**Again Our Bargains Burst Forth  
BLAZEN WITH CONSTELLATION OF  
Shining Low Prices Far and Wide!**

**They Illuminate the Horizon and bid the weary pocket book to pick up hope at the under values.  
A Few Cents May Capture.**

The great sale we inaugurated on last Saturday, Nov. 6, was the busiest day we have had in 18 months. The nine remaining days of this money saving sale we intend to make even greater and larger, by offering to the trade unprecedented low prices even in the face of the advanced and advancing markets. Goods of all kinds have advanced from 5 to 25 per cent., but despite this the prices we quote you now are even lower than any offered by any merchant during the depressed conditions for the past three seasons. In a circular issued a few days ago we stated our reasons plainly for this; but for the benefit of those of you who may have failed to receive our first circular, we again state as a reason for this sale and for the extraordinary low prices at which we offer you this stock. We bought too largely; our stock is larger by two than any other of similar character in Hopkinsville. The extreme hot weather of October leaves us with only 60 days in which to reduce it to its proper size by January 1st. Not of choice therefore, but business prudence has prompted this sale. To make it accomplish the end desired, we know full well inducements must be offered. Other merchants have not in addition therefore to the low prices named you in a former circular.
