Work of The Chicago Commercial Club.

From Charles W. Elliot's "A Study of the New Plan of Chicago" in the January Century.

For three years the Commercial club, of Chicago, has been spending much time and money on the preparation of a comprehensive plan for the improvement of Chicago as a center of industry and traffic, and as a wholesome and enjoyable place of residence for 2,000,000 of people, or indeed, for four or five millions. * * * It is a work which demanded intelligence, public spirit, and foresight, all in a high degree; for it deals with the physical and moral conditions necessary to the future success of a great American city which has a central position, great natural facilities for steam and electric transportation, and ample opportunities for the artificial development of the means of a productive and enjoyable life for millions of people.

The Praise That Comes From Thankful Cloverport People.

One kidney remedy never fails. Cloverport people rely upon it. That remedy is Doan's Kidney Pills. Cloverport testimony proves it always reliable.

J. C. Weatherholt, High St., Cloverport, Ky., says: "Two years ago I did not think it possible that I could ever be well again, in fact, I had settled up my affairs. I cannot describe the misery I endured from pains through my back and whenever I stooped, they became so sharp that it really felt as if someone were thrusting a knife into my kidneys. I was often very dizzy, dark spots floated before my eyes and I had to grasp something to keep from falling. My joints became swollen to twice their natural size and I lost weight rapidly until I was a skeleton. The doctors' medicines or the many guaranteed cures that I tried, did not help me and finally it was my good fortune to hear about Doan's Kidney Pills. I immediately procured a box at Fisher's drug store and I was greatly surprised at the results received. Before I had taken the contents of the second box, there was a marked improvement and I continued using them until completely cured. I am now as well as any man in this county and I give Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Von Bulow of Gentle Nature.

From "Modjeska's Memoirs" in the January Century.

When first Von Bulow was introduced to me I almost avoided him, on account of the many stories of his irascibility, his erratic disposition, his offhand treatment of the public, his brutality toward musicians, and many other crimes of this sort. On closer acquaintance with the great pianist, I experienced some astonishment to find him a man of strong mind, yet gentle nature, enthusiastic, artistic to the finger-tips, and well-bred, though of an exceedingly nervous temperament. Irascible he might have been at times, but I am sure that the moments of ungovernable anger were always provoked by people's stupidity, or by some unpardonable mistake in musical execution.

For A Good Time

DID MAMMOTH BUSINESS IN 1909.

The Bank of Hardinsburg And Trust Company Has Greatest Year Of Its History Perfect Management. STATEMENT IS PUBLISHED.

The statement of The Bank of Hardinsburg and Trust Company appears in this issue of the News; it is the biggest ever published by this firm. Last year was the largest and most profitable in the bank's history.

The net earnings for the last six months were 10 per cent, which would be at the rate of 20 per cent, per annum on the present capital, or 40 per cent, on the original capital.

The Bank of Hardinsburg and Trust Company is one of the most reliable banking institutions in Kentucky. Its management is the most careful and has won the confidence of the leading financiers of the state.

Reckless Management.

According to a statement published shortly after the Republicans succeeded to power, there were over a million and a quarter of dollars in the treasury. That party has had charge of affairs just two years now and a statement just issued shows that there are but \$336,837.37 in the treasury, some of which cannot be touched, with \$938,131.88 of outstanding warrants to be paid, leaving a net deficit of \$601,298.51. This is a most discreditable showing. We do not inquire "Who got the money?" as has been inquired here for several years, because we do not think that any of it has been stolen. We simply call attention to the fact in order to show that the Republicans are incapable of giving the State an economical management of its fiscal affairs and the necessity of a return to Democratic principles. —Lexington Gazette.
