## DIAZ RESIGNS DICTATORSHIP

## DIAZ WILL SOON LEAVE

**De La Barra Becomes Presi-  
dent Pro Tem of  
Mexico.**

Mexico City, May 25.—President Diaz, in a letter read by the president of the chamber of deputies this afternoon, resigned the presidency of the republic of Mexico, and at exactly 4:54 o'clock the acceptance of the renunciation by the deputies was announced.

Every one had expected an uproar and demonstration when the announcement should be made, but within the chamber the words of the President announcing the event were followed by a dead silence. The deputies seemed awed by what had taken place.

In the streets, however, black with people, every street leading to the hall was blocked, news that Diaz was at last no more the President was the signal for the wildest shouting and manifestations. There was no violence nor destruction of property.

The motion was offered to accept the president's resignation. One hundred and sixty-seven deputies voted aye, while two of them did not express themselves. They were Benito Juarez, a descendant of President Juarez, and Concepcion Del Valle. As their names were called the legislators arose and bowed their affirmation.

In similar fashion the resignation of Vice-President Ramon Corral, now in France, was unanimously accepted and similarly Francisco Leon De La Barra, late ambassador to Washington, was chosen provisional president. The latter will take the oath of office at noon tomorrow in the yellow parlor of the national palace.

President Diaz's letter of resignation follows:  
"Sir: The Mexican people who

generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, established its credit, gained for it the respect of the world and obtained for it an honorable position in the concert of nations; that same people sir, has revolted in armed military bands stating that my presence in the exercise of the supreme executive power is the cause of this insurrection.

"I do not know of any fact imputed to me which could have caused this social phenomena; but, permitting, though not admitting, that I may be unwittingly culpable, such a possibility makes me the least able to reason out and decide my own culpability. Therefore respecting as I have always respected the will of the people, and in accordance with article 82 of the federal constitution, I come before the supreme representatives of the nation in order to resign unreservedly the office of constitutional president of the republic with which the national vote honored me, which I do with all the more reason since, in order to continue in office it would be necessary to continue shedding Mexican blood, endangering the credit of the country, dissipating its wealth, exhausting its resources and exposing its policy to international complications.

"I hope, gentlemen, when the passions which are inherent to all revolutions have been calmed, a more conscientious and justified study will bring out in the national mind a correct acknowledgment which will allow me to die, carrying engraved in my soul a just correspondence of the estimation which throughout my life I have devoted and will devote to my countrymen. With all respect.

PORFIRIO DIAZ."

## Henderson Gets One.

Henderson is to have a Postal Savings bank, being the fourth city in Kentucky to get one. The other cities are Middlesboro, Hopkinsville and Catlettsburg. There is but little value attached to this part of the postoffice work and the postmasters as a rule do not care to be bothered with it.

Mrs. M. E. Bacon returned yesterday from Louisville.

## THE Administration of Estates!

There is no more sacred duty that can devolve upon man, than the custody of money not his own. When, by reason of ill health or old age, men find it impossible to properly manage their valuable interests, and thereby to protect those whom they must leave behind them, it becomes necessary for them to seek another, who, representing them, can safely be entrusted with their property, and who will conscientiously inspect their wishes and anxieties.
