WHAT YOUR BOND WILL DO

If you buy a \$100 bond of the Fourth Liberty Loan you are lending the United States Government enough money to feed a soldier in France a little more than seven months. Or you have furnished enough money to give him a complete outfit of winter and summer clothing, including shoes and stockings, and slicker and overcoat and blankets, with enough left over to arm him with a good revolver. You have done that much to beat back the Hun.

It takes \$33, more to arm him with a rifle with a bayonet on it, and if you buy a second \$100 bond you furnish him this rifle and 1,000 cartridges for it; and there will still be enough of your money left to purchase a good-sized bomb to throw in a dugout, or demolish a machine gun together with the Hun operating it.

PUBLIC SCHOOL PICTURE SHOW AND CHURCHES

Closed During Influenza Epidemic. Patriotic Rally Called Off.

As a drastic measure to prevent the spreading of the Spanish influenza epidemic, the Cloverport Public school was closed Monday at noon; and a patriotic rally which was to have been in the Methodist church Monday was called off, likewise the Red Cross picture show for Tuesday evening, a lyceum number on Wednesday and a farmers meeting Thursday evenings. As far as it can be ascertained from the local physicians, there are not any genuine cases of the flu in Cloverport but the public places had to be closed by a proclamation from Dr. South, president of the State Board of Health. It is known, however, that several persons in this place have been ill with severe colds.

Dr. South's Proclamation.

Reads thus: "Upon urgent advice from the surgeon general of the United States Public Health Service, who is acting in full co-operation with the surgeon general of the army and the Council of National Defense, based upon such a rapid spread of Spanish influenza as to endanger the health and lives of the civil population over the industrial activities, equally essential to the success of the war; and

"In virtue of authority vested in it by law the State Board of Health hereby issues its proclamation, closing all places of amusement, schools, churches and other places of public assembly, and it advises against and discourages all unnecessary travel and social visiting in this commonwealth until the epidemic is over.

"By authority the State Board of Public Health.

"John G. South, President.

"J. N. McCormack, Secretary."

LIBERTY DAY.

Saturday, October 12, is the four hundred and twenty-sixth anniversary of the discovery of America. President Wilson has proclaimed it Liberty Day and requests the citizens of every community in the United States—city, town and countryside—to celebrate the day.

The President in his proclamation, says: "Every day the great principles for which we are fighting take fresh hold upon our thought and purposes and make it clearer what the end must be and what we must do to achieve it. We now know more certainly than we ever knew before why free men brought the great Nation and Government we love into existence, because it grows clearer and clearer what supreme service it is to be America's privilege to render to the world."

"RODDY" TO SING IN FRANCE.

Homer Rodheaver has gone to teach Pershing's boys how to sing "Brighten the Corner Where You Are." Escorting his celebrated old trombone, wearing the Y. M. C. A. uniform, Billy Sunday's chorus master will be a soldier song leader for the duration of the war. "Roddy" is to specialize in the one song he made especially famous but plans to dispense other, non-evangelistic successes, such as "The Last Long Mile" and "Good Morning Mr. Zip, Zip, Zip!"

WEST POINT SOLDIERS TO HAVE AN ATTRACTIVE CLUB ROOM

Soldiers both privates and officers, at West Point are to have a club during the life of the artillery camp there in keeping with the importance of that great military community. This was finally decided on yesterday by L. H. Weir, district representative of the War Camp Community Service, and G. A. Cornet, executive secretary, of the War Camp Community Service. Both officers visited West Point and agreed to take over the Dr. J. V. Perwit residence, one of the most pretentious in West Point, with ample ground space about the house. The house is a two story brick and has ten rooms. Plans already drawn provide for wings to the rear of the house overlooking the river. In this addition there will be forty two sleeping rooms on the first and second floors. A wide veranda is included in the plans and this, if the present intentions are carried out, will be enclosed in glass so that it can be used in the winter.

A two-story glass inclosure is also contemplated between the present building and the proposed addition, with big wood fireplaces as among the possibilities for winter use.

The building now standing is to be done over on the inside to provide a cafeteria, bathing facilities on an adequate scale, running water, a big dining room and "community lounging center."

The building will have its own natural gas well, and the gas from this well will supply the power for the pumps to provide the running water.

The dining room is 40x60 feet and will have a floor finished in such a way as to lend itself admirably to the weekly dances.—Courier-Journal.
