HYPNOTIST HART.

Has the Town Worked Up By
His Queer Things.

Wonderful Things Performed Every
Night at the Opera
House.

Hart, the hypnotist, is giving nightly performances at the Opera House to packed houses. His week's engagement will come to an end to-morrow night and he has proved to be the sensation of the week.

On Monday night at the close of his performance he put Mr. Reese, one of his two assistants, to sleep and the sleeper remained in the State of hypnotic slumber until 9 o'clock Wednesday night, when he was awakened on the stage. During the two days' he slept he was on exhibition day and night in one of Anderson's show windows. He appeared to be sleeping naturally on a cot, frequently turning over and tossing about on the cot. The Opera House was crowded until standing room was at a premium Wednesday night when Reese was aroused at the command of Hart and walked from the stage.

Many wonderful things are done by Mr. Hart every night and he has no lack of subjects to hypnotize. While under this influence the subjects are made to do many amusing things and the audience is highly entertained.

On Tuesday afternoon one of the most successful tests was made of Mr. Hart's mind-reading power. A committee of five gentlemen was selected at Hotel Latham to prepare the test. One of the five remained at the Hotel to see that Mr. Hart was not communicated with by anyone while the other members of the committee went out and wrote the name of Dr. J. R. Armistead on a sheet of paper, enclosed it in two envelopes and taking it to the postoffice deposited the package in a lockbox with other mail matter. The key to the box was then taken to the Phoenix Hotel and concealed in the match-box and the committee returned to the Latham. Mr. Hart was blind-folded and taking the hand of Mr. Meacham, one of the committee, followed the route outlined in his guide's mind, without a word being spoken or a sign of any kind given, and proceeded rapidly, walking in advance, to the place where the key was hidden, secured it without hesitation and going to the postoffice selected the identical box

out of several hundred boxes, unlocked it and selected the proper envelope out of a handful of mail and carried it to Dr. Armistead, who did not himself know that he had been selected for the test and who was an entire stranger to Mr. Hart. The test was an entire success and was absolutely straight, so far as the part taken by the committee was concerned.

The performance to-night will possess some new features. People will be hypnotized in their seats in the audience and others will be made to perform things they could not do on their own accord.

The performances given are well worth the prices charged.

LYNCHING IN MEXICO.

Seven Colored Laborers Victims
of an Infuriated Mob.

Diaz, Mexico, May 23.—There is great excitement in the town of San Diale, ten miles from here, over the lynching of seven colored laborers on the Mexican Central Railway. Jose Santo, a Spanish negro, attempted to assault the wife of Senor Duply, a ranch owner, and, escaping from the plantation, was tracked by bloodhounds and in company with nine others were captured in a hut on the river bank opposite Eagle Pass. The regulators did not attempt to prove the guilt of any of the negroes, but hanged three of them and shot four more who were attempting to escape. The officials are swearing in deputies, as race trouble is threatened in the colored quarter.

Four of the negroes killed are Americans and have all served sentences in the Texas penitentiary.

MAY BE TROUBLE.

The Cubans Are Holding Back
and Refusing to Disband.

Havana, May 24.—The Sanguillys, Loret Vidal, Mayia, Rodriguez and all the late Cuban Military Assembly, aided by the opposition newspapers, are advising the Cuban soldiers not to give up their arms—"Not to sell the souvenirs of their heroic struggle for liberty" and "Not to part with honor for \$75."

It is pointed out that even Gomez, in his proclamation, counseled the soldiers to go home with or without money.

Gen. Brooke, of course, will proceed with the programme without heeding the opposition.

The military inquirers into the matter have lost all confidence in the rolls prepared by the Cuban Military Assembly. Hence, if 15,000 or 20,000 men appear for payment, the expectations of the Americans will be satisfied, but the dissidents will assert that as 39,930 men were enrolled any number less than that appearing for payment will represent armed Cubans who reject the American conditions. In any event, a large percentage of the \$3,000,000 will not be disbursed.

MORE FIGHTING.

Another Sharp Skirmish Reported
in The Philippines.

Manila, May 24.—Gens. MacArthur and Funston, with the Kansas and Montana regiments and the Utah battery, have dispersed 800 insurgents, who were entrenched on the railroad beyond San Fernando, near Santa Arita.

The American scouts were fired upon from the trenches unexpectedly and withdrew. The firing was heard at San Fernando, and Gen. MacArthur assembled his troops and marched quickly after the scouts. The Montana regiment flanked the trenches on the left and the Kansas regiment attacked the enemy's right flank, Gen. Funston leading the charge at the double-quick.

The insurgents' loss was large, many prisoners were captured, and it is reported that twenty Americans were wounded.

Lots of bright hope is exchanged for gloomy experience.

Lucky List of Pupils Who Are
To Graduate From the
Public Schools.

The agony is ended and the applicants for graduating diplomas from the High School department of the Hopkinsville Public Schools now know their fates.

Should any decline, the next in order will succeed to the honors. The first honor pupil gets first choice and so on down to fifth choice. Two of the scholarships in the Kentucky State College and one in South Kentucky College are open to both sexes. The other two in Bethel Female College and Oxford College, Oxford, O., are for girls only.
