

SOCIALITIES.

Mrs. J. O. Cooper returned from Cadiz yesterday. Miss Linnie Lander is visiting friends at Morion's Gap. Mr. and Mrs. D. M. Taylor have returned from Hot Springs, Ark. Miss Katie McDaniell is visiting the Misses Cooper at Bennetts town. Rev. J. C. Tate conducted divine services in Cadiz last Sunday.

Miss Mary Petree, of Fairview, is visiting Miss Mollie Petree this week. Miss Katie Doffam, of Henderson, is visiting the family of Mr. Nat Galtier. Miss Sallie Ford has returned from Canada, where she has been attending college.

Mrs. Hamberger returned home this week accompanied by Miss Emma Tate. Mr. Wm. B. Bronaugh, of the U. S. N., is at home visiting his Hopkinsville friends.

I. G. Williams, Jr., is in Caldwell county this week in the interest of his business. Mr. R. Duncan Grubbs, of Russellville, spent last week with his friend, James Chabris.

Dr. J. H. Twyman returned last week from a visit of some days to friends at Canton, Ky. Rev. Mr. Allen, of Madisonville, preached to the Northern Presbyterian congregation, Sunday.

Miss Annie Howe has returned from Nashville after spending several weeks there with friends. Mr. Jas. M. Bowling, of Clarksville, Tenn., spent several days with his friends in this county last week.

Mr. C. J. Pratt, of Madisonville, was in the city last week looking after his Senatorial interests. John Cooper sneaked off to Nashville, Tenn., this week and learned the cause of his visit.

Miss Jennie Bronaugh and Miss Helen Hart returned this week from a visit to St. Charles, Hopkins county. Maj. C. H. Crosby, superintendent of the St. L. & S. E. railroad, was in the city last week the guest of the Phoenix.

Miss Annie Dickinson after spending some weeks with her Hopkinsville friends, returned to Trenton Tuesday morning. Maj. J. Ed Rankin and wife, of Henderson stopped in the city one day last week, on their way to visit Mrs. Rankin's parents in Cadiz.

Miss May Burnett, a winsome little miss of Cadiz, spent last week with her friend, Miss Cammie Martin. The latter accompanied her home Saturday.

Mr. Len G. Faxon, of the Paducah News, together with his wife, stopped some days with friends in the county on his way from the Press Convention. Miss Sallie Rogers, a popular young lady of Cerulean Springs, passed through the city Friday on her way home from Springfield, Tenn., where she has been on a visit.

Miss Marguerite Banks, one of the most attractive belles of Henderson society is treating her friends in this city to a visit this week. She is the guest of Miss Fannie Randolph. After having spent several weeks with friends in Lafayette, Miss Maggie Reed, an accomplished young lady of Nashville, returned to her home yesterday evening in company with her sister, Miss Mary, who has occupied the chair of music and Belle-lettres in the Lafayette High School for several sessions past. Miss Maggie's brief visit has been a source of pleasure to the gallant beaux of that town, while the departure of her lovely sister creates a profound regret in the hearts of the elite of South Christian. It is confidently hoped that she will return to the fellowship of a large circle of appreciative devotees.

Our clergy friends Capt. E. D. Peabody and Prof. F. C. Dillard, with whom we passed through the trying ordeal of a law examination departed Tuesday to seek their fortunes in the far West. The former will locate in St. Louis and the latter in some part of Texas. They are genial, gifted gentlemen, and if talent, merit and pluck will win they will live to adorn their chosen profession. We parted from them with genuine regret, and extend to them our best wishes wherever they may be called upon to act their part in the drama of life. Fighting the battles of life in different States, "When shall we three meet again."

IMPROVEMENTS. The front of the new building opposite the Cooper House is the prettiest one in town. George Young & Bro. have raised a mammoth red tea-pot in front of their tin-shop. The contract to finish the Clarksville pike has been given to Mr. Haffey, of Henderson, and he has begun work on it. A gap of about 2 1/2 miles is yet to be built. Mr. George Merritt has been engaged to put the dirt on the part already piked. Col. Alexander is pushing the Canton pike ahead with vigor. He has already completed it for some distance, and the work is daily progressing. By another winter we shall be safe on two sides of the town at any rate.

