### LOVELY CHRISTIAN CHARACTER

Mrs. Ermine Hambleton Shellman, widow of the late Mr. Richard Shellman of Hardinsburg, died of complication of diseases at her home in Hardinsburg, Thursday evening, 6 o'clock. She had been ill since last December and the end was not unexpected.

The funeral service was held Friday afternoon, 2:30 o'clock at the Methodist church. Services were conducted by her pastor, Rev. Robt. Johnson who spoke very highly of her splendid service and devotion to her God, her church and her fellowman. The remains were laid to rest in Ivy Cemetery.

## BAPTIST CHURCH AT IRVINGTON APPEALS FOR VOLUNTEER HELP

Sept. 11, 1917

Irvington, Kentucky. Our house of worship was struck by lightning on Sept., 7th, and was burned to the ground, but we saved about half of its contents. We had \$1200 insurance which is a very small part of its value, as we had just built Sunday School rooms costing \$1200, so you see we are needing help if we build again and at once which we are preparing to do. If you desire to help us in our sore time of need, you can do so by sending your contribution to any one of the undersigned. Thanking you in advance for your generous contribution, We remain,

## HUMBLE FREIGHT CAR IMPORTANT.

Factor in Winning the War. An Effort Will be Made to Prevent the Killing of so Much Live Stock on Railroad.

### CARS GO WHERE NEEDED.

CHICAGO, Sept.—Nearly 25,000,000 passenger train miles per annum have been cut off by the railroads since the war began, and further reductions are planned. It is estimated this will save nearly 1,750,000 tons of coal for other uses.

"The sole object of these reductions is to conserve man power, fuel and locomotives, so that these important elements may be devoted to more necessary transportation service during the war," said B. I. Winchell, chairman of the Committee on Passenger Service for the Central, Southern and Western military department of the United States.

### The Freight Car's Appeal

On every freight car of the Santa Fe System will be fixed a card 12x18 inches in size, printed in horizontal stripes of red, white and blue, with this patriotic inscription:

Load Me Quickly  
Load Me To Capacity  
Unload Me Promptly  
And  
Help Win The War!

"If any body thinks the humble freight car is not one of the most important factors in war," said President Ripley of the Santa Fe, "let him imagine what would happen in a very short time to Germany, France, England or to this country if all freight cars stop running for a month, or even a week."

### Conserve Nation's Live Stock.

The American Railway Association's Commission on Car Service has asked all the railroads to make every effort to prevent the great economic loss resulting from the killing of live stock on railway tracks.

The thousands of horses and mules that are killed on railroads every year would fill the artillery requirements of many regiments, and the thousands of cattle, hogs and sheep likewise killed would provide meat for thousands of soldiers.

This economic waste can be greatly reduced if locomotive engineers take every precaution to avoid striking stock, if stock owners will keep animals in fenced enclosures, if town officials will enforce ordinances prohibiting stock from roaming at large and if section men drive stock off the right-of-way and keep gates closed and fences and cattle guards in good repair.

### Cars Going Where Most Needed

In the exercise of its power to operate all the railroads as a single unit, for the best interest of the country as a whole, the Railroads' War Board since May 1 has ordered 113,420 empty freight cars moved without delay from one railroad to another, regardless of ownership.

The latest orders sent 2,450 more cars to the grain producing country, 4,537 to the lumber States of the South and others to territory where the need for cars is most urgent.

Because of the unified policy of railway operation adopted by the Railroads' War Board, despite the most terrific pressure ever inflicted upon the railroads of the country, millions of tons of government supplies, including lumber, munitions and materials for government constructions, have been transported by the carriers without a hitch this year and without interfering to any extent with the regular commercial traffic of the country, which, too, has been increased to vast proportions by the war. Despite the abnormal traffic increase, the Railroads' War Board's policies have reduced the unfilled orders for cars from 148,627 on May 1 to 33,776 cars on August 1.

### Rally Day Services.

Next Sunday will be Rally Day in the Cloverport Methodist church. Rally Day for Sunday School at 9:30 where full attendance in all classes is desired. At 11 a. m. the children of the church will render a special program. In the Junior League at 2 o'clock and Senior League at 6:45 and evening services 7:30. Rally Day services will be held and special appeals made for punctual and regular attendance upon all the church services for the fall and winter campaign of church work. Don't miss this day's services.
