When Nature

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Company.

Rev. C. F. Dykeman, the new minister of the Universalist church, will preach next Sunday both forenoon and evening at the usual hours, morning subject "Faith in Man," evening subject, "Things that Make Honesty Hard."

A trial order with me for a suit of clothes, will convince you that the days of paying \$30.00 and \$40.00 for a suit has played out. I have taken advantage of the advancement of science and machinery, and this is why I can afford to make you a suit of clothes so cheap. Joe N. Fowright, the tailor and cutter. Cleaning and repairing a specialty. West 7th Street.

Mr. H. B. McKinney, of this city, has sent to the Nashville Centennial for exhibition an immense gourd, an heirloom in his family, raised by his father, Guy W. McKinney, of Trigg county, in 1836. It measures 62 inches in circumference, 22 inches in diameter and has a capacity of five pecks. It was used for forty years by the elder McKinney as a coffee chest. The present owner now carefully preserves it as a valued relic.

Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

GREATEST OF ALL PHYSICIANS.

Discoverer of Paine's Celery Compound to Whom Thousands Owe Their Life and Happiness.

"Excepting its handful of magnificent statesmen and its military heroes," says the most recent writer upon America, "the people owe more to Darnmouth's physician-teaching than to any one man. "In every walk of life, among the highest office-holders at Washington, in the homes of the best people in the large cities, among the every day folks of the country, families in comfortable circumstances, families that "live from hand to mouth" and could not, if they wished, afford the services of any but an ordinary physician—Everywhere I have met people to whom Paine's celery compound has been a blessing." The story of the life work of this giant among men has been often told and is familiar to most readers. The likeness above is probably the best portrait of him yet printed. It was the world-famed discovery by Prof. Phelps of an infallible cure for those fearful ills that result from an impaired nervous system and impure blood which has endeared the great doctor to the world, and made his life an era in the practice of medicine. Prof. Phelps was born in Connecticut and

graduated in medicine at Yale. His unusual talent soon brought him reputation and prominence among his professional brethren. First he was elected to the professorship of anatomy and surgery in the Vermont University. Next he was appointed lecturer on materia medica and medical botany in Dartmouth College. The next year he was chosen professor of the chair then vacated by Prof. Robby, and occupied the chair, the most important one in the country, at the time when he first formulated his most remarkable prescription. In view of the overwhelming testimony to the value of Paine's celery compound that has recently appeared from men and women of national reputation, the picture of Prof. Phelps is particularly interesting. The facts, Paine's celery compound is not a patent medicine; it is not a sarsaparilla; it is not a mere tonic; it is not an ordinary nerve tonic—it is as far beyond them all as the diamond is superior to cheap glass. It makes people well. It is the one true specific recognized and prescribed to day by eminent practitioners for diseases arising from a debilitated nervous system. Prof. Phelps

gave to his profession a positive cure for sleeplessness, wasting strength, dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney trouble. For all such complaints Paine's celery compound has succeeded again and again where everything else has failed. No remedy was ever so highly recommended, because none ever accomplished so much. Today Paine's celery compound stands with out competition for feeding exhausted nerves and building up the strength of the body. It cures radically and permanently. The nervous prostration and general debility from which thousands of women suffer so long that it finally gets to be a second nature with them—all this suffering and despondency can be very soon removed by properly feeding the nerves, and replacing the unhealthy blood by a fresher, more highly vitalized fluid. A healthy increase in appetite and a corresponding gain in weight and good spirits follow the use of Paine's celery compound. Paine's celery compound is the most remarkable medical achievement of this last half of the nineteenth century.
