The British steamer Mobile, and the trawler, Lily Dale, have been sunk by a German submarine, off the coast of Scotland.

The allies are making substantial headway in the Dardanelles, the land forces having captured the city of Gallipoli, on the peninsula. Conflicting reports are sent out from Constantinople.

Rodman Sherrard, twenty-nine years old, and W. Gordon Holland, thirty four were killed in Hardin county Friday, at the public crossing at Vine Grove, when an I. C. passenger train struck the auto in which they were riding.

German battleships are evidently ignoring the English blockade and are at large in the North sea. The latest report is that Dunkirk, a coast town, was shelled Friday and 20 persons killed and 45 wounded by 19 shells of large calibre fired upon the town.

More than half the city of Colon was swept by a disastrous fire Friday afternoon. Ten persons are known to be dead, including two native policemen, and several hundred persons have been injured, while between 10,000 and 12,000 others, mostly negroes, have been rendered homeless. The loss is estimated at about \$2,000,000. The fire destroyed twenty-two building blocks.

Reports received from various cities in the south indicate that practically every daily newspaper, which a year ago printed a story alleging that Mrs. Mary Craig Sinclair, wife of Upton Sinclair, the novelist, had been arrested in New York, was being sued for damages ranging from \$10,000 to \$50,000, suits being brought in the various cities on telegraphic request from Mrs. Sinclair's attorneys in Mississippi. The article complained of stated that Upton Sinclair, his wife and several other persons had been arrested in connection with a demonstration in front of the building where John D. Rockefeller had his offices. The demonstration was said to have been intended as a protest against alleged conditions in the Colorado coal strike region. The report stated however, that Mrs. Sinclair had been released.

QUESTION CLEARED UP

Hopkinsville Readers Can No Longer Doubt The Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Hopkinsville's pertinent question has always been "Has anyone here in Hopkinsville been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens whom we know and respect, and whose evidence we can so easily prove.

Mrs. J. T. Cannon, 609 O'Neal St., Hopkinsville, says: "I have given Doan's Kidney Pills to my children at various times and have always found them beneficial. Whenever one of my children is bothered with kidney weakness, a few doses of Doan's Kidney Pills relieve the attack."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cannon had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

Paying the Spled.

Louis XVIII must have been sincerely grateful for the institution of spleen. Shortly after the restoration he asked Fouché, his minister of police (who had filled the same office under Napoleon) whether he had been efficiently spled upon during his exile in England. After a considerable amount of pressing, Fouché admitted that one of the members of the royal household, the Duc de Blacas, used to furnish regular reports concerning his master's movements. "How much did you pay for his services?" inquired the king. "A fixed allowance of £8,000 a year," was the reply. "I am glad to hear you say that," said the king. "We arranged to divide his earnings as a spy, and so long as he was working for you I used to draw £4,000 a year. It is comforting to learn that he didn't cheat me."—London Chronicle.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Thousands rely on Dr. Thomas' Eclectic Oil. Your druggist sells it. 25c and 50c. Advertisement.

Destroying the Mosquito.

The way to destroy the mosquito in its larval stage is to pour a little kerosene on the surface of the pool or stream inhabited by the industrious wiggler. The oil shuts out the supply of oxygen from the water beneath. The wiggler rises tall first to the surface and tries to force his breathing tube through the thin layer of oil. He fails and promptly dies from suffocation—a suitable death for so fractious an insect.

When baby suffers with eczema or some itchy skin trouble, use Doan's Ointment. A little of it goes a long way and it is safe for children. 50c a box at all stores. Advertisement.

Wonderful Snow Figures.

The delicacy and beauty of snow figures have no parallel in the product of man or insect. The most beautiful of webs, wondrous as they are, of the strange insect called the spider bear no comparison with snow crystals. The rarest of gossamer laces, stitched by deft fingers that have inherited the art throughout generations, have no such delicate figures, though they have found inspiration in leaf and verdure and flower of rarest structure.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the family system tonic. Price, \$1.00 Advertisement.

