HORSES PIGS and CATTLE

GET BEEF FROM DAIRY STOCK

Discrimination in Color in Purchasing
Meat Animals—Case of Red-
and-White Holstein.

Of course all cattle can be divided
into two great classes—those of the
dairy type and those of the beef type.
In some cases members of the beef
type have large milking capacities.
These we call general or dual-purpose
animals.

But all cattle may be used for beef.
In fact, it is said that some of the
strictly dairy types furnish a splen-
did quality of meat. The reason why

Dual-Purpose Shorthorn.

dairy cattle are discriminated against
for beef purposes is that the percent-
age of offal as compared to that of
meat is so great that they are unprofit-
able as beef animals.

In the West recently a lot of steers
were sold, some of them Shorthorns
and others Holsteins. The Shorthorn
steers sold for a little higher price
than the Holsteins, with the exception
of one. Now and then a purebred Hol-
stein is born that is red and white, and
in this lot there was one such steer.
This animal sold for as much as the
Shorthorns. This indicates that there
is a discrimination in color in purchas-
ing beef animals. If all the Holsteins
had been red and white, they would
have sold undoubtedly for as much in
the market as the Shorthorns.

GIVE SHEEP SOME ATTENTION

Lambs Must Be Well Cared for in
Order to Make Best Growth Be-
fore Marketing in Fall.

Many sheep owners have a tendency
to let the sheep take care of them-
selves after shearing time has passed,
and there are so many other duties
demanding attention.

Where there are young lambs they
should be well cared for in order to
make the best growth possible before
marketing in the fall. They are hard
to get in shape to sell when they have
been forced to look out for themselves.

ting and to be used on the right also.

The knife may be made of a piece
of crosscut saw or scythe blade. The

age may be cut any length.—Southern

GOOD STOCK IS ON INCREASE

Farmers Begin to Realize Value of
Purebred Stallion—Grade Ani-
mals Are Decreasing.

That the farmers are realizing the
value of the purebred stallion is shown
by the fact that the number of such
horses registered has increased more
than 50 per cent since 1915 and that
the number of grade stallions regis-
tered has decreased more than 15 per
cent in the same time.

THE TRICE-A-WEEK EDITION OF THE NEW YORK WORLD

IN 1917

Practically a Daily at the Price of
a Weekly. No other Newspaper
in the world gives so much at so
low a price.

The value and need of a newspaper
in the household was never greater
than at the present time. The great
war in Europe is now half way into
its third year, and, whether peace be
at hand or yet be far off, it and the
events to follow it are sure to be of
absorbing interest for many a month
to come.

These are world-shaking affairs, in
which the United States, willing or
unwilling, is compelled to take a part.
No intelligent person can ignore such
issues.

THE TRICE-A-WEEK WORLD'S
regular subscription price is \$1.00
per year, and this pays for 156
papers. We offer this unequalled
newspaper and the

YALE'S GREAT ORGAN.

With the completion of the New-
berry organ in Woolsey hall, Yale
will have the third largest organ in
the world.

The original organ, built in 1903,
has been entirely reconstructed and
enlarged, and has 163 stops. The
only two organs having more stops
are two in Europe, one in Liverpool
and one in Breslau. The new organ
will have cost \$50,000 when com-
pleted, the money having been given
by members of the Newberry family.

J. W. Steere & Son are the build-
ers of the organ. One of its features
is an arrangement of numbered pis-
tons, each one being a combination
previously prepared by the organist.
These pistons are prepared at a
switchboard, and when wanted are
simply pulled out. Another feature
of the organ is a row of electric indi-
cator lamps, which show at a glance
what is in operation.
