

Stop Coughing

Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Cease tearing your throat and lungs in this way. Take

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin; the tickling in the throat ceases; the cough disappears. Two sizes: \$1.00; 50c. Dr. Ayer's Cherry Pectoral Plaster should be over the lungs of every person troubled with a cough. J. C. AYER CO., Lowell, Mass.

THAT AGREEMENT.

Peace Protocol Rejected By Usurper Taylor.

Fortunate For The Democratic Party That the Agreement Did Not Go Through.

The following is the proposed "peace" treaty that was finally turned down Saturday:

"February 6, 1900.—For the purpose of ending by proper mutual concessions the unfortunate condition of political affairs now existing in Kentucky, a conference was this day held at Louisville in which the subscribers participated. After many hours of patient and frank discussion it was unanimously determined to recommend an accommodation of the difficulties upon the following basis:

"First—That should a resolution be passed by the general assembly during its present session in joint session of the two houses declaring that the action heretofore taken by the general assembly did invest William Goebel with the title to the office of governor of this commonwealth on the 2nd day of February, 1900, and did invest J. C. W. Beckham with the title to the office of lieutenant-governor of this commonwealth, as of said date, the contestees, William S. Taylor and John Marshall, shall not dispute the said titles, respectively.

"Second—That should the general assembly pass the resolution stated in the foregoing paragraph, immunity shall be extended to all persons from accusation growing out of political acts done pending the contest for the offices of governor and lieutenant-governor.

"Third—That all legislative actions by the present general assembly shall be postponed until Monday, February 12, 1900, except only such steps as may be necessary under the constitution to make lawful adjournments.

"Fourth—That the board of state election commissioners, sitting as a board of contest, shall postpone all of its proceedings until Tuesday, February 13, 1900, or until such later date as it may determine; provided it may in the meantime meet and adjourn if it shall determine that such meetings are necessary or expedient.

"Fifth—That it is earnestly recommended to both parties that in the consideration and determination of all pending and undetermined contests for the offices of representatives and senators all partisan consideration shall be eliminated as far as may be. But this provision shall not be regarded as anything more than a recommendation.

"Sixth—That the present general assembly shall provide an absolutely fair and non-partisan election law, which shall secure to the voter the fullest measure of protection to the end that he shall have the fullest liberty to cast his vote without let or hindrance and have it counted as cast, and shall secure to the officers of election the fullest protection in the discharge of their duties.

"Seventh—That as soon as possible from this date the state militia now on duty at the seat of government shall be withdrawn and sent to their homes, due regard being had for the preservation

of the public peace.

POLICE COURT.

Several Offenders Fined by Judge Leavell.

In the Police Court yesterday morning, several interesting cases, from a local standpoint, were tried before City Judge Leavell.

Mattie Meacham and Eva Bacon, well-known colored fighters and disturbers of the peace generally, were tried and fined \$100 each for breach of the peace, and in default of payment were sent to the work house. Will Wallace, same, for same, was sent to the work house also.

Bessie McGehee and Barker Terry, for breach of peace, were each fined \$4.00, which fines were paid.

Behanessy will give his entertainment under the auspices of the Ladies of the Christian Church, Feb. 14. Admission 25.

A Dog Trained by Thieves.

A mastiff was trained to assist thieves in Paris. It was in the habit of bounding against old gentlemen and knocking them over in the street. A "lady" and "gentleman"—owners of the dog—would then step forward to assist the unfortunate pedestrian to rise, and while doing so would ease him of his watch and purse.

It's Easy To Take

Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia. SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble. Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

PRINTING WITHOUT INK.

New Use to Which Electricity Will Soon Be Put.

The English trade papers have within the past six months devoted considerable space to the discussion of printing without ink, a subject which has considerable interest to all who are engaged in making books, whether they be papermakers, printers or publishers. The basis of this scheme is an invention for printing by an electrical process, the patents covering which have been acquired by an English corporation.

From what can be gathered from the various printed accounts, the printing by this method is effected without the use of ink in any form by simply bringing the plate in contact with chemically dampened paper, linen, silk, wood or other material, the result being a good, clear impression, the density of which can be varied as desired. The print obtained by this process resembles in clearness a copperplate or litho engraving, and is obtained in a more simple manner than by letter-press printing. The ordinary printers' type blocks, forms, stereotypes or electrotypes, constitute in themselves a suitable printing surface, and may be used in a similar way, merely coming into contact with the dampened paper to form the print.

The chemical additions to the paper which make it susceptible to the electric current are to be added to the pulp, and are said to be so cheap as to cause no appreciable increase in cost. The paper does not depreciate by keeping in stock, and can be supplied to the printer in the usual form of flat reams and in reels. It is the intention of the patentees to grant licenses on moderate terms to papermakers, so that there will be no necessity for changing the usual source of supply. The saving to those who adopt electrical printing will be, primarily, in the cost of the ink and in time and labor.

It is claimed that all printing presses now in use can be adapted, at a small cost, for electrical inkless printing. The only changes will be to leave off the rollers and all movable parts of the inking arrangements, fit a thin sheet of fine rolled zinc around the cylinder as a conductor, connect the negative and positive poles from the electrical supply of the press, and it is ready to print. The same electric motor that drives the printing press will also supply the current for printing.—Publishers' Weekly.

A Village in Three Counties.

The village of Stokenchurch, on the Chiltern Hills, is in an anomalous position. For parliamentary purposes it is in Oxfordshire, for the purposes of the poor-law and local government it is in Bucks, while recently it was placed in the district of Wallingford, which is in Berkshire.

For The Babies.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus, depriving that disease of all dangerous consequences.
