To be dragged down to an early grave by the neglect of a trivial ailment is not an enviable fate, and yet thousands submit to this fate without a struggle. People cannot learn too soon that coughs and colds and affections of the throat and chest cannot be safely neglected. The most fatal disease known to physicians has their inception in these disorders. It is easy to cure a cold. It is impossible to cure consumption. One follows the other as surely as night follows day. Dr. Bell's Pine Tar Honey is a sure cure for coughs, colds, throat and chest troubles. Druggists sell it. For sale by Z. Wayne Griffin & Bro.

**Wanted—An Idea** Who can think of some new idea for a business? Address the leading physicians and surgeons of the United States, Dr. Hathaway & Co., 70 Dearborn Street, Chicago. 43-177c.

**WHY BUSINESS IS BAD.**

The mere prospect of a silver standard is driving capital away from us and is making things hard. If we wish investors, manufacturers, traders, etc., to risk their capital in our country, we must chain up our free silver and repudiation dogs. Of course, if we wish to alienate ourselves from the rest of the commercial world, we will let loose these natural enemies of capital and progress, and the deed is done.

**REPUTATION AND DISHONOR.**  
 A Part of Henry Ward Beecher's Best Sermons.

During the fiat money and unlimited paper currency excitement of 1877 Mr. Beecher delivered a famous sermon on Thanksgiving of that year on the perils of the day. In the first language: "Whenever in any nation there is such an attempt to tamper with standards that the moral sense of man is bewildered and liberty is given to unprincipled men at large to cheat, to be unfaithful to obligations, to refuse the payment of honest debts—whenever that takes place, it is all the worse if done with the permission of the law. I hate the devil riding on a law worse than I do the devil riding without a law under him. Whoever tampers with established standards tampers with the very marrow and vitality of public faith. \* \* \* The danger into which we are running is hidden under the mystery of finance and the currency. All money is but a representative of property. As now, by facility of interconversion, all the world is one open market, the need of and the same standard of money, uniform, universal and unalterably becomes imperative. "Gold is the world's standard. Gold is the universal measure of value. Other kinds of money there are—silver, copper, paper—but they all must conform to gold and be measured by it and be interchangeable with it, in fixed and definite proportions. Gold is king in commerce. All other money must represent gold. No vote of legislature can change the nature of commerce, the nature of property, the nature of its representative in money or the relative superiority or inferiority of different currencies. Gold came to its supremacy as a representative of property by the long-established consent of mankind. Congress cannot change it for the world, nor even for the nation, except upon past transactions. It may give impunity to men to cheat—creditors, but it cannot rule the value of currency in all future transactions. "The crime of paying a debt in a currency inferior in value to that in which it was contracted, base at all times and anywhere, has a deeper guilt and a baser infamy in our case. When in our mortal struggle capitalists were solicited to lend their money to us on the faith of the nation, we were too glad, most grateful, for their aid. Then they were not grasping and swollen insurers. Oh, no! They were benefactors. We repaid in their bounty and gave thanks for their confiding faith in our national honesty. Now, our dangers past, we revile them, finding no epithets too violent, and strive to pay them, not gold for the gold they lent our misery, but in a dishonest measure of an inferior metal.

"In the court of the commercial world's conscience we shall be convicted of endeavoring to cheat the men who came to our rescue in the dark day. This congress would not have existed, nor any government of the United States, but for the strength given to our armies by foreign capitalists, and now to return their aid by a base treachery is to deserve an infamy as deep as the lowest depths of hell. But woe to those men, bell-headed without eyes, who are attempting to undermine the integrity and simplicity of the nation." "Wheat, Cotton and Silver." While Bryan is telegraphing the New York Journal that "the gold standard makes a dearer dollar, a dearer dollar means falling prices, and falling prices mean hard times," the prices of wheat, corn and cotton are going up, and the price of silver, the supposed barometer of prices of farm products, is going down.

Bryan must demolish his farm product speeches or he will have to face such hard questions as "What about wheat and cotton? Are their prices going up in sympathy with silver or because of a shortage of foreign crops? What connection is there, anyway, between the prices of farm products and of silver?" Of course Bryan can answer all such questions. In fact they are "dead easy" for a powerful man who can lift the price of all the silver in the world to twice its present height, but it is just as well to avoid all unnecessary embarrassment.

**A Few Facts.** In 1878 farm products were lower than ever before since the civil war, and the "greenbackers" were arguing that the preparation for resumption on January 1, 1879, had produced the hard times, and their advocates tried to postpone the date for resumption. But resumption came January 1, 1879, and No. 2 cash wheat sold at \$1.14, by May it was up to \$1.21, and by December, 1879, it was up to \$1.34. Corn was 25¢ in January, 1879, but in December, 1879, it was 43¢.

Such facts need to be borne in mind at this time, when so many false theories are afloat.

... If a merchant marks up his prices and people refuse to buy, he still has his goods. If a workman undertakes to mark up his wages and employers decline to pay, where is he? What intelligent wage-earner can vote for the higher prices of cheaper money and trust to luck to increase his wages proportionately?

"Be regular and punctual in all things" was one of the old maxims, taught long ago. The last is not forgotten, but the first is scarce remembered, so irregular is the life of most people nowadays. The only corrector of this evil is Simmons Liver Regulator, which keeps the liver active and prevents the ills of irregular living; Dyspepsia, Biliousness, Constipation, etc. It also cures these troubles.

