

## M'DONALD SHOW CIRCUIT

Will Take in Holland's Opera House Beginning In January.

ONE SHOW FOR EACH WEEK

Famous Musical Companies and Celebrated Dramas Included.

Manager Holland has placed his opera house in the McDonald circuit and will get the high class shows syndicated by that concern this season.

Among the big musical shows which will thus be secured are:

- The Pink Widow.
- The Girl From Lunenburg.
- The Heart-Breakers.
- Sunny Side of Broadway, with Max Bloom.
- Four Marx Brothers.
- The Winning Widow.
- Miss Nobody From Starland.
- Colonia! Minstrel Maids.

Some of the celebrated dramas are: Deep Purple. Paid in Full. The Wolf. A las Jimmy Valentine. Third Degree.

These are only a few of the many excellent attractions that will be seen here at the popular price of only 50 cents. A. N. McDonald manager of the circuit, was here this week and perfected the arrangements, Hopkinsville being on the line from Chicago to Nashville.

The shows will spend Sundays in Evansville, playing Henderson, Owensboro, Bowling Green, Clarksville and Hopkinsville and perhaps Madisonville. There will be one attraction each week, and Hopkinsville's night will probably be Friday in the larger cities a week's engagement will be played.

The first of the shows will come to Hopkinsville the middle of January and thereafter there will be one a week until the summer vacation.

### Receives Promotion.

Miss Carrie Grace Akin, who has been bookkeeper for the Singer Sewing Machine Company at Hopkinsville for several years, has been promoted to head bookkeeper for the same company at the Louisville office and she has assumed her new duties. The charge is not only a nice promotion but carries with it a substantial increase in promotion. Miss Akin spent last week here with her parents, Judge and Mrs. J. T. Akin.—Princeton Leader.

### COLD STORAGE

Plant Is Being Installed By the Peter Fox Sons Co.

The Peter Fox Sons Co. are arranging to put up a cold storage plant here in connection with their poultry business and be prepared to keep open for business the year round, packing dressed fowls in cold storage and supplying them to the eastern markets. The plant is to be installed at once at their depot on First and Railroad streets, and will be up-to-date in every respect.

### Local Briefs.

A dance is to be given at the armory next Wednesday night, the Wright Saxophone Co., of Columbus, Ohio, to furnish the music.

Christmas arrives right in the middle of the week this year, and it is less than three weeks off.

Since we've had a tobacco season there has been quite a noticeable improvement in business.

### Money In Hogs.

Farm and Fireside says: "The cotton farmers of the south are slowly turning to hog-raising. They have every facility for this business, and will succeed if they study it. The universal testimony of stockmen is that there's more money in hogs than any other live stock — if it weren't for the cholera — and hogs grown on forage are not as subject to cholera as dry-lot hogs. Hogs will break up the one-crop system of the South — and that is to be desired. A one-crop country is a one-generation country."

### Married at Clarksville.

Miss Addie Dollins and Mr. John Carroll, of this city, were married Tuesday night at Clarksville by Esq. J. M. Jarrell. They made the trip from here in an automobile.

Miss Louise Jones has returned from a stay of several weeks in Cincinnati.

### GO TO FLORIDA

December 16th with MR. BRUMFIELD and see our truck and fruit land proposition. There will be cheap rates on at that time and you will have a chance to make a good Christmas trip, and at the same time investigate these cheap, fertile lands of ours. This is the best truck proposition in the State for the money. Mr. Brumfield has a truck farm in cultivation and you can see for yourself what these lands will do. For particulars see

### MISS STARLING'S LATEST LETTER FROM SIAM.

Nan, N. Siam, August 9, 1913.  
You never saw such a slim mail as came last week: Not a scratch for anybody, from "the outside country;" only a few straggling local letters. The mail got here earlier than usual, so we surmise that the mail-carriers, fearing bad weather, had started out from Prae, and not waited for the mail from Bangkok. However, it means that there are not many letters to answer this week, which is a relief when one is crowded for time. This has been our examination week, and I have been unusually busy. Then we have been in such a pickle about the herd of cows. The cattle disease got into them, and we had a time. The first cow died at Taylor's place, so he sent the herd over here, to confine the disease there. But the next day, two died here, and several others later, so he took the well cows back to his place. He had 17 cows in his native herd, and he and Dr. Beach recently bought Gillies herd of Burmese cattle,—four cows and two cows,—paying about \$100 for the lot. Now there is only one cow left of this herd, and six or seven others have died. It has been awfully trying, to see them dragging around here, day after day, nothing but skin and bone. I think that has worn me out more, this week, than my school work. There is one good thing about their having been sick over here though; and that is, that he won't dare turn the well cows in here again this season, for fear of their taking the infection. We can't keep the school yard at all decent, with 32 cows in it. The girls put out flowers, and they eat them right up; and there are just stubs of the palms left. But I can't complain, for it is so hard to get grass for them, and Palmer didn't get any hay for them, to use during the dry season. And then, it is good to have their milk to drink; and we have been having very good milk lately. Of course we don't skim it; there wouldn't be anything left of it if we did.

another like her. Everybody says so. They seem to be supremely happy over the "precious treasure."  
This week I got a letter from you, dated ten days earlier than the one I had received the week before. It was addressed "Loas, North Siam," and had evidently lain in the post-office somewhere, until they found out where I lived; when someone added "Nan" in pencil and sent it on. It's a wonder I got it at all, but I was very glad it turned up, you may be sure.

