

X-RAY MACHINE INVENTED FOR FITTING SHOES

Radiography, the science to which the most opaque of substances reveal their inmost secrets, has scored another triumph: this time not in the field of pathology, but in that of the very common every-day service of selecting and correctly fitting proper shoes, according to an illustrated article in the December Popular Mechanics Magazine.

WEATHER WISE

White Thanksgiving was a memorandum. It said quite briefly, "Winter."

It was a memorandum to go and do a number of errands which usually get put off until the snowflakes and low mercury memorandum jogs our attention.

This seasonal organization of our life is a curious chapter. Most of us are hardly aware of it at all. When the weather gets hot we go and buy certain articles. When it gets cold we go and buy certain other articles.

About your deep-sea fishermen being weather-wise! Shrewd tradesmen can keep tabs on the progress of the seasons merely by what customers come in and ask for and by the numbers in which they ask for it.

The season, with most of us, gets to be a mood—a frame of mind. A certain kind of weather happens along and, presto! we are in the mood of Spring, or Autumn, or Winter, and trot around to buy the things needful for that season.

That our reasonable errand should so often await the prods of heat and cold rather than go by long foresight is an ironic comment on how much more we learn through our hides than through our heads.

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order.

Our patience needs practice, like most other things. But when once acquired it tenaciously clings; 'Twill be a great comfort in trouble and strife.

It is a bit hard to be faultless and true. When the powers of ill are arrayed against you But if all our strengths to one purpose we bend What we most desire we shall win in the end.

farmers to town. Another reason to discourage the farmer is the high cost of fertilizer. If the Government would bring a few shiploads of nitrates from South America and some potash from Germany it would bring down the prices of fertilizer and encourage a larger acreage of foodstuff.

"I Spent \$1 on Rat-Snap and Saved the Price of a Hog."

James McGuire, famous Hog Raiser of New Jersey, says, "I advise every farmer troubled with rats to use RAT-SNAP. Tried everything to get rid of rats. Spent \$1.25 on RAT-SNAP. Figured the rats it killed saved the price of a hog."

WINTER DAYS

Jack Frost's coming, or maybe he is here, Dull days coming, windy, chill, no cheer, Fair days coming, cheery, cold, and bright, Brilliant with the sunshine as the starshine makes the night.

AT THE CLOSE OF THE DAY

How happy we feel at the close of the day, When we without blushing can truthfully say, Though the task was severe and the hours were long, To no one on earth have we done any wrong.
