BOND ELECTION

Vote Yes and Have Good Roads.
Election March, 18, 1916.

COMMISSIONERS.

J. P. Myers, Fairview.
Ben F. Wood, Gracey.
Oscar E. Layne, Pembroke.
Howard Brame, Longview.
W. C. Binn, Pee Dee.
Dr. W. W. Durham, Era.
D. T. Cranor, Crofton.
Waller Martin, Carl.

The Bond Issue is for \$400,000. The Commissioners and the Fiscal Court are both pledged to divide the funds equally between the sections of the county, north and south of the Fairview and Princeton roads. Of the total sum the State pays \$200,000, Hopkinsville and corporations \$100,000 and the county tax payers \$100,000. The interest payments will be in the same relative proportions. All new roads to be built under supervision of government engineers. Present mileage improved roads:

Table with 2 columns: Name, Miles. Includes South Christian section with entries like Nashville, Tobacco, Bradshaw, etc.

NORTH CHRISTIAN.

Table with 2 columns: Name, Miles. Includes Princeton, Buttermilk, Madisonville, etc.

Pans are said to be on foot to pass a fair redistricting bill that will be acceptable in the main to both parties. It should be borne in mind that Christian county is entitled to two representatives if Warren has two, with 8,000 less population.

Five school girls in Manchester, N. H., were caught shop-lifting and several hundred dollars of stolen goods recovered. The oldest of the girls was 15 years old. They concealed the articles in their hand-bags, the girls working in pairs.

With nothing worse than a new police force to interfere with them, all the thugs and thieves in the country seem to be flocking to Paducah, which is rapidly acquiring the reputation of being a badly governed town.

Gen. Joffre, the French commander, says after the war he expects to go into complete retirement, where he will never be seen. Must have his eye on a job in a store that doesn't advertise.

The war has claimed as a victim Naval Lieutenant Harold C. Tennyson, a grandson of the poet.

FOOD WORTH MUCH STUDY

No Other Problem Can More Worthily Engage the Attention of the Mother on the Farm.

What could be a woman's problem on the farm that was not a woman's eternal problem everywhere and anywhere? Home economics or the selection, use and preparation of food, clothing, shelter and household management, and how can this problem, or any other problem, for that matter, be solved except through study or education? And yet so little has been thought of the home problems that more money is spent year by year for teaching the men how to fatten a steer or pig than to teach a mother how to care for her babe or feed her superior animals—the men of the family, writes M. E. Barrett of the Texas experiment station. Visit any farm you please and you will be shown the fine pigs and calves, goats or sheep, but never a word of the baby or its nursery. I've even seen kindergartens for colts to train them in their stunts, but never a home garden for the children.

I believe you will all agree with me that food is the first problem. To load your table down with vegetables and meats is not treating your child as your husband treats his pig baby. He is carefully balancing the rations for the pig for growth, and that of the horse for energy, and that of the cow for milk. Neither is he working all day long on the three meals a day for his animal family. Now here is where education comes in again, to cut down the work of those three meals in quantity and make it count in quality, to take less time and more thought. Try a fireless cooker. Get a bulletin on balanced rations and menus from the university. Then, in the cool of the afternoon, prepare your vegetables and meats for next day; at breakfast bring them to a boil and put in the hot rock and close up the dinner. This will save you from one to two hours on dinner which can be spent in further study on the subject of food values.

PICKLED APPLES FOR WINTER

Delicacy That Will Be Appreciated in Cold Weather When Most Fruits Are Scarce.

Peel, core and quarter some sharp apples, throwing them into a brine made by boiling six ounces of salt for one minute in a quart of water, flavor being improved by a few slices of mild onion, and color by fresh vine or fig leaves. Leave then closely covered for 24 hours, then, having drained and carefully wiped the fruit and put it into an unglazed stoneware jar, pour over it a pickle composed of vinegar brought nearly to the boil, with some allspice, black pepper and either horse-radish or whole ginger, or both, in the proportion of one ounce each to the quart, the addition of half a dozen cloves, a couple of bay leaves, a blade of mace and two or three shallots or a little garlic if liked. Stand, covered first, with vine or fig leaves, then with a plate, for 24 hours in a corner by the fire, drain off the liquor, reheat it, pour again over the fruit, screened with fresh leaves, and tie down.

