Jr., had a light attack of spinal meningitis, but has recovered entirely without any bad effects. We dread meningitis in its worst form, more than small pox. One of our neighbors has a child drawn out of shape and entirely senseless as a result of the dread disease. Our hearts go out in sympathy to the parents.

Brandenburg is fairly represented in Owensboro. Several of her former citizens have taken up their abode in this city, among them is J. Hugh Ditto, of the firm of H. B. Phillips & Co. He is a bright, genial, dignified, young man whom we are always glad to meet and can count as a friend. Cloverport is also represented in the same firm by Harry Moorman, who knows just how to give you a hearty handshake and a pleasant greeting. He will make a success in business I am sure.

Verily the way of the trustee is hard—a lot of work and a thankless job. The trustee should certainly be paid a small salary. There are always men in every district who want to be trustee for the honor they think it confers, while competent men evade the office on account of the trouble it entails. I think the trustee should certainly be paid. The overseer of public roads is another office that is undesirable. We have a hard time to get the road hands all out, and some have to be fined every time. My "better half" won't have the overseer's place at all. He threatens to call the hands out as often as the law will allow right in the busiest time. That scares

LOST HAPPINESS.

"Oh, when a mother meets on high the babe she lost in infancy, Hath she not tears for joy and fear, The day of woe, the wretched night, For all that's past and gone, An over-payment of delight?"

When a baby is taken away by the angel of death from its sorrowing mother she has some sense of consolation which is denied to the sad hearted woman who has never been blessed with the joy of clinging little arms around her neck and a dear, tender little head nestling against her loving bosom. It is sad indeed, that motherhood,

the most complete and perfect of womanly delights is denied to those who are afflicted by their loving nature to enjoy it.

It is impossible to avoid the feeling that kindly nature would not allow her own best purposes to be defeated, without some fault or short-coming on the part of the woman who longs to be a mother, and experienced mothers that in a large number of cases the difficulty lies in some unnatural weakness, which, by proper and reasonable means is altogether remediable.

So delicate and sacred a subject cannot be treated in any but a serious, and at the same time a scientific spirit. It is purely a feeling of the heart, and the women who like themselves shall be made happy and contented that prompted the writing of the following letters which express permission that they be published here:

"My baby girl is now five weeks old and is fat and healthy as can be," writes Mrs. Elizabeth Wright, of Spring City, Fayette Co., Ohio. "I commenced using Dr. Pierce's Favorite Prescription when about two months along and continued to use it until I was confined. I used about ten bottles in all. I have been subject to miscarriage, having ten of them and two premature children, was not treated in the case this last time. I got stronger as each month passed, and I feel that I shall recommend Dr. Pierce's Favorite Prescription to all I meet, who are troubled with female weakness. There are several ladies in my 'Favorite Prescription' since they have seen the benefit I received, and more no doubt, will commence its use after knowing my condition, as my progress was watched with much interest by many of my neighbors and friends."

"My wife has used Dr. Pierce's Favorite Prescription in a critical condition, and finds it the best medicine on earth," writes W. J. Journein, of Rinehart, Calhoun Co., Pa. "My wife had miscarried seven times, but with the last child she took nine bottles of the 'Favorite Prescription' and the child is now a healthy boy. The Favorite Prescription makes childbirth easy."

"Dr. Pierce has for thirty years been at the head of that great, model sanitarium, the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., as its chief consulting physician. Here he has had an intimate, practical experience in this particular field of practice, which is probably unequalled by any other physician in America. His 'Favorite Prescription' has cured more cases of female complaint than all other medicines combined. It is the only proprietary remedy devised for this express purpose by an accomplished, scientific physician. When you ask your druggist for Dr. Pierce's Favorite Prescription, and he says 'let me sell you something else just as good' ask him gently but firmly if his own good medicine has a 'just as good' record as Dr. Pierce's, a 'just as good' physician behind it as Dr. Pierce, and carry with it the 'just as good' price, a few legs of consultation and treatment, as do Dr. Pierce's medicines.

There are no medicines for female disorders as good as Dr. Pierce's. In fact it is the only successful specific remedy for women prescribed and prepared by a physician in his regular practice and sold through druggists.

Every woman would be benefited by the clearer knowledge of her physical self which she would obtain from Dr. Pierce's Common Sense Medical Adviser, a splendid colored plate. More than half a million copies of this valuable book were sold at over seven hundred engagements and several thousand copies. The paper on which it is printed was sent free for the mere cost of mailing—21 one-cent stamps, which should be enclosed to World's Dispensary Medical Association, Buffalo, N. Y., or if a hardy, sterner, heavier cloth-bound copy is desired ten stamps extra should be sent.

A Life For 50c. Many people have been cured of Kidney Diseases by taking a 50c bottle of Foley's Kidney Cure.—A. R. Fisher, Cloverport, and E. A. Witt, Hardinsburg.

The Bedroom Smell. This is not due to the ordinary exhalations of a person from lungs and skin, lightly more in sleep than when awake. It is supposed to be; and the ordinary bedroom odor is supposed to have no special history or preventable cause. Why should the ordinary sitting-room, where five persons are present some 15 hours out of a given 24, yet have no odor of the particular sort commonly so noticeable in the bedroom of any one or two of the five, though occupied only nine hours? Because the latter is not due to bodily emanations. You get their odor in a crowded theatre gallery. What you do get in the bedrooms of servants and other careless persons is the odor of alops left for long periods in uncovered vessels. This odor is due to a volatile and also poisonous element, which has a peculiar aptitude for being taken up by cottons, and woollens, hence the carpets, hangings, upholstery, and bedding. In time it became attached to every article in a bedroom. Every night vessel should be covered, and be kept covered till emptied and washed.—Ex.

Mothers! Beware of those secret robbers of your baby's quiet and health. Those sleepless nights and long hours of tiresome vigil are caused by those terrible enemies of childhood—worms. Destroy and remove them with WHITE'S CREAM VERMIFUGE. Price 25 cents.—A. R. Fisher.

Advertisement means the news of business. A man who has a special article which he is enabled to sell at a price materially below his competitor has a new item. Its nature is not changed because he buys a limited part of the paper in which he can inform the public of the new price he is enabled to make.