**James and Feland.**  
 There was quite an interesting debate at the court house Monday night between Ollie James, of Crittenden county, representing the silver side and John Feland, Jr., of this city, representing the gold standard. Both of these young men are giants in their way, but their ways are as widely apart as the rising and the setting sun.

Mr. James' fort is burlesque and coarse wit. He would make an excellent end man for a minstrel show. It is ridiculous for a man to get up before an intelligent audience, when questions of so much importance are before the people for their decision, and spend his time in burlesque. It is not entertainment the people are after when they go to a political meeting, but they want instruction; and the man who occupies his time in a political discussion in telling anecdotes and burlesquing his opponents is not true to the best interests of his country.

That was an insult to every true Christian in the audience, say, to God himself when he said that if he were in heaven he would tell God to mail down the throne or the gold bugs would steal it and coin it into dollars to buy bonds with. Stealing in him! Ollie James advising God! Has it at last come to this? Is nothing too sacred for the Popocrats to drag down into their dirty political discussions? (Advise God to mail down the throne! Now, wasn't that an argument? He said there were always some fools in every audience he addressed. And from the applause that that expression brought forth, there must have been quite a number at the Court House Monday night.

Mr. Feland made an argument that was sound to the core. He appealed to his hearers to throw aside all prejudice and study the present situation calmly and dispassionately, and then vote as patriots, regardless of party or party bosses. Each side, as usual in debates, claims the victory.—[Hopkinsville Banner.]

**The Discovery Saved His Life.**  
 Mr. G. Caillouette, Drugist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keeterstore or house without it." Get a free trial at Williams & Bell's Drug Store.

**ETION.**  
 Mrs. Nettie Hoeker has had a relapse and is still sick.  
 Gustie Cooper has pneumonia and whoopingcough. There are several out of school on account of whoopingcough.  
 Died at his home near here of congestive chill, Mr. James Johnson. He leaves a wife and two children, an aged father and a host of friends to mourn his loss.  
 The Teachers Association which was held at this place last Saturday week was poorly attended, but those present seemed enthusiastic in their work. Prof. Shult gave a good talk on the behalf of the association and how to make it a success. S. B. F.

**Ell and Channey.**  
 "I was talking one day with Mr. Depew about demand and supply," writes Ell Perkins. "I said the price of any commodity is always controlled by the demand and supply."  
 "Not always, Ell," said Depew; "demand and supply don't always govern prices. Business tact sometimes governs them."  
 "When," I asked, "did an instance ever occur when the price did not depend on demand and supply?"  
 "Well," said Mr. Depew, "the other day I stepped up to a German butcher, and out of curiosity asked: "What's the price of sausages?"  
 "Twenty cents a pound," he said.  
 "You asked twenty five this morning I replied."  
 "Ya, dot vos ven I had some Now I ain't got none, I sell him for twenty cents. Dot makes me a reputation for selling cheap and I don't lose nothings."  
 "You see," said Mr. Depew, laughing, "I didn't want any sausage, and the man didn't have any; no demand and no supply, and still the price of sausage went down five cents."—[The Waterbury.]

**The New Girl.**  
 There is a "new girl" as well as a "new woman" She has not been much talked about and she would not like to be; but she exists—strong of muscle and keen of intellect, modest and dignified; fearless yet tender;

self-reliant yet never aggressive; a girl more often beautiful than otherwise, for beauty is the divine right of every woman properly bred and nourished. She is well groomed and dressed, unconsciously expressing her harmony of thought in harmony of thought in harmony of appearance. She is a loving, lovable girl, with a splendid capacity for romance; but none for "sentimentalism." She is the newest growth of a new country—and exponent of the freshest and strongest civilization in existence.—[From Mary Annable Fauton, in Democrat's Magazine for November.]

**Something to Know.**  
 It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at Williams & Bell's Drug Store.

**Wages Go Up Slowly.**  
 Every cheap money experiment ever tried in this or any other country has demonstrated that, while prices respond quickly to changes in the value of money, wages respond but slowly. Hence, though wages appear to rise when currency is depreciating, they are in reality falling. The difference in rapidly with which wages and prices go up has been illustrated by prices going up in elevators, while wages walk up the stair steps. It is certain that wage-earners always lose and never gain by being paid in a depreciated or depreciating currency.

**SILVER OR GOLD.**

Better than either is a healthy liver. If the liver is O. K. the man is O. K. His blood is kept pure, his digestion perfect, and he can enjoy life and act intelligently and patiently upon the questions of the day. You all know what to take. You have known it for years. It is Simmons Liver Regulator—

For years you and your fathers have found it of sterling worth. It is and always has been put up only by J. H. Zallin & Co. Take none but the genuine. It has the Red Z on the front of the wrapper, and nothing else is the same, and nothing so good.

**Cancer of the Breast.**

Mr. A. H. Cransby, of 158 Kerr St., Memphis, Tenn., says that his wife paid no attention to a small lump which appeared in her breast, but it soon developed into a cancer of the worst type, and notwithstanding the treatment of the best physicians, it continued to spread and grow rapidly, eating two holes in her breast. The doctors soon pronounced her incurable. A celebrated New York specialist then treated her, but she continued to grow worse and when informed that both her aunt and grandmother had died from cancer he gave her the case up as hopeless. She then recommended S.S.S. and though little hope remained, she began it, and an improvement was noticed. The cancer commenced to heal and when she had taken several bottles it disappeared entirely, and although several years have elapsed, not a sign of the disease has ever returned.
