### DIGGING FOR GOLD,

New Machinery Being Put in Mine Near Hawkins.

Regular Mining Operations to Commence This Week on the Cato Farm.

A large force of hands was put to work yesterday at the gold mines on the Cato farm, not far from Hawkins, in Northwest Christian. New machinery will be put in at once and regular mining operations will be resumed this week.

T. K. Wilson and other Sebree capitalists leased several hundred acres of land in that section last year and a tunnel forty-five feet in length was opened, but the main vein of gold was missed by about 15 or 20 feet, when operations were suspended.

Some of the ore sent to a chemist assayed \$2 to the ton. It is believed that gold in paying quantities will be found and preparations will be made to operate the mine on a large scale. The most improved mining machinery was purchased and a full force of hands will be given employment, working with a night shift.
