FATAL ACCIDENT WHILE HUNTING

Poindexter Galloway Accidentally Shoots Himself and Death Followed Quickly—Funeral Held Sunday.

WAS POPULAR YOUNG MAN

Irvington citizens were greatly shocked Friday afternoon to learn of the death of Poindexter Galloway, aged thirty-three, who accidentally shot himself while out hunting on the Bennett farm near Basin Springs. His only companion, Lewis Bennett Moorman, witnessed the horrible accident. Mr. Galloway lived only a short while. The body was brought to the home of his mother, Mrs. Fidelia Galloway. Mr. Galloway leaves a mother, three brothers and one sister to mourn his loss, besides numerous friends.

The funeral was held from the Presbyterian church Sunday afternoon at 2 o'clock. The Rev. R. E. Reeves conducted the services which were brief, but very impressive. The floral offerings were beautiful, especially the wreath sent by the Bible Class of the Presbyterian church of which he was a member, a blanket of smilax and white roses which was presented by a dear and close friend, was beautiful. His boy friends sent a handsome wreath of chrysanthemums. The interment took place in Cedar Hill cemetery. He was buried by the Masons. Friends extend heartfelt sympathy to the grieved ones, especially the aged mother.

GOOD ROADS NEAR CLOVERPORT PIKE IS UNDERGOING IMPROVEMENT

Everybody is Co-operating with the County—Great Enthusiasm Shown in the Work.

Splendid work is going on to improve the Hardinsburg and Cloverport pike near this city. The citizens met at the depot last Wednesday with their teams and hauled the rock furnished by the county. The county also furnished six men to assist in spreading the material.

Plans are being made to get a car of rock every week, as this is as much as the farmers can handle and keep up their other work. Announcements will be made every week in The Breckenridge News in regard to the work and plans that are made to carry it on.

Among those who are furnishing teams and labor are:

Dr. Forest Lightfoot, Dr. E. C. McDonald, H. L. Stader, Paul Lewis, Marion Weatherholt, Frank Oelze, Tom Jennings, Benedict Elder, Ray Pate, Ernest Frey, Johnnie Elder, Floyd Carter, Chas. Hawkins, E. F. Carter, Fred May, Dick Hawkins, Jim Waggoner, Frank Gillum, six years o.d., is the most enthusiastic teamster on the new pike construction. Other names of those interested in the work will be given next week, if persons will inform the paper.

"It was my pleasure to walk out to the pike and see the good roads work started there," said John T. Ditto, of Decatur, Ill., Friday. "They are now putting the rock on fast as is possible. Not anything of greater comfort and

pleasure to a farming section than a good pike. Not only does it facilitate cheaper and quicker delivery of farm products, but it enhances the value of farms from \$5 to \$35 an acre. Every man on the pike will be proud to say as he drives over it: 'I gave a little help toward improving this.' If you have a better idea than is being used for the work, pitch in and help.

Have Good Roads Meetings.

Mr. Ditto suggested that the residents on the pike have a good roads meeting one night out of every week. This is a wonderful day for the farm, he said, and told what the railroads are doing for the farm lands which they run through. The railroads are doing everything to assist farmers in their section. Instead of advertising cheap rates to far off States, they are trying to get good, energetic people to settle along their own roads.

Best Advantages Here.

Mr. Ditto declares there are better advantages for farming in Meade and Breckenridge counties in the land prices than any place he travels. "I travel in three States, and have for twenty-six years, and I find greater farm advantages here than any place else," said Mr. Ditto. He was as much interested in the good roads work on the pike as if he were living here.

Will You Read This Twice?

A very important question to-day which every housekeeper must decide for herself is whether she prefers pure, cream of tartar baking powder like Royal or whether she is willing to use baking powder made of inferior substitutes which do not add healthful qualities to the food.

One kind is easily distinguished from the other, since the laws of various States require the ingredients to be printed upon the label. If anyone is in doubt which kind is most healthful, it is worth while to ask the family doctor. Then decide.

And when once a decision is reached let no advertisement or dealer's argument or canvasser's solicitation change the decision. It is not a question of a few cents or of pleasing a salesman. It is a question of health.

If this appeals to you as reasonable and sensible advice, it is worth reading twice. And it is worth remembering.
