To Measure Up To The Courage And Devotion of Our Men In Europe.

The campaign for the Fourth Liberty Loan begun Sept. 28, and will close Oct. 19. The result of the loan will be watched with keen interest in Europe, not only by our associates in the war against the Teutonic powers but by our enemies. It will be regarded by them as a measure of the American people's support of the war.

The Germans know full well the tremendous weight and significance of popular support of the war, of the people at home backing up the Army in the field. As the loan succeeds our enemies will sorrow, as it falls short they will rejoice. Every dollar subscribed will help and encourage the American soldiers and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the people of the United States to make sacrifices compared with the willingness of the soldiers to do their part. There must be no failure by the people to measure up to the courage and devotion of our men in Europe. Many of them have given up their lives; shall we at home withhold our money? Shall we spare our dollars while they spare not their lives.

Let every one repeat these words, "I thank God I am an American," every morning and answer to the call of our boys "Over There" and buy bonds and buy Liberty Bonds.
Angie K. Gibson,
Chairman of Publicity of National Woman's Liberty Loan for Breckinridge county.

**Hancock County Boy
Invalided Home.**

Serg. Fred W. Snyder, who has been in the Regular Army four years and in France nine months, has been invalided home arriving here last week and is now with his parents, Mr. and Mrs. Elizabeth Snyder who live near Hawesville.

Serg. Snyder is a nephew of Mrs. Wm. Ashby of this place and he spent last Sunday with Mr. and Mrs. Ashby. The returned soldier has many interesting things to tell about his experiences on the firing line and one of the most thrilling ones was when his ship on which he sailed for France was attacked by one of Fritzies' torpedo boats, but the attack was quite unsuccessful. He was also in a terrific storm for three days while at sea.

**Two Interesting Letters
From James Kissam.**

Below are two letters which are exceptionally interesting and they come from a former Cloverport boy, James Kissam written to his mother, Mrs. M. M. Kissam of Somerset, Ky.

Dear Mother: We arrived safely after a great trip. It was sure wonderful, with all kinds of adventures. I am very sorry that I cannot go into detail about the trip for military reasons. Will tell about it when I come home. Be sure and let me know if you got the "Safe Arrival Card" and the "King George of England's Welcome Letter."

England is one of the prettiest places. All permanent brick houses and stone walls everywhere.

France sure is a great place no wonder they fight for it.

I hope that all the folks are well. Is grandma still with you? I have lost track of uncle Tom; you wrote that he was crossing the States.

I am well and like everything fine. We have plenty to eat and servicable clothes. Everything here is quite strange but simple enough to adjust oneself easily, I have picked lingo to ask questions of the natives who are quite surprised to see so big an army. The only souvenir a soldier can send home at present is a German steel helmet which I hope to be able to send.

We landed at an English port. Had a fine overland trip and then across to France. Every inch of land both in England and France is utilized.

Must close. Don't worry about me for I am alright and having a better time than in the States, I will write at least one letter and one card per week and want you to write same number. I have written the address correctly on the first page. With love your affectionate son, James E. Kissam.

My Dear Mother: I trust you received my previous cards and one letter since I arrived. Our mail has not been forwarded as yet but I suppose it will follow us shortly.

This camp is situated on a wonderful region, level, rolling landscape as far as the eye can see. No ugly barren spots, always borders of orderly kept trees or shrubs. The open spots are like the meadows in an old painting; the kind I used to look at and think there were no such places. They were undoubtedly French landscapes.

Our voyage was an interesting one. The weather was fine with the exception of two days off foreign coast.

We were attacked by a number of enemy submarines and had the snappiest seafight imaginable and thanks to the coolness of the ships' commanders' and the bravery of the protecting warships and destroyers. Three were reported officially sank without loss to any of our ships.

There was absolutely no panic among any of the soldiers or ships crew during the fight. It was the coolest work for seriousness of the thing I have ever seen. This is all I may say about the voyage for military reasons.

We landed at an English seaport and traveled inland for a time. England gives the impression of a well ordered city distributed over the country in single blocks. Always in the country and never out of towns.