HERE AND THERE.

The Kite fever is raging to an alarming extent among the small boys. Geo. Smith, the barber, has returned from Chicago and is with Sam Hawkins again. The finest quality of spring steel sewing machine needles can be found at Howe's Jewelry store.

A wagon ran against a buggy on Russellville Street Saturday evening and smashed one of the wheels. Eq. Allan Wallitt court convened last Wednesday. No cases of importance were on the docket.

Judge C. W. Cook, Greenback candidate for Governor will speak at the Court house on Monday July 7th. At the depot Tuesday morning: "Will you buy Anna?" Will Twyman spoke. "Not Anna, thank you; we never smoke." And we turned away from the car.

Hon. Jas. E. Cantrell overlooked Hopkinsville in his list of appointments. We would like to see the man we have to vote for, down this way.

Attorney General Clark has kindly offered to take us around to the Executive mansion and introduce us to Gov. Evans, next fall when we visit Frankfort.

We are sorry to inform our friends at Madisonville that it will be impossible for us to address them at the barbecue tomorrow. We hate to disappoint them but cannot avoid it. Prof. Harford's Bread Preparation, the popular Baking Powder of New England, is being introduced in this vicinity. We advise all our lady friends to give it a trial. (4w.)

Up to last night there had been 60,000 bushels of wheat received in bulk at the market. 85 cents was paid for the June deliveries. 75 cents is all that is offered for July deliveries.

S. H. Turner receives the Chalybeate water from Nashville fresh every evening at 8 o'clock. It retains its virtue 48 hours. Special inducements by the gallon. Kept at the temperature of the spring. Sulphur water also on hand. Try a glass, it will make you healthy.

Several of the managers and directors of the I. & N. railroad passed through the city Thursday. They were inspecting the St. L. & S. E. road preparatory to taking possession of it on the 19th of July.

Col. J. O. Cooper is running the Cooper House alone this week. Mrs. Cooper is visiting friends in Cadiz. We ate dinner there Sunday, and the "grub" is first class in every particular. Those who once stop there are never at loss where to find a good hotel next time.

W. H. West and Alley Means have gone into the coal business under the firm name of W. H. West & Co., and insert their advertisement in to-day's paper. They are enterprising, clever and straight forward business men, and we bespeak for them a liberal patronage.

We are requested to say, for the benefit of a certain young Hopkinsville man who writes on the margin of the South Kentuckian to one of our visiting young ladies at this place, "De arrie," that she is endeavoring to do as near right as possible. Be easy bro, we will see that she returns to K. L. Trigg Democrat.

Don't be too hard on him, neighbor, he is a friend of ours, and we don't like to see him given away. We publish this week the reply of Mr. J. F. Dempsey of Madisonville to a call recently made on him to become a candidate for Commonwealth Attorney. We intended to publish it last week but it was unintentionally left out. Mr. Dempsey is one of the ablest young lawyers at the Madisonville bar, and one of the most popular men in his county. He will be a formidable candidate when the time comes.

Messrs. Clark and Hardin, candidates for Attorney General, spoke yesterday to a good audience. Mr. Clark is placed at a disadvantage by having had so short a time to prepare for the canvass. He is inclined to jest instead of argue. Col. Hardin treats his subject in a logical, dignified and statesmanlike manner. His presentation of the doctrine of States' rights is by far the ablest we have ever listened to.

Mr. Benj. Grove of Louisville is now in the city and has begun the work of laying off the new cemetery into lots. We have been shown a drawing of the proposed arrangement, and the walks, drives, etc will be laid off with care and taste. Mr. Grove desires the city to buy a portion of the lot beyond Mrs. Stephenson's and convert it into a park, making the entrance on Main street instead of through the lane beyond. This is an important object, and one that we hope the council will regard favorably. It will add greatly to the beauty of the cemetery.

