 The White Bronze Monument,
 beautiful in design, appropriate in color, never tarnishes, chips or cracks, and science in its long search for something that would stand the frost of this climate for monumental purposes has at last found it in the White Bronze. It fills every wish. It is a beauty to behold. It will perpetuate the memory of loved ones, that future generations may bestow their gentle acts of kindness upon the graves after we have gone to our reward.

Clover For Hens.
 If you are fortunate enough to have some clover, cut it for your hens. This is the best bulky food you can get for your hens. It takes the place of the place of green food in winter and is cheap. Being bulky it aids in digesting the other more concentrated foods, as grain and meats. It is also rich in mineral food that it is in a digestible form. It will help make bone and feathers and furnish lime for the egg shells, besides supplying the yolk with plenty of general matter. It should be cut into half-inch lengths and then steamed by pouring over it boiling water and letting it stand, well covered, over night to make it tender. With it should be mixed a little ground food and the table scrape or meat and-bone.

Cold Facts.
 Nine months ago printing paper was selling at \$35 a ton. Now the price is from \$60 to \$70. The International Paper Company—a giant trust—controls the output of all the large pulp and paper mills, and publishers are squeezed to the extent that they are being ruined financially. Congress has been asked to repeal the duty on paper and pulp. Bills have been introduced, but they slumber in Dalgell's committee. The little Dandy Jim congressman from Pittsburg sits down on the publishers' appeals and tells the newspaper men to be patient and relief will come after awhile in the ordinary course of business. That's comforting, isn't it? After the monopoly vultures have eaten all our flesh our bones can be set up for grinning skeletons, and sold to the doctors. The publishers of this country should unite and go down to Washington and make their demands known in such a way that our \$5,000 a year hired men would give heed. Editor have largely been instrumental in making the statesmen representing us at Washington, and some of them have been manufactured out of pretty poor material. They should be given to understand that they will be held accountable, individually and collectively, for the passage of a bill taking the duty off pulp and paper; also the passage of an anti-trust law with teeth in it.—Meadville (Pa.) Democrat.

Then, in utter ignorance, the maiden must meet physical problems whose solution will effect her whole future life. Dr. Pierce's Favorite Prescription has been well named a "God-send to women." It corrects irregularities and imparts such vigorous vitality to the delicate womanly organs, as fits them for their important functions. Many a nervous, hysterical, peevish girl has been changed to a happy young woman after the use of "Favorite Prescription" has established the sound health of the organs peculiarly feminine.
