## I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROBT. STOPIEL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

itt Priest is in the hospital here tonight suffering from a broken leg. He was riding on a load of hay when the cyclone struck and was blown several hundred feet, landing on the ground near a fence. The wagon was overturned and part of the load fell on him. He was brought here to-night.

The cyclone blew down fences and considerably damaged the crops. No serious damage was reported from Hebbardsville, though some of the telephone connections are interrupted.

## RED CROSS SUPPLIES CANNOT BE SHIPPED

GREAT BRITAIN REFUSES TO ALLOW MEDICINE TO REACH GERMANY.

Washington, July 18.—Great Britain again has refused a plea of the American Red Cross for permission to make conditional shipments of Red Cross supplies to Germany and Austria. Foreign Secretary Grey, in a note dated July 12 and made public last night, reiterates that the allied blockade against such shipments is in accordance with the Geneva Convention, declares there is no evidence that the supplies are needed in the Teutonic nations, and says Great Britain cannot entertain a suggestion that supplies be sent under guarantee that their distribution will be supervised by a satisfactory commission of Americans.

Sir Edward's reply said in part: "His Majesty's Government have no reasons to believe that there is an absolute lack in the territory of

the Central Powers of the materials required for Red Cross supplies; they have, on the contrary every reason to suppose the reverse for, to give only one instance, not long ago a medical member of the Austrian General Staff, Prof. Hochengr wrote \* \* \* that there was no shortage and no prospect of shortage in medicines or bandages, nor even in highly special medical remedies, so that Austria was hardly concerned in the success of the protest made by the American Red Cross against the obstacles placed by the Allies in the way of the export of such articles from America."

# RAILROAD WAGES

## Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Southern railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest and average of all) as shown by the payrolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1972	\$2306	\$1455	\$1916	\$1156	\$1566
	3810		3505		2424	
Conductors	1552	1847	1353	1580	1055	1245
	2696		2358		1749	
Firemen	943	1209	649	879	406	777
	1652		1638		1302	
Brakemen	957	1109	755	958	754	990
	1736		1854		1405	

The average yearly wage payments to all Southern train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$2144	\$1712	\$1313
Conductors	1723	1488	1157
Firemen	1096	865	688
Brakemen	1013	845	868

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?