I cannot recall having seen a single wooden residential building, always permanent stone or brick sometimes stucco and concrete. I saw several straw thatched buildings.

Hedge and stone are the fences and walls there.

England was interesting but we naturally wanted to see our final destination France. We saw the great chalk cliff coastline the first thing and were soon in the French seaport.

Needless to say the French people gave us a great welcome. It was sure strange, marching through the streets of a strange city of a strange country.

It wasn't a strange country after all. It seemed like we had all been here once before sometime long ago.

After a few days in a so called "rest camp" where we did everything but rest we boarded the funny looking little trains and traveled inland. We enjoyed the sights and took it all in. We saw many German prisoners and Allied soldiers of the several different nations and a number of things too numerous to write about.

This camp is one of the largest aviation camps in this section. Airplanes are so common we don't even look up unless some "daredevil" does some hair raising stunt way up in the air thousands of feet and often doing the "raiser" comes down and fumes about forgetting to take a chew of "homespun" or "cut plug" before he went up.

I am well and satisfied and intend to stay that way until its over.

The Y. M. C. A. is doing a wonderful work here as well as anywhere the "boys" may be. I have talked to men who have gone "over the top" and seen the real thing and they say

**BRITAIN REFUSES
FOE'S TRUCE PLEA**

Sofia Told Peace Negotiations Require Rupture of Relations With Germany.

BERLIN ALARMED BY MOVE

Publication of Armistice Requests Causes Panic—General March Says Collapse Was Due to U. S. Forces—Allies Advance.

Washington, Sept. 30.—Bulgaria is out of the war, in the opinion of Stephen Panteroff, Bulgarian minister here, who believes that his country definitely is determined to abandon its alliance with Germany and Austria, and, if the entente allies refuse to listen to peace overtures, will appeal to the United States to use its good offices.

London, Sept. 30.—Great Britain has replied to the Bulgarian appeal for an armistice. The government's reply, it is declared, is fully covered in the reply of the allied commander in Macedonia. By this it is perfectly well defined that there will be no suspension of the military operations. At the same time it is made clear to the Sofia government that the opening of peace negotiations requires a complete rupture of Bulgaria's relations with Turkey, Austria and Germany.

Collapse Due to U. S. Forces.
Washington, Sept. 30.—The impending collapse of Bulgaria is the direct result of the concentration of American troops on the western front, General March, chief of staff, said.

Causes Panic in Berlin.
London, Sept. 30.—The publication in Berlin semi-official newspapers of Bulgaria's armistice requests was the cause of the greatest panic in the German capital, according to advices received at Copenhagen and forwarded by the Exchange Telegraph correspondent there.

Serbian troops have reached Ratavisna, 15 miles north of Ishtip, and have advanced a considerable distance beyond Kochana, toward the Bulgarian border.

Serbians Reach Ratavisna.
Serbian troops continue to press the retreating Bulgarians and score important gains of ground, the Serbian war office reports. The Serbian forces are pushing on from Vales toward Uskup. The troops defending Vales were taken prisoner. The city and fortress of Vales, one of the important bases of the Bulgarian forces in southern Serbia on the Vardar river, has been captured by Serbian troops, the Serbian war office announces confirming a previous report.

The Y. M. C. A. dugouts are practically on the firing line.

So always give the "Y" a boost when you have a chance. And always look out for the well informed individual usually women who are not responsible for what they say, who tell about the horrible ways the American army is getting used. The morale of our troops and a thousand other lies that are hatched out by Hun sympathizers. It is no child's play over here by any means but stories and rumors eat the heart out of our nation and we can't go back and we must not show "yellow."

If the French can bear up under what has happened surely America can follow her example.

I hope to be able to spend a few days in Paris during my leave of absence for one has not seen France unless they have been in the metropolis. I hope to have a few curios to send home soon. I must, must close. Trusting this finds all well at home.

Write at least once a week regardless of when I write which I will try to be as prompt. Write everything you can and don't worry about me for I am a regular "roughneck" now. Love to all. Your son, James.
