TO MAKE APPLICATIONS JUNE 24

Those Seeking Postoffice Job to File Applications This Week.

Washington, June 16.—The post-office department today requested the Civil Service commission to conduct an examination for appointment of a postmaster at Owensboro under President Harding's recent executive order. This means, of course, that no attention will be paid to the examination held several months ago to fill the Owensboro postoffice in which John Bishop, superintendent of mails, made the high mark.

In designing June 24 as the date when persons wishing to be regarded as applicants for postmasterships in various cities should file their applications, the Civil Service commission let it become known that the regulations governing examinations for first and second class post offices under President Harding's executive order of May 10, will be the same as the regulations that governed examinations under the Wilson-Burleson order superseded.

For offices paying more than \$2,200 up and including \$4,000 candidates must show that for at least three years they have held responsible positions.

For offices paying less than \$2,200, offices of the third class, where candidates will be assembled for written examination, the age limit runs from twenty-one to sixty-five years.

U. S. ARMY TO CONSIST, 150,000 MEN

AT A COST OF \$334,000,000

Advocates of Economy Voted Down Amendments For Army of 170,000,000 Men.

Washington, June 8.—Rejoicing the committee provisions for a minimum army appropriation bill carrying a total of \$334,000,000 and making provision for an army of not less than 150,000 men. The House had previously provided for an average strength of 150,000.

Advocates of economy and a small army came to the front in the final hour of debate, poured a hot attack on the committee provision for an enlisted personnel of 170,000, and then, mustering their forces, voted down, 36 to 32, the committee amendments. By a like majority of four votes the Senate yesterday had accepted the 170,000 figure, so that today's vote constituted a direct reversal.

The army budget now goes to conference for the compromise of Senate and House differences. The House bill carried appropriations totalling about \$14,000,000 less than the Senate measure.

Two Democrats, Senators Fletcher (Fla.) and Myers (Mont.) voted with thirty Republicans to support the Military Affairs Committee as to the size of the army. Thirteen Republicans voted with twenty-three Democrats against the 170,000 figure.

Senator Dial, Democrat (S. C.) attempted to attach an amendment prohibiting use of any of the appropriations to pay American troops in Germany, France and Belgium ninety days after approval of the act. It was voted down by a chorus of noes, after Chairman Wadsworth had character-

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Appenines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 5,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved process. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.

2,300 STNDENTS IN RE-SERVE OFFICERS TRAINING AT CAMP KNOX

Approximately 2,300 field artillery reserve officers arrived at Camp Knox Stithon, Thursday morning to begin a six weeks' period of active service. The camp for the artillery officers will last until July 27. The officers were in active service during the World War and choose to retain commissions in the reserve corps to complete discharge.

The civilians' training camp will open July 21, and last through August 20, during which civilians from Kentucky, Indiana, West Virginia and Ohio, which compose the Fifth Army Corps Area, will participate in active military training and maneuvers. Kentucky, it is said, already has supplied its quota, about one-fourth of the 1,500 to which the camp is limited.—Elizabethtown News.

ACTION ON COOPERATIVE MARKETING PLAN DEFERRED

Action has been deferred on the plans for completing the Kentucky Dark Tobacco Grower's Association composed of twenty-one counties including Breckinridge. It is announced that Judge Robert Bingham, of Louisville, requested that definite action on Dark Tobacco Association be deferred until the Burley organization is completed. Judge Bingham will sail for Europe, Saturday.
