Branch Office, 24 E. St., Washington, D. C.

Right Paint at the Start

Pure White Lead and Pure Linseed Oil should always be used for the first or priming coat. No other paint has the same affinity for the surface—marrying and becoming a part of the wood.

Yellow ochre, barytes, zinc or any other substance than Pure White Lead fails to form a cushion, which will prevent even Pure White Lead from attaching itself when finally applied.

Satisfactory results can never be obtained so long as a surface is coated with a *separating* (for that is all it is) of yellow ochre, barytes, zinc, etc. Such a coating is bound to crumble, crack and peel, and must be burned or scraped off, down to the wood itself, before a good job can be done—an expensive process, and not without danger of fire.

A house owner can scarcely make a more costly mistake than to use a substitute for Pure White Lead in the priming coat. Avoid all risk by using

COLLIER

Practical Poultry Hints.
Eggs for hatching should not be kept over two weeks at the longest. In keeping eggs for hatching they should be turned every other day. In mating up your stock always pick out the best that come up to the standard requirements. The American varieties are just "it." They are certainly the best confirmation fowl. For eggs or broilers they cannot be beat. The Plymouth Rocks or Wyandottes are "it" for all general purposes. The breed you like best is the breed you should keep as you will always give your "choice" the better care. Exercise is very beneficial to fowls and also helps the egg crop. A dry sandy poultry yard is unsurpassed. "Scrubs" eat a whole lot and never give any returns. What is your reason for keeping them? Get the best of everything and then make a strong effort to make it better. It can be done. Over-fat fowls will not lay, one reason that many farmers' fowls do not lay. Unfertile eggs will not hatch under the old "Grandma" hen.

There Are Few
people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for chills and fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown up people, and I recommend it. It is fine for la grippe." Sold by Cook & Higgins.

Never place too many chicks with one hen especially not in the early part of spring, as on a cool night, the hen cannot comfort them all and the result is that some of the chicks get chilled, and when once chilled it will be a weakening for life.

If your stomach troubles you do not conclude that there is no cure, for a great many have been permanently cured by Chamberlain's Stomach and Liver Tablets. Try them, they are certain to prove beneficial. They only cost a quarter. Sold by L. L. Elgin and Anderson & Fowler, up-to-date druggists at Hopkinsville.

A young chick's necessities are warmth, light, pure air clean water, a variety of food and clean quarters.

J. W. CROSS,
Secretary School Board.

While landing from a boat at Owensboro, Mrs. Jas. Lewis fell overboard. Her husband jumped in and swam ashore with her.

Don't!!!
Don't let your children suffer with that cough when you can cure it with Ballard's Horehound Syrup, a sure cure for coughs, bronchitis, Influenza, croup and pulmonary diseases. Buy a bottle and try it.
B. B. Laughter, Byhalia, Miss., writes: "I have two children who had croup. I tried many different remedies, but I must say your Horehound Syrup is the best croup and cough medicine I ever used." Sold by Cook & Higgins.

How to Interest the Wife in Poultry.

FOR many reasons woman is far better adapted to the poultry business than man. Hatching and rearing chicks requires the closest attention to little details, overlooked by the average man who is in every way naturally equipped for coarser and heavier work. Notwithstanding, we find men breeders and fanciers in the majority by long odds, in fact a lady enthusiast in the poultry business is an exception. There must be some good reason for this. Of course, it is generally understood that a woman is so occupied raising her family and looking after house work, she has not the time to devote to it. It must be conceded this is the case with a great number, but poultry can very easily be made to pay for a servant, giving one an opportunity to exchange the monotonous drudgery of house work for an interesting and health giving out door work, far more pleasant and interesting. It is an old story to hear a man say: "If I could only get my wife interested in poultry, we could make a wonderful success of it."

It is the purpose of this article to suggest a way by which the wife can be interested and if the case is properly diagnosed it is easy to tell whether or not this prescription will have the desired result. First, if the family is large and the house work heavy, employ a servant to take this drudgery off her shoulders and don't be afraid of the cost, as she will make, not only enough to pay the servant hire, but to buy many little things necessary to have about the house. Second, when a customer calls to see the chickens, let her show the birds, tell of their winnings, etc. When time comes for shows, send her with the birds to attend them, to meet the fanciers and be recognized in the fraternity. Then when a \$5 bill comes for a trio, don't get it mixed up with the old tobacco crumbs away down in your pocket, but turn it over to her and make her think she has earned it. In other words recognize her as a partner in the business, and divide the earnings with her.