Amateur Dramatic Club. The Amateur Dramatic Club, of New Providence, Tenn., will give an entertainment at Mozart Hall July 5th. The club is composed of young ladies and gentlemen of New Providence, and the papers of Clarksville speak in the most eulogistic and complimentary terms of it. Miss Bettie Howell, who is well known in this city, will take a prominent part in the exercises. The concert will be for the benefit of the Sunday School of New Providence. It has been some time since an entertainment of any sort was in the city, and now we all turn out and give the Amateurs a rousing house and thus aid a charitable object.

POLICE NEWS.

A man named Newton Carpenter, 80 years of age, committed suicide at Fairview last week. No cause is known for the rash deed. He was living with his son at the time, and ended his life by cutting his throat with a razor.

Another fight occurred Saturday evening between Prof. P. A. Skeehan and B. Deenan, at the saloon of the latter. Skeehan accused Deenan of having supplied Pat Nocton with the whisky that caused his death which Deenan resented by striking Skeehan a few blows. The latter had him arrested Saturday night but he gave bond for his appearance in the city court Monday. Deenan was fined.

FIGHTING IN THE NORTH. Business in the Police Court is quite lively this week. The last fight was at a house out towards the Fair grounds last Saturday night. It seems it was a general fight, some four or five taking part in it. It originated from the killing of a dog belonging to a woman. We have been unable to get the particulars, not having a reporter on the grounds. Nobody was seriously hurt, though for awhile the skirmish was exceedingly animated.

WEEKLY CAUSED BY. Pat Nocton, an Irishman well known about town, as a desperate character, has been giving the police considerable trouble of late. He recently got drunk and it required the whole force to arrest him. He had been drinking all the week and had been arrested once or twice, but on being turned loose Wednesday immediately got drunk again. By Thursday morning he was heavily intoxicated, and about 11 o'clock staggered through Leath's saloon to a room in the rear to go to sleep, as he said, and keep out of the way of the police. He lay down upon a plank, which was lying with one end in a window and the other on a box, some feet from the ground. He was seen there about noon. About 4 o'clock two of his friends passing through the room saw him lying on the ground upon his face. They went to him to place him in a comfortable position when they discovered that he was dead. He had fallen off of the plank in his drunken sleep and broken his neck. An inquest was held and a verdict rendered in accordance with the above facts. He was carried to the home of his parents, and when the corpse of the other wayward boy was laid before them, could the man who made him drunk have witnessed their sorrow, and heard their wailings of despair, he would no doubt have been ashamed of his calling.

Accidents will Happen. The advertisement of The Traveler's Insurance Co., of Hartford, Conn., in to-day's issue should command the attention of all our readers. The selection of W. L. Garth as Agent is an excellent one. In the hands of such a wide awake man, the Travelers cannot fail to secure a large and satisfactory insurance in our community. The General Accident Policy, issued by the company, is intended for persons in all occupations as much for the Merchant and Professional man, as for the Traveling salesman, or Mechanic. The records of the company show that the largest number of accidents occur in the ordinary vocations of life, not to passengers on public conveyances. These policies provide a specified sum in case of death by accident, or a weekly indemnity of from five to fifty dollars per week, in case of disabling injury. The rates are so low that men of the smallest means can avail themselves of the benefits. Time is as much property as horse or goods, and the same business forethought which prompts a man to insure against loss by fire prompts him to secure himself against loss of time by accident. The circulars and pamphlets of this company furnish many interesting facts and statistics relative to the various causes of accidents, and no thoughtful man can read them without being struck by the apparently trivial nature of the accidents which cost the company the largest amounts. Mr. Garth will cheerfully furnish further information to all who may apply.

Births of the Week. To Mr. and Mrs. Henry Blumenstiel, a boy. To Prof. and Mrs. Jas. G. Bramham, a boy. To Mr. and Mrs. Geo. V. Green, a girl. To Mr. and Mrs. W. E. Fulllove, a girl. To Mr. and Mrs. H. B. Clark, Bellevue, a boy.

Mr. Dempsey Accepts. Messrs. Riss Dulin, John M. Dulin, J. H. Overmough, Jos. High, et al. Messrs. Your card which appeared in the Madisonville Times of the 11th inst., asking me to become a candidate for the office of Commonwealth Attorney in this Judicial District, has been noted and carefully considered. I confess I have for some weeks entertained a strong desire to fill this position, and when the time approaches for the settlement of the aspirations of the various candidates I promise you I will be in the field.

