

Anderson's Wear-Easy Shoe....

is a shoe made especially for farm use and that will wear "as easy as an old shoe" right from the start. A shoe in which there is not a peg or nail or thread to touch the bottom of the foot. A shoe that is almost as soft and flexible as a lady's hand turned. A shoe with a pure white oak innersole that is cooling to the bottom of the foot; all other every day shoes are made with cheap acid tanned red leather innersoles that burn, scald and blister the feet so badly in hot weather. A shoe that will give more comfort for general farm use than any shoe that has ever been gotten up.

We keep this shoe in Buckle and Congress & the price is **\$1.50**
 Sizes 6 to 13.

WITH A FISHING LINE NUMEROUS DEATHS.

William Mattingly, of Morganfield, Took His Life in Jail.

He Was Unable to Stand the Mortification of Arrest for Being Drunk.

Morganfield, Ky., July 4.—William Mattingly, a well known citizen of this place, who was connected with some of the best families of the state, committed suicide in the county jail in a peculiar manner. He had been drinking for some time, and his friends had exhausted every means to get him to reform. As a last resort, he was arrested while intoxicated and placed in a cell in the jail, in the hope that the mortification of the arrest might arouse him to a sense of his duty to himself and his friends. Everything was taken out of his pockets with which he could harm himself except a small fishing line in his vest pocket.

After he had been locked up he doubled this a number of times and made a cord strong enough for its purpose. He tied it around the knob of the door and around his neck. He then dropped to the floor and the pressure of the cord was sufficient to kill him. He was found after he had been dead at least an hour.

He was 65 years old and leaves several children, all of whom are grown and highly respected.