Dr. Taylor is off for Wiang Saa this morning, to stay over Sunday, to examine into some charges of witch-craft, brought against one of our Christians; to doctor a sick woman, and incidentally to try to improve the spiritual condition of the church in general. We hear that there have been thirty deaths there, from whooping cough. The disease is very bad in the Boys' School just now, but we have had only one bad case so far. Hope it won't spread among the girls.

There is news that a cart road is to be built between here and Prae soon, which will make the trip easier and shorter, in point of time. Nan people are to be drafted, to do the work as far as the boundary of our province, while the Prae people work from their side. Five hundred men are to be impressed for one year, to work the road, 500 to handle the boats that bring materials by river, 500 to do carrying, and another 500 for something else, making a total of 2,000 men in all from this province. The men who are not doing actual work for the government, are to work the fields of the men who are on the road. The men are not given a cent for their work, and are allowed off, only so much time as they need to go home for food. That seems to us a pretty hard way of doing things, doesn't it?

I have just been down to settle a young man who was howling in the front yard; he comes often to see his sisters, and is dreadfully spoiled. I called to him to stop, but he didn't pay any attention to me, so I went down to see what was the matter. Dr. Taylor has a pile of sand in our front yard, and this young man was amusing himself by throwing it away. He miscalculated once, and threw the sand all over his own head. He wasn't hurt at all, but very mad about it. I took a stick out to whip him, but it was so funny, I made fierce threats, and went on back to the house.

We are having some very dry weather, and are afraid the rice crop is going to fail. We have our hardest rains this month, and there has been scarcely any yet, except for a week of hard rain in July. Where there is no water to turn in on the fields, the people have been unable to plow. Every one seemed to be expecting a lot of rain this year.

LUCY STARLING.  
Miss Lida Wilkinson has returned to Cadiz after a visit to Mrs. Will Kemmons.

and surprising unanimity a movement to put Hopkinsville in the Third Class, where it could then vote upon a commission form of government, under an enabling act applying to Third Class cities.

Mr. Geo. E. Gary was chairman of the meeting and Spaulding Trafton was made secretary. Hon. Jno. F. Bible was the principal speaker and the first part of his speech was a severe arraignment of the system under which it is possible to trade off the offices of the city every two years, often removing good officials for no other reason than that their places were wanted for others in payment of political debts of interested bosses and ringsters. He called upon all who opposed the spoils system, operated for the benefit of a few men, to get on the side of the people. He then turned his attention to the advantages of a commission form of government, run by business men for the business interests of the city, and presented many strong reasons for the proposed change to a form of government being adopted by the most progressive cities all over the country.

Hiram E. Brown and Robt. A. Cook, Republican leaders, were called upon and both endorsed the movement, pledging themselves to assist in making it a success, co-operating with the business men of the city irrespective of politics.

Following their speeches, Mr. W. A. Wilgus offered this resolution which was adopted by unanimous vote:

"Resolved, That we, the citizens

**BeWARE OF QUACKS FOR CATARRH THAT CONTAIN MERCURY**  
As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is too great to be good. You can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.  
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

declaring it was the best lot available within the appropriation of \$1500. He said he felt confident the street improvements contemplated would answer all reasonable objections to the site.

President Frank Rives, of the Library Board, also spoke, saying that the Board, was satisfied with the site and felt that the Mayor and Council had done the best they could.

The meeting adjourned without a motion on the question raised.

Chairman Gary yesterday named the following committee, all of whom were seen and agreed to serve: John C. Duffy, C. O. Wright, A. H. Eckles, Jno. F. Bible, W. A. Wilgus, R. E. Cooper, Sam Frankel, M. C. Forbes, W. T. Tandy, Geo. D. Dalton, E. W. Moore, J. M. Neblett, T. L. Metcalfe, E. M. Flack, S. Y. Trimble, H. Clay Smith, Chas. M. Meacham. Other names will be added.

### SPOILED MEAT

Some Of The Heavy Loses By The Warm Weather.

It is impossible to estimate the actual losses from spoiled meat, following the warm weather last month. Many farmers hastened to kill hogs at the first freeze and nearly all lost their joints when the cold spell ended so abruptly. Among the heavy losers known are E. D. Jones, T. C. Jones, C. H. Boyd, W. H. Adams, J. T. Steger, Steger Bros., R. G. Rickman and W. A. M. Kerzie.

### Coming In.

If anybody is of the opinion that there is nothing doing at the loose floor houses he ought to visit the houses and see for himself. Tobacco mostly on the stalk thus far has been rolling in ever since the season began a week or ten days ago.

### Mental Training.

An educated man is a man who can do what he ought to do when he ought to do it whether he wants to do it or not.—Nicholas Murray Butler.

# IT'S FUNNY WHAT A DIFFERENCE A FEW CLOTHES MAKE

When you buy one of my hand-tailored Suits, made AT HOME, you will see the marked improvement in your appearance. You can buy SURE ENOUGH tailor made clothes at the price you are paying for the SUPPOSED-TO-BE ones.

My shoe department is up-to-date in styles and quality. I handle the celebrated J. E. French, Edwin Clapp, Johnson & Murphy in \$5.00 and \$6.00 grades. Also my \$3.00, \$3.50 and \$4.00 line guaranteed qualities, such as Packard makes. Work shoes of all kinds and at all prices.

Large and Well Selected Stock in New Styles of Ready-to-Wear Clothing, Furnishing, Etc.

SELWYN HATS, THE BEST \$3.00 HAT.