Your kindness and partiality have made a lasting impression upon me, and have won upon my gratitude in such a measure that I can find no words which will adequately express my feelings. Assuring you of my appreciation and heartfelt thanks, I remain your humble servant, J. F. DENMSEY.

Bellevue. Corn is maturing and shooting. Our farmers are now in the midst of wheat threshing, and from all that we can learn the quantity and quality is very much better than it promised to be a month ago, and much better than for years. Some extra good land yielded as much as thirty-five bushels to the acre and a few fields are flourishing and bids fair to make one of the finest crops that has been raised in this section for several seasons, unless unfavorable weather yet interposes.

Oats have improved wonderfully in the last two weeks, and now promise a fair yield. The hay crop is only a moderate one. Vegetables plentiful. But little fruit. Tobacco is growing finely. Our merchant, Mr. McGeehee, seems in the best of humor. Cause—everybody is paying his accounts as he gets his wheat off. He will now erect the long contemplated dwelling house in this place.

Mr. Joe Clark killed a rattlesnake last week measuring 14 inches in circumference. The adventurists have now settled upon the 14th of July for the final ending of all things. Guess it would be a good idea to settle up our little affairs on the 10th, so as to be able to show our receipts to Peter at the gate.

Born—To the wife of H. R. Clark, on the 24th, a boy weighing 16 lbs. Another voice added to the music in the air. Dr. W. F. Patton, of your city, spent last week in this place and vicinity, in the interest of the National Mutual Benefit Association, and we are glad to note was very successful. Lightning struck a mare belonging to Mr. Garland Hill the other day and knocked her only eye out without otherwise injuring her.

A moonlight picnic was given at Mr. James White's, on Tuesday evening last, which proved a very enjoyable affair. About one hundred persons were present. Misses Lela and Ida Baker, and Messrs. Willie and Robert Baker, also Mr. R. Tandy Meacham were among the ladies and gentlemen that attended from this place.

The cool atmosphere of the last few nights has a tendency to hasten the summer sickness usually prevalent among children at this season of the year. The light fall of rain on Thursday afternoon partially laid the dust, which was becoming very disagreeable. SHORTFELLOW.

OUR NEIGHBORS.

HOPKINS. The canvass for Senator and Representative grows warmer every day. There will be several new brick business houses erected here this fall. (Republican.) The wheat is about all harvested, and a number of farmers have commenced to thresh, some have finished. The wheat heads are unusually well filled, and it will be of an excellent quality, but the yield is not very large, the stalks are too thin on the ground.

MCHLESBERG. As Jim Roark went down the hill last Friday morning to ring the fire bells, he was in a costume de Adam but he ran so fast we couldn't tell whether the garment was a fig leaf or a cotton handkerchief.

CADWELL. The Christian Sunday School Convention, held at this place last week, was a success in every respect. Every body seemed to enjoy themselves and had a delightful time generally. The Convention meets next year in Henderson.

TODD. The Elkton brass band has become a nuisance to the whole community. Can't the town authorities have their time of meeting changed?

It seems our neighbor hasn't much music in his soul. Crop prospects are very flattering in Trigg at this time. The farmers are all busy and in good spirits. If enterprising men want to find a good home let them come to Cadiz. It is improving more rapidly than any town in Southern Kentucky. Our new Police Judge and Town marshal have not yet qualified.

PEMBROKE. A nice little shower Thursday evening laid the dust, and made it much more pleasant. What is coming in from every direction. The depot is crowded from morning till night with wagons. Two negroes were caught gambling a few days ago. One was given fifteen days on a rock pile, and the other labor on the streets.

Our skillful and enterprising mechanic W. Hollis has built by hand, a large separator to be run by steam power. It is said that it is the first built in the State. It is doing superior work, and threshing more wheat than any other threshing in the country, in the same length of time. The Ministers and Deacons of Bethel Association are holding their annual meeting, with Salem church, six miles south of this place. Some of their best ministers are in attendance.

