

THE WEST KENTUCKY BAPTIST ASSEMBLY

To be Held at Russellville, Kentucky, June 28 to July 5. Prominent Speakers Take Part in Program.

SPECIAL MUSICAL ATTRACTION

The West Kentucky Baptist Assembly will be held at Bethel College, Russellville, Kentucky, June 28 to July 5. An excellent program, consisting of some of the best talent in the denomination has been arranged. Pastor Ira R. Dean, Toronto, Canada, will speak each morning on the book of Romans. President Lee R. Scarborough, of the Southwestern Baptist Theological Seminary, Fort Worth, Texas, will begin on Sunday evening and speak twice a day thereafter on New Testament Evangelism. Louis Entzinger will speak every day on the Sunday school work. Dr. B. D. Gray, Pastor F. F. Gibson, W. D. Powell, Secretary N. T. Barnes, Secretary W. L. Brooks, Secretary I. J. Van Ness will also deliver addresses during the assembly. There will be classes every morning in missions, Sunday school work and woman's work.

The music will be a special attraction at this year's assembly. Sam Raborn, one of the most successful chorus leaders of the South, will be director of music. The Bethel female quartet will be present for the entire eight days and render their favorite selections and there will doubtless be other music.

Entertainment can be secured in N. Long Hall and in many private homes at \$1.00 a day. Special attention will be given to recreation, and everything possible will be done to make the guests enjoy their visit.

Let every Baptist church do its very best to send its Sunday school, B. Y. P. U. and Women's Society Workers.

Bowel Complaints in India.

In a lecture at one of the Des Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventive and a cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.

Queer Errors.

The error in one biographical dictionary in which it is said that from 1898 to 1900 Roosevelt was "president of New York" reminds the Philadelphia Ledger of the fine old typographical error that crept into one of Horace Greeley's editorials. "There is no barn in Guilford," asserted the editorial, Greeley having written, "There is no barn in Gilead."

STATE CAPITOLS TOO SMALL.

Many Not Large Enough to House the Offices.

One-third of the states of the Union find their capitols inadequate to accommodate the increased state activities that have grown up in recent years, according to data gathered by the Columbus (O.) chamber of commerce, and are wrestling with the problem of finding additional room. To aid the Ohio building commission the organization has secured information from many states on the manner in which the problems are being solved.

The majority seem to favor the plan of erecting a new office building as an annex to the present capitols. In some states the plan has been to build additions to present structures or to remodel the buildings to make more room.

Washington has gone in for a comprehensive group plan of state buildings to cost more than \$6,000,000, while California is bringing to completion a new capitol costing a similar amount. Each is located in a large park. Compared to these the Ohio plan to spend little more than \$1,000,000 is thought to be very modest.

At Madison, Wis., is being completed a new statehouse that has cost \$7,000,000, while in Nashville, Tenn., the plan is to build a separate office structure. The same sort of plan is entertained in Nebraska. Michigan, like Ohio, is getting ready to provide additional room for state departments. In none of the states does it appear that the rent of outside quarters has been made a political issue, as it was in Ohio.

Choir of Policemen.

Charles L. Safford, choirmaster of St. George's church, New York, is proud of his chorus of 100 policemen. This organization came into existence a few months ago, when the singing of a policemen's quartet suggested to Commissioner Woods the possibility of a chorus. He enlisted the interest and help of Mr. Safford.

The picnic given at the Satterfield home last Thursday in honor of Alvin Simons and children, Cissell and Henry May, was in every way a success, notwithstanding the threatening clouds of the morning. By 10 o'clock the clouds were dispelled and the day was ideal until after 4 o'clock, when the approaching thunder storm warned the people 'twas time to scatter. Each said good bye and expressed a wish for another picnic.

Surface Heat of the Sun.

We think the sun is pretty hot in summer when the thermometer goes up to 90 degrees in the shade or out. We begin to get sunburned a long time before it reaches that high. But right on the sun's surface it is between 10,000 and 15,000 degrees hot. That is, of course, a degree of heat which we cannot conceive. How much hotter still it is on the inside of the sun we do not as yet know.