Meat Souffles.

Meat of excellent flavor is needed for meat souffles. Chicken and ham are favorites. They should be chopped fine and then pounded smooth. Unless smooth and fine they will not mix with the egg thoroughly. White sauce, stirred into yolks, meat added, and nice seasonings, then the whites folded in is the order of procedure. An even tablespoonful of meat is about all one egg will hold up unless an expert handles the material.

Creamed Fish With Potato.

Mash and season potatoes and line bottom and sides of dish about one and one-half inches thick. Make a white sauce, add boiled salt fish broken in pieces and put the whole in the potato nest. Cover top with the potato and put pieces of butter on top. Make two slits with knife and bake until potato is nicely browned. In place of fish cold meat mixed with gravy may be used.

Cauliflower Salad.

Trim and boil one firm head of fresh cauliflower in fresh water until tender, but do not allow it to boil soft. Remove from the fire and drain. When cold slice thinly then allow to marinate one hour in highly seasoned French dressing. When ready to serve drain and lay on fresh lettuce leaves, sprinkle with finely chopped walnut meats and red pepper. Place a heaping tablespoonful of mayonnaise on top of each portion.

Grape Gelatin.

Use your favorite jello or gelatin recipe with peeled and seeded California grapes. Use with or without other fruits. Delightful with grapes alone. This is not only a delicious, but a beautiful dish to serve during "grape season."

Avoid Vegetable Burning.

If you will place a pie plate upside down in the kettle you will avoid all burning of the potatoes or other vegetable, if you should happen to forget them and the water boil dry. Your vegetables will be on top of the pie plate and not scorched in the least.

New Flavoring.

Several tablespoonfuls of peanut butter creamed with the shortening are recommended for giving a novel and delicious flavor to cookies or any dark cake.

Could Not Write.

Versailles, Ky.—Mrs. Eliza Green, of this place, says: "I could not write all the different pains I had, when I first tried Cardui. I could scarcely walk. Now I am able to run the sewing machine and do my work; and my neighbors tell me the medicine must be good, for I look so much better." Cardui is a specific, pain relieving, tonic remedy, for women. In the past 50 years, it has been found to relieve women's unnecessary pains, and female misery, for which over a million suffering women have successfully used it. Try Cardui for your troubles. It will help you. At the nearest drug store.—Advertisement.

Preferred Locals

See J. H. Dagg for contracting building and general repair work of all kinds. Phone 476. Advertisement.

BRINGS RELIEF FROM PAIN

Exposure of Wound to Rays of Incandescent Electric Bulb Has Splendid Effect.

An interesting use of a household appliance has just been given to the medical profession. By exposing a wound to the rays of an ordinary incandescent electric bulb several times a day, to a total of eight or nine hours, the Current Medical Literature says, Doctor Schottelius has obtained some interesting results.

The immediate local effect, he says, was as striking as the general effect from day to day later. All of the pa-

tients told of relief from pain from it. Paper and a sheet are thrown over the whole, and the temperature of the enclosed space grows high, but he ascribes the benefit to the light rather than to the heat. The bulbs used were of 30, 50 and 100 candlepower.

PLANTS INVIGORATED BY TEA

Discovery, It is Believed, Will Be of Considerable Value to the Horticulturist.

A new discovery in horticulture claims to make potted plants bloom as they never did before if they are given an invigorating cup of tea once a day. Lewis Shaw, Jr., the inventor, says:

"Twice a day, morning and evening, I give my geranium a drink of cold tea, from one-fourth to one-half a cup per plant. While at first this was only an experiment, I was surprised to find how rapidly the plants bloomed and how many of the buds took bloom at once. In the photograph it will be seen that five blooms are flourishing, while there are yet three more buds, not clearly shown in the picture, on the way."

Prices Easier for Poor.