Had His Suspicions.

A subscriber of an Atchison newspaper sent the following to the editor: "I don't know that Ben Hurley took it, but I know I have been missing wood and loaded several sticks with powder last Sunday night; and I know that Ben Hurley lives near me, and that early Monday morning he drove hurriedly to town and bought a new stove."

Constipation causes headache, indigestion, dizziness, drowsiness. For a mild, opening medicine, use Doan's Resolvent. 25c a box at all stores. Advertisement.

Mistletoe's Ravages.

Those familiar with the mistletoe only as a Christmas decoration have no idea of the great losses due to this parasite in the forests of the west, where it counts next to fire and insects in the amount of damage done.

Welcome Burden.

"A honey bee, coming home with the nectar," says John Burroughs, "will carry one-fifth of its own weight." Col. Hoviver Beasley, who is also an authority on quite a number of subjects, says a man coming home with beer will carry almost one-half his own weight, and not complain about the burden, either.—New Orleans States.

German army officers are experimenting with rubber foot pontoons to enable soldiers to walk on water, carrying heavy loads and using their rifles freely at the same time.

Contrary to general belief, China not only raises cattle in large numbers, but exports frozen beef in quantities which have now assumed a commercial magnitude of such size that world-wide possibilities may be expected in time to come. Upward of 200,000 cowhides are annually exported from Shantung.

NOVEL SUICIDE

Connecticut Man Makes His Best Girl Shoot Him.

Bridgeport, Conn., April 30.—Arthur Hearn Cowl, of New York, a grandson of James A. Hearn, dry goods merchant, died in a local hospital from a bullet wound in his head. According to the story told to the police by his supposed fiancée, Miss Emily Waeeler, she played an innocent part in his death.

He gave her an engagement ring, but before she could say anything he handed her the end of a ribbon. The other end of the ribbon was attached to the trigger of a revolver which Cowl had concealed under his coat. Miss Wheeler asked what the ribbon was for and Cowl replied that it was "a surprise." At his urgent request she pulled the ribbon, which caused the revolver to explode and the bullet crashed into Cowl's brain.

The attacks, it would appear, have not been confined to Kurds, but have been made, in at least one instance, by Turkish soldiers. Proving Big Job.

The work which has been carried on for several weeks in an attempt to raise the submarine F-4 from the bottom of the ocean has practically all been undone by the rough weather of the last two days at Honolulu. Only one cable is left holding to the hulk. The scows used in the raising operations have been anchored to prevent them from drifting out to sea. On account of weather conditions lifting operations are impossible.

Liv-Ver-Lax tones up the system, stimulates the Liver to work in harmony with the other organs. Guaranteed to give satisfaction.

Has Had Many Rulers.

The name Roumania comes down from the days of Roman rule, the country previous to that being overrun by semi-nomadic Getae and Dacians. Its vicissitudes, transformations, malformations and reformations have been innumerable, being ruled by this and that exploiting nation, and it only reached its present independence after the Russo-Turk war of 1877, and with the settlement for that time of the "Eastern question" by the congress of Berlin in 1878, Roumania became an area and impulses the little kingdom of today.

No Use Wasting Money.

The charitable lady was treating a pensioner to a set of false teeth. The pensioner picked out the cheapest set offered. "Don't you think it would be well to select better teeth while you are about it?" asked the lady. "I am perfectly willing to pay a little more and get good ones." "Oh, ma'am," lisped the pensioner. "What's the uths of putting any more money into something that my husband will only knock down my throat the first time he geth real mad?"

Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom. Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

The Lesson of the Past

This master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades; through the Renaissance up to contemporary history, which Prof. Duruy completes in brilliant manner. In the story of the past he tells the secrets of today. And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news reports. Your ability to comprehend conditions, and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos—and the Review of Reviews will do it for you.