Mr. W. A. Garrett, one of our best citizens, who lives three miles south of town, is erecting a handsome residence in this place, on the Tobacco road near his brothers, W. W. and J. P. Garrett. We give him a cordial welcome.

Mr. R. L. Smith and Miss Mattie Mills were married since our last communication. We have many good wishes for Louis and his bride. Ding has got to looking so pious for the last few weeks it has aroused great suspicion, and he is daily watched by Frank, Tom and Lonis.

Our townsman, J. H. Murphy, has rented the "Links House" and opened up. Jim understands Hotel-keeping and we feel that we have a first class house.

We boast of a very fine crop of wheat in this locality. The corn crop is promising. BELLEVUE.

Corn is maturing and shooting. Our farmers are now in the midst of wheat threshing, and from all that we can learn the quantity and quality is very much better than it promised to be a month ago, and much better than for years. Some extra good land yielded as much as thirty-five bushels to the acre and a few fields are flourishing and bids fair to make one of the finest crops that has been raised in this section for several seasons, unless unfavorable weather yet interposes.

Oats have improved wonderfully in the last two weeks, and now promise a fair yield. The hay crop is only a moderate one. Vegetables plentiful. But little fruit. Tobacco is growing finely. Our merchant, Mr. McGeehee, seems in the best of humor. Cause—everybody is paying his accounts as he gets his wheat off. He will now erect the long contemplated dwelling house in this place.

Mr. Joe Clark killed a rattlesnake last week measuring 14 inches in circumference. The adventurists have now settled upon the 14th of July for the final ending of all things. Guess it would be a good idea to settle up our little affairs on the 10th, so as to be able to show our receipts to Peter at the gate.

Born—To the wife of H. R. Clark, on the 24th, a boy weighing 16 lbs. Another voice added to the music in the air. Dr. W. F. Willie and Robert Baker, also Mr. R. Tandy Meacham were among the ladies and gentlemen that attended from this place.

The cool atmosphere of the last few nights has a tendency to hasten the summer sickness usually prevalent among children at this season of the year. The light fall of rain on Thursday afternoon partially laid the dust, which was becoming very disagreeable. SHORTFELLOW.

TOBACCO NEWS.

Home and Foreign. Lugs and low leaf continue to sell at very satisfactory prices while everything from medium to good leaf is considerably lower than we have witnessed during the season. Information derived from our most reliable patrons throughout the county, estimate the crop planted up to this time at from one-half to two thirds of an average crop, notwithstanding the reports of those whose object it is to keep down speculation and depress prices by false reports.

Common lugs, \$2.50 to \$2.90. Fair " 3.00 to 3.50. Good " 3.75 to 4.50. Common leaf, \$5.00 to 5.25. Medium " 5.50 to 6.75. Good " 7.00 to 8.00. Fine " 8.25 to 9.50. Selections, 10.00 to 12.00.

Receipts, week ending June 28, '79. Year " " " 7048. Sales week " " " 536. Year " " " 5152.

The German Tobacco Commission has decided in favor of a duty of eighty-five marks per hundred Kilogramme on American tobacco.

Private advice from the southern part of Virginia is to the effect that the dry weather has prevented a full setting of tobacco. The wheat yield will be large.

Sales by Abernathy & Co., of 86 Hds., as follows: 18 Hds. Good Leaf, \$6.25 to 7.25. 58 Hds. Common Leaf, 4.25 to 5.95. 10 Hds. Eggs Leaf, 2.85 to 4.00.

Interesting Statistics. The size and character of our foreign trade in tobacco is of remarkable interest, when closely considered. But few persons are familiar with its bearings. From the quarterly report of the Bureau of Statistics, Treasury Department, can be ascertained the extent and value of the tobacco trade of the United States. The Exporter and Importer, in discussing this question on the 12th inst., asserts that the amount of bulk tobacco exported in the quarter given, ending September 30, 1878, was 283,972,193 pounds, and the value \$24,803,165. England and Germany are our heaviest customers, the former paying the largest amount, and the latter receiving the greatest quantity. Thus England paid 7,546,813 for 58,840,261 pounds, and Germany paid \$5,761,099 for 60,104,768 pounds. France took 30,388,775 pounds, paying 2,283,512; Italy, 25,665,129 pounds, paying \$1,364,803; Spain, 24,483,021 pounds, paying \$1,258,844; Netherlands, 24,524,967 pounds, paying \$1,224,805; and Austria, 15,499,113 pounds, paying \$1,031,354. The remainder was distributed fairly through European, Central and South American States.

