**Cut This Out.**  
Each year come many questions re-  
garding the care and culture of sweet  
peas, but for terseness nothing could  
surpass the brief statement made by  
a very successful grower in England  
"Trench deeply, manure liberally,  
plant thinly, stake quickly, water early  
and dispo promptly."

**CASTORIA**

poultry farms, suburban homes and  
city properties.  
We exchange properties at their  
fair valuation. Office now in Hop-  
per Bldg., up stairs, in front of Court  
House. Phone 38-1.

**LIGHT VISIBLE FOR MILES**  
Mounted on Pike's Peak, it illuminates  
the Country for a Consider-  
able Distance.  
The venerable head of that most  
famous mountain, Pike's peak, has  
been given an enormous eye. In  
Denver, 75 miles away, this eye can  
be seen flashing to and fro on clear  
nights, and in Colorado Springs 15  
miles away, the "company" on the  
front porch is likely to be shown up  
in a bright light at any moment by  
the eye's railway's new searchlight.  
The giant light is 14,172 feet  
above sea level, and is capable of  
flashing signals over most of central  
Colorado. It has been placed on a  
platform 25 feet above the summit  
house. Current is supplied by the  
turbines that convert the power of  
the peak streams into electricity. The  
searchlight is attached to a sema-  
phore that the operator moves at  
will, searching out the dark beauty  
spots throughout the region or touch-  
ing upon sections of Colorado  
Springs, or even Denver and Pueblo,  
when the great banks of cloud do not  
blanket the cities far below.—Tech-  
nical World Magazine.

**LEGITIMATE**  
Client—Thought you left word in  
your office that you were out on im-  
portant legal business?  
Counselor—Just so. This game  
seems to be highly important, and I  
assure you it is perfectly legal.

**NO BITES.**  
"See here. No fishing is allowed  
in this lake."  
"I'm not fishing," answered the  
unperturbed angler.  
"What do you call yourself doing,  
then?"  
"I'm merely engaged in the phil-  
osophic contemplation of a cork on  
the water."

**UNWELCOME PUBLICITY.**  
"A politician has to keep his wits  
about him," remarked the observant  
man.  
"No doubt about that," said the  
astute campaign manager. "Just  
when he thinks he has his past safe  
under lock and key, he finds it start-  
ling him in the face from one of the  
opposition papers."

**DIFFICULT TASK.**  
"What's Professor Diggs doing  
these days?"  
"He's trying to decipher a Baby-  
lonian tablet."  
"Any results so far?"  
"Yes. Mrs. Diggs has nervous  
prostration and the children have  
been sent to the home of a relative."

**TRUE ENTHUSIAST.**  
"Does your motor car give you  
much trouble?"  
"Trouble?" exclaimed Mr. Chap-  
man, enthusiastically. "I should say  
so! Why, remembering that one who  
is out of order is about the only  
thing I can't get out of life."

**TWO-DAFE EGGS.**  
"The Bachelor—When a woman  
flubs will—may be.  
"The Beneficent—Yes, and when she  
flubs she won't—perhaps."

**IN MODERATION.**  
"Nan—Did Clarence make a hit  
with you?  
"Pat—Well, I'd rather call it a  
whiff—Judge."

**DIFFERENT MATTER OF COST.**  
"Do you want your wife to vote?"  
"Assuredly. Only I hope she won't  
vote on the masculine system of  
staying a bit on the election."

**WHAT YOU'D EXPECT.**  
"What act follows this tramp  
comedian?"  
"Why—er—let me see the pro-  
gram. Here it is. A troop of dogs."

**Mrs. John Drew Better.**  
McLeansboro, Ill.—"About five  
years ago," says Mrs. John L. Drew,  
of this place, "I was afflicted with  
pains and irregularity every month.  
I suffered continually, was weak and  
despondent, and unable to do my  
housework. I took Cardui, and in  
one month, I felt like a new woman  
and worked hard all summer. I am  
now in perfect health, and recom-  
mend Cardui to all suffering wom-  
en." Every day, during the past  
50 years, Cardui has been steadily  
forging ahead as a result of its  
proven value in female troubles. It  
relieves headache, backache, wo-  
manly misery and puts fresh  
strength into weary bodies. Try it.