Woman's pride and independence generally exceeds that of man and she finds extreme satisfaction in being able to earn something and retain her individuality, while it is true the husband should be the head of the family, there is no reason why he should absorb the identity of his wife.

Our civil laws recognize them as equal partners in business and title to all property acquired by their joint efforts is vested equally in each. But no woman can have any business qualifications if she be kept tied down with kitchen drudgery which can be done by a \$10 a month servant.

There are very few intelligent women who have not more earning capacity than this. It would be a very unbusinesslike proposition to use a fifty horse power engine to run a five horse power machine. Political economy means to reduce to the minimum what machinists term "lost motion."

Every individual should rise to the level of his capabilities, both in the business and social world, but it is quite impossible to do so without getting out and breathing the real live atmosphere of the every day social and business world, which is the school of up-to-date learning and common sense education.

Curious or Interesting
What is a good hatch? This question is asked us about fifty times a year. This spring we got a setting of eggs from which a very faithful hen hatched one chick, said chick after a few days meeting an untimely death by drowning. Two settings from another yard produced two chicks both of which still live. We are not finding fault. In fact we are perfectly satisfied. If we had got a dozen prize-winners from these three settings we would never have even thanked the one who sent them to us. We understood from the first that we took all the chances and win or lose we were willing to call it even. One time we sent a man fifteen eggs from which he got eleven chicks. He wrote us about it and said before he began legal proceedings against us he was willing to wait to hear from us as to what we proposed to do about the eggs that didn't hatch. A good hatch is two-thirds of the eggs received, a satisfactory one should be just the number of chicks that come out of the shell.—Poultry.

THE SECRET OUT.

proper strength. The exact working formula for making these medicines cost Dr. Pierce and his collaborating Chemists and Pharmacists many years of study and experiments, but as perfected they produce almost perfect pharmaceutical compounds, embodying all the active, medicinal principles residing in the ingredients employed, and this, too, in such form and combination as to keep unchanged in any climate. Thus the use of alcohol is entirely avoided.

PROOF POSITIVE.
Without solicitation, Mrs. H. Harrison, of 112 West 2d Street, Sioux City, Iowa, wrote us as follows:
"I suffered for more than seven years with a very complicated form of female trouble accompanied with nervous prostration, and after consulting with six physicians (all having excellent reputations), was informed that unless an operation was performed I would be an invalid all my life. Hearing of the wonderful cures effected by Dr. R. V. Pierce's remedies, and believing that there must be a cure for almost every ailment, I wrote to Dr. Pierce, and I will never forget his kindly advice, telling me to follow his instructions faithfully and not to submit to an operation. I commenced to improve after six weeks' treatment, and in five months my improvement was so noticeable to friends that they began to inquire about my method of treatment. I was pleased to tell them of the wonderful means of cure that I had most gratefully found, and, as so many ladies applied to me for information regarding Dr. Pierce's world-famed medicines and his plans of treatment, I felt it duty bound to give them the benefit of my experience, so, I told them the facts. The large number of positive cures effected by Doctor Pierce's remedies alone, used by my recommendation, seemed, in one year's time, nothing short of a miracle. I couldn't have believed it had I not seen the parties and known the facts."

Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists.

To refute the many false and malicious attacks, bogus formulae and other untruthful statements published concerning Doctor Pierce's World-famed Family Medicines, the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for women and his equally popular tonic alterative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines, leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native roots, of rare medicinal value. The ingredients of the "Golden Medical Discovery" being Golden Seal root, Queen's root, Stone root, Black Cherry bark, Mandrake root and Bloodroot. The "Favorite Prescription" is prepared in a similar manner, from Blue Cohosh root, Lady's Slipper root, Unicorn root, Golden Seal root and Rattleweed root, these ingredients being macerated for a long time at a rather high temperature in a menstruum composed of chemically pure glycerine, of

Southwest
The Land of BIG CROPS and PROSPERITY.

Are you making as much off your farm as you ought? No doubt you are making all you CAN. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost.
A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in. Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.
