

# Blounts True Blue Steel Plow

## IS THE PLOW YOU NEED

One that will turn the soil to please you, stand up under rough wear and lives a long life with scarcely no cost of new parts or repairs.

### From a Money-Making View to Us

there is one feature about this plow that we do not admire, and that is where we sell one of these plows we never get the fellow to come back to buy any new parts—JUST KEEPS PLOWING. So as we find this to please the farmers, we have decided to quit complaining and are very glad to sell him this plow.

## A Superior Style

The Kabo Comfort Top corset means the last word in correct corseting. It means more than that—relief at last for the woman who has suffered discomfort from the stiff front steel pressing in at the top.

To her the Comfort Top corset is a boon. The special feature meets a definite need. The front steel stops at the waist line and the soft, pliable top section fastens with hooks and eyes, like a brassiere.

The Comfort Top, like all other Kabo corsets, is designed on live models and made for real human beings who live and move and breathe. The alert woman who drives her own or the family car enjoys the Comfort Top corset. It is so easy to bend in it and yet just the right support for the back. **\$4.00** Price

We recommend this as a splendid value.