Pity the poor millionaires! exclaims "Girard" in the Philadelphia Ledger. For the frugal wife, five cents now buys as big a loaf as it did two years ago; but \$1,000 doesn't buy as big a blue foxskin coat; no, not by half.

The boiled potatoes on the modest dinner table are rather cheaper than they were last winter; but when the poor millionaires are driven by necessity to buy white fox furs, hubby advances 65 per cent more money for them than he would have done at this time in 1913.

Beaver, another essential to plutocratic happiness, has risen much more than sugar or lamb chops. Indeed, Uncle Sam tells us that the whole fur family is roosting on a higher limb than ever before.

Luxuries rise and fall rapidly with the amount of loose change in millionaire bank accounts; but so far as prices go, the poor man's dinner pail can scarcely tell a financial feast from a financial famine.

Life in the Soil.

Professor Bottomley, who has discovered that ordinary peat treated with bacteria forms a substitute for manure which is 50 times more valuable, has shown that soil lives just as do the plants that are born out of it. There are 4,000,000 bacteria in every grain of fertile soil, and by separating the good from the bad, modern science is working to secure the very highest results intended by bountiful nature.

Identified.

Binks—Shafer, do you know that woman across the street? Shafer—She certainly looks familiar. Let me see. It's my wife's new dress, my daughter's hat and my mother-in-law's parasol—sure! It's our cook!—Macon News.

Light and Airy.

Omar—What kind of business is Johnson engaged in? Helny—Pneumatic, I think. Omar—Pneumatic! Why, I never heard of a business like that. Helny—Well, whatever it is, he's running it on wind.

Easter Dates.

Next Easter will fall on April 23 Only once again in this century will it be so late, 1943, when the date will be April 25 the latest that is possible.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so a price.

There never has been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world-shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The Presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian together one year for \$2.65. The regular subscription price of the two papers is \$3.00.

KNOW ONLY THE ROMANCE

Writers Who Dote on "Flashing Sabers" Have Never Seen the Stern Realities of War.

How many people who talk or write about war would have the courage to face a minute, fractional part of the reality underlying war's inherited romance? questions Arthur Ruhl in Collier's Weekly.

People speak with pleasant excitement of "flashing sabers" without the remotest thought of what flashing sabers do. A saber does not stop in midair with its flashing, where a Meissonier or a Detaille would paint it—it goes right on through the cords and veins of a man's neck. Saber wounds are not very common, but there was one in the Vienna hospital that morning—a V-shaped trench in which you could have laid four fingers flat, down through the hair and into the back of the man's neck so close to the big blood vessel that you could see it beat under its film of tissue, the only thing between him and death.

I thought of it a day or two later when I was reading a book about the Austrian army officer's life, written by an English lady, and came across the phrase, "Sharpen sabers!" was the joyful cry.

"HAILED IN" TWO PERSONS.

"For saving two persons from drowning, a Girl Guide, Joyce Buckley Yeoman, aged thirteen, of Prestwich, has received the bronze medal of the British Royal Humane society.

"While bathing at Llanfairfechan she saw a man and girl in difficulties. In correct life-saving fashion she took the man by the head and, with the girl clinging to the man's arm, she brought them safely to shore.

"She then dashed off to breakfast. Questioned as to why she was late, she said, 'Oh, I've just been hauling in two people.'"

WHAT'S HE AFRAID OF?

"Although Chugson has had a car for almost six months, he still seems to think a pedestrian has some rights."

"How do you account for that attitude?"

"It's very peculiar. It certainly shows a woeful lack of self-confidence."

COULD HARDLY BE THE LATTER.

"How are you today?"

"My doctor was so cheerful that I can't tell."

"How's that?"

"I cannot tell if he is cheerful at the thought of an operation, or cheerful in the belief that I won't need one."

FITTING THEME.

"What's on the carpet at the club tonight?"

"Something that is going to floor you."

AIN'T THIS FIERCE?

Hix—What are you doing now?

Dix—Selling lime to contractors.

Hix—How do you find business?

Dix—Slack.