Manufactured tobacco exported, in value, reached \$3,681,317, and followed the same general rule of distribution, except that the most valued shipments went to the British possession in Australia, amounting there to the large total of \$1,051,430. The rapid growth and extended proportions of the tobacco trade of the Mississippi Valley, make these figures interesting in indicating the regions of largest and most valuable supply in this country. In a recent issue of the New York Tribune we find mention on this subject of an important result accomplished through the action of Great Britain. It seems that Great Britain, under a protest that our sweetened tobacco was adulterated, had practically excluded our manufactured tobacco from the English markets, and this in face of the fact that we were able to furnish better and cheaper tobacco than any other country. The following from the Tribune explains how the unjust restriction was removed:

"It is not a matter of small consequence to this country that the absurd exclusion of American tobacco has at last been abandoned by the British Government. Probably many millions yearly may be added to the value of our exports by the decision which, after some delay, Secretary Everts has at last obtained. In October of last year he caused a formal appeal by Stratton & Storm, of this city, to be brought to the attention of the British Government. Tobacco not in the least adulterated or sweetened had been exported by this firm, and, as they desired, had been seized and confiscated, enabling them to make a test case. On the 26th of October they stated the facts, in a long letter to the State Department, incidentally showing that the manufacture of fine cut and granulated tobacco had become one of the highest importance in the revenue already yielded to the United States, and would, if unobstructed by foreign regulations, become of the first importance in foreign trade. The appeal was referred to the British Board of Trade, and by a decision recently made known, the exclusion of American tobacco is stopped. The clause known as 'cut cavendish,' it is declared may be delivered as other manufactured tobacco, chargeable with a duty of 4s. 10d. per pound. It is believed by leading manufacturers of tobacco in this country that this decision, opening the ports of Great Britain to products which they believe they can export with profit at prices below those ruling in England, will greatly increase the value of domestic products exported."

Notice of Absence. I shall leave to-morrow, with my family, to visit my old home in North Carolina and shall probably be absent four or five weeks. I have to gratefully thank my patrons for past favors and beg an excuse for my present absence. Due notice will be given of my return. Very Respectfully, R. D. FLEMING.

Election of Directors. OFFICE BANK OF HOPKINSVILLE, June 30th, 1879. A meeting of the stockholders of the Bank of Hopkinsville, will be held at the office of said Bank on Monday July 1st 1879, from 9 o'clock A. M. until 3 o'clock P. M. for the election of five directors of said Bank, to serve for the ensuing year. JOHN C. LATHAM, Pres.

Judge C. W. Cook, Greenback candidate for Governor will speak at Canton on the 4th of July.

July 4th.

Another grand ball will be given at Cerulean Springs on next Friday night. The season has now opened in earnest, and the people will soon begin to flock in from every direction. The first ball was pronounced by all a complete success, and this will no doubt be equally successful and enjoyable. During the day there will be a picnic in the grove near the Spring. Every necessary arrangement has been made to contribute to the pleasure and convenience of the guests. Tri-weekly hacks will be run from this place, and those wishing to go can make the arrangements at the Cooper House, during the summer. Let everybody go to the ball next Friday and celebrate the glorious fourth.

SPECIAL LOCALS. All persons desiring Barbecued Meat, Lamb or Suet, on Saturdays and Sundays can be supplied at my shop at 15 cents per pound. Please give orders in time. Julius Oncler.

Your accounts to July 1st and of 1878 are now ready to be settled, so all parties indebted to us will come forward and settle immediately by cash or note, as we need and must have money. Strong & Frankel.

Robt. Mills, Jr. is headquarters for Watches, Clocks, Jewelry, and everything usually kept in a first-class Jewelry Store.
