COLLARS OF LINEN

NOT FOR THOSE WHO HAVE PASSED YOUTH'S BLOOM.

Soft Ruches or Neckwear of Muslin or Lawn Better Suited to the Elderly—Transparent White Undersleeves.

Starched white linen should be passed their first youth. The reason is simply because the hard, smooth texture of the material contrasts unfavorably and accentuates every wrinkle and bit of yellowishness or flabbiness in the skin. Better admit that the fresh firmness of youth is gone and dress accordingly than make oneself appear older by emphasizing the gain of years.

For example, there is scarcely any type of face in a girl, or young woman, to which a linen collar is not becoming. The severe white line with smart tie, large or small, is chic, and it is this fact which accounts for such collars not going out of fashion.

Put this kind of neck finish about the throat of a woman who is past middle age and she looks "scraggy" and passe. For her soft ruches should be considered a necessity of life, or, in their stead, white collars made of bias folds of soft muslin or lawn.

One of the most becoming, and at the same time inexpensive, ties that can be worn is made with a width of mull three-quarters of a yard long. The ends should be rolled and wash lace four inches in width gathered on with double the fullness.

That completes the neckpiece, but the knack lies in the way it is put on. Instead of holding it so that the ends will be straight across, pull them so that they are bias. Fasten a separate white collar foundation on the neck, and then pull the tie so that it becomes the width of the collar. Put this under the chin and cross at the back, where it should be held in the middle with a fancy little pin. Bring the two ends around front and you will find that they hang long and pointed. Tie these ends in two common knots, one after the other, the second forming a square knot. That leaves the two ends hanging like a jabot, an effect that is quite finished if the two lower points are pinned invisibly to the waist.

For the reason that hands betray age or illness by becoming wrinkled or scraggy, stiff cuffs should be avoided by all but the young. Soft frills must be used instead.

The reign of elbow sleeves is so complete that it takes a brave woman to give it no heed. Yet better that one should ignore it than spoil one's whole effect by an unbecoming finish, which these short sleeves usually make. This is due to the fact that a woman whose arms are pretty from the elbows down is the exception. "A well-rounded arm" exists more frequently in the mind of a poet or artist than in fact, and nature turns out some decidedly homely specimens. If a woman who knows that she is no blessed in this direction will give the matter a little thought, she will do much to improve herself.

COAT FOR SMALL CHILD.

Practical and Attractive in Almost Any Material.

The little coat illustrated shows a very attractive garment for a small child, the model being practical for almost any material, either in silk, cloth or linen. White linen was used for the original garment, the scalloping and embroidering being done in white wash cotton. The little coat was made with a circular cape and turn-

back cuffs and fastened with large pearl buttons.

The diagram shows a full size scallop pattern and illustrates the embroidery stitches used. The work is all padded first, so that the embroidery is quite heavily raised when finished. If silk or cloth is used to make the little coat, the embroidery should be done in twisted silk of not too fine a grade.

Fans to Match Gowns.

The mandate from London is that the fashionable woman must have a different fan for every gown and one for every occasion. "A tiny fan in a shade to match the hat should be carried in the park in the morning," says an authority. "An afternoon fan is more elaborate, but equally small. It is made of real lace or fine silk, embroidered with flowers. The river fan is made of paper, printed with a floral design. A tiny mother-of-pearl fan folds into a vanity bag. The peacock's feather fan is a novelty of the season and floral fans made from real flowers will be largely in request.

NATURE'S ESSENCE.

Extracted From Forest Plants.

Nature's laws are perfect if we obey them, but disease follows disobedience. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the black-cherry tree, the root of mandrake, stone root, queen's root, bloodroot and golden seal root, make a scientific, non-alcoholic extract of them with just the right proportions and you have Dr. Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alternative of the greatest efficiency. Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this extract is like Nature's influence—the blood is purified and enriched—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated in the system. Doctor R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a physician of large experience and prac-

tice, was the first to make up an alternative extract of native medicinal roots, without a particle of alcohol, which purifies the blood and tones up the stomach and the entire system in Nature's own way. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, pneumonia, or from a debilitating fever. No matter how strong the constitution the stomach is apt to get "out of kilter" now and then, and in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body, and so cures liver and kidney troubles. If you take this NATURAL BLOOD PURIFIER AND NERVE TONIC you will assist your system in manufacturing each day a pint of rich, arterial blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which over-worked people experience is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery STANDS ALONE as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which cures in Nature's own way; not only does it STAND ALONE in respect to its ingredients being known, but also as the only tonic and restorative which absolutely contains no alcohol.

"I was taken with a severe cough, weakness in my back, a glimmer over the eyes, had a bad breath, and stomach was out of order," writes H. Giddis, of 1423 South Tanna Avenue, Tacoma, Wash. "I felt sluggish, did not care for anything, had no life, it was almost misery to move, appetite very poor." I read Dr. Pierce's Common Sense Medical Adviser and went right away and purchased two bottles of his "Golden Medical Discovery," and before I had taken all of one bottle I felt better. If any doubt the truth of this testimonial they may write to me."

Dr. Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so help to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.