**HOUSECLEANING FOR COWS**

Barn Should Be Thoroughly and Systematically Cleaned Before Extreme Cold Weather.

By G. W. GERHARD, Dairy and Animal Husbandry Division, Minnesota Experiment Station.  
Before the dairy cow is taken from the pasture, the barn should be thoroughly and systematically cleaned. All cobwebs should be brushed down and the walls and ceiling should be white-washed or painted some light color. Either whitewash or paint will give a clean surface and make the whole stable look lighter and brighter. It might be well, too, to put in a few extra windows.  
The dairy cow has had the freedom of the pasture and the fresh air of the field for the last five months; she has practically maintained herself and produced milk upon succulent feed; she will soon be returned to the barn where she will spend the greater part of each day. It should be the aim of every keeper to see to it that his cows are housed as comfortably as possible and provided with a goodly quantity and variety of palatable feed that will nourish them abundantly and help them produce an even flow of milk.  
The right kind of a cow will repay with interest every cent invested for her comfort—for warmth, light, ventilation and feed. If she is not comfortably housed her returns will be cut down in proportion to her discomfort.

**Chicks Intended for Fattening.**  
After the chicks have developed sufficiently to weigh a pound or more they should be kept on a growing ration with plenty of exercise. Those intended for fattening should be separated from the ones selected for breeding at an early age. Two weeks before marketing they should be confined in small quarters and fattened.

**Development of Draft Colts.**  
Develop draft foals from birth to maturity with plenty of good feed, lots of exercise and by proper care. Good breeding gives possibilities which good feeding and care develop.

**Unusual Offer To Our Readers.**

For a limited time, and subject to withdrawal after 30 days, the well known publishing house of the J. B. Lippincott Company, Philadelphia, founded in 1792, offers to the readers of this paper a 12 months' subscription to "Lippincott's Magazine" and a year's subscription to the Kentuckian, both for \$3.00. This is the price of a twelve months' subscription to "Lippincott's" alone. Additional to obtaining every issue of this paper for a year, our readers will receive in "Lippincott's," 12 great complete novels by popular authors, 105 short stories, crisp, entertaining, original 45 timely articles from the pens of masters, and each month some excellent poems with the right sentiment, and "Walnuts and Wine," the most popular humor section in America. To obtain this extraordinary offer prompt action is necessary. Write to J. B. Lippincott Company, Washington Square, Phila., Pa.

**Good Humor at the Table.**  
If you would thoroughly enjoy your food, be good humored. An angry man doesn't know whether he is eating bottled cabbage or stewed umbrellas.

**Children Cry for Fletcher's**  
**CASTORIA**

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

**The One Stove That Heats The Whole House!**

Moore's Air Tight Heater is the only heater which will heat your entire house—upstairs and down.  
It heats like a furnace—by circulation instead of radiation. It acts all the air in circulation throughout the entire space you wish to heat, and heats the air in the farthest room to the same temperature as the air in the room as the stove. It keeps the floors as warm as a furnace could keep them.

**Moore's Air-Tight Heater**

The Egg Shape, Dome and Hot Air Firepot contains all the gas and all the carbon there is in the coal, thus overcoming the smoke and soot nuisance and at the same time saving fuel.  
The Air Tight Draft Control gives you perfect control of the stove and enables you to hold a fire from 24 to 48 hours.

Costs Less Than 1-2 as Much to Run!

Moore's Air Tight Heater burns hard coal or the cheapest kind of slack, and can be run at even less than half the cost of any other heater. Some of these heaters will replace two or even three others and give better results than all combined. All parts are surface ground, fit together air tight and mounted with asbestos wicking, which expands and contracts with the heat so that the stove is perfectly air tight under all conditions.  
All malleable parts are of the very highest quality through a process known only to the House of Moore.

One polishing keeps it like new for a whole year.  
Stop in at our store and let us explain the advantages of the One Moore's Heating and many other features we haven't room here to tell you about. Remember, it costs nothing to investigate.
