CONFESSION NO. 2.

Robert Noaks Says He Swore Falsely Against Powers.

Claims That He Was Kept Intoxicated and Did Not Know What He Was Doing.

Robert Noaks, one of the witnesses for the Commonwealth in the trial of former Secretary of State Caleb Powers, has, it is said, made a statement in which he admits to having sworn falsely against the prisoner. He claims to have been kept under the influence of liquor by Mr. T. C. Campbell until he became a nervous wreck, and that his testimony was not competent. He says that he realizes that he did Powers an injustice and made the statement to ease his conscience.

In a letter to Powers Noaks says he is going to leave the United States.

Noaks made his statement to Attorney Max Louis, of Louisville, at Danville, Ill. Powers says that Noaks' confession about his testimony was no more than he expected. The statement is not sworn to, a circumstance the attorneys explain with the statement that Noaks asked them for money, and when they refused him he declined to swear to it and departed.

IS IT AN EPIDEMIC?

Vital Statistics Show an Alarming Increase in an Already Prevailing Disease—Are any Exempt?

At no time in the history of disease has there been such an alarming increase in the number of cases of any particular malady as in that of kidney and bladder troubles now preying upon the people of this country.

Today we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of their serious illness or sudden death, caused by that fatal type of kidney trouble—Bright's disease.

Kidney trouble often becomes advanced into acute stages before the afflicted is aware of its presence; that is why we read of so many sudden deaths of prominent business and professional men, physicians and others. They have neglected to stop the leak in time.

While Scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the chances of contracting dreaded and dangerous kidney trouble, or eradicate it completely from their system if already afflicted. Many precious lives might have been, and many more can yet be saved, by paying attention to the kidneys.

It is the mission of the KENTUCKIAN to benefit its readers at every opportunity and therefore we advise all who have any symptoms of kidney or bladder trouble to write to-day to Dr. Kilmer & Co., Binghamton, N. Y., for a free sample bottle of Swamp-Root, the celebrated specific which is having such a great demand and remarkable success in the cure of the most distressing kidney and bladder trouble. With the sample bottle of Swamp-Root will also be sent free a pamphlet and treatise of valuable information.

Mrs. Allan Hardison, of Nashville, is visiting her parents.
