Approximately five hundred millions have been added to the levy on war profits under the change in the revenue bill made by the senate committee. These changes make a total levy of over one billion. It has been decided to recommend an amendment to take sixty per cent of all profits exceeding three hundred per cent. This will hit some war babies to the extent of many millions. Other rates are expected to remain unchanged.

WORK NEARING COMPLETION

New Shelving Is Being Installed In Clerks Offices.

M. H. Meacham, the contractor, is now completing his work on the new vaults for the circuit court and county clerk, by installing the new steel equipment, consisting of roller book shelves, document files, tables and open shelving. With the new vaults and this modern equipment the court house here is provided with the very latest and safest depository for its valuable records. There was a full car load of the steel equipment and the work of placing it has been under way several days. The steel was furnished by the Art Metal Construction company. The books have been piled in the outer room during the progress of the work.

Five witnesses testified they had been promised exemptions from military service by Taylor if they voted in the August primaries as dictated by him. Taylor gave the required bond. The examining trial of County Judge J. W. Edwards charged with being in conspiracy with Taylor, was postponed until September 8. He was released under \$5,000 bond.

Hundreds of officers for the new national army stood in a driving rain-storm Wednesday waiting to register at Camp Taylor and be assigned to their companies.

Only three claims to exemption from military service have been granted of the first 89 considered by District Exemption Board No. 1, Western Judicial District of Kentucky.

14-OZ. LOAF FOR A NICKEL

Wilson Pledges Food Act's Powers Shall be Exercised to Guard the Public.

FIGURE WAS COMPROMISE

Farmers' Wanted \$2.50 and Labor Committeemen Voted For \$1.84 a Bushel.

Washington, Aug. 31.—A price of \$2.20 a bushel was fixed for the 1917 crop of wheat by President Wilson on the recommendation of the wheat price committee, headed by Dr. H. A. Garfield. The basis will be No. 1 northern spring wheat, delivered at Chicago.

Representatives of the producers began by voting for a price of \$2.50 and labor's representatives for a price of \$1.84.

The price fixed is 20 cents higher than that named for the 1918 crop by congress in the food control bill. The \$2 price set by congress was taken into consideration by the committee in considering a fair valuation for this year's crop.

14 OZ. LOAF FOR FIVE CENTS.

All members agreed in their discussion that the price fixed will permit of a fourteen-ounce loaf of bread for five cents, allowing a fair profit both to the flour manufacturer and to the baker. The price differentials worked out by the food administration are: No. 1 dark hard winter, \$2.24; hard winter basic, \$2.20; winter basic, \$2.20; yellow hard winter, \$2.16; soft red winter, \$2.18; dark northern spring, \$2.24; red spring, \$2.18; hump back, \$2.10; amber durum, \$2.24; durum basic, \$2.20; red durum, \$2.13; red Walla, \$2.13; hard white basic, \$2.20; soft white, \$2.18; white club, \$2.16. No. 2 of each grade is three cents less; No. 3, six cents less; No. 4, ten cents less.

Relative market basis: Chicago, Galveston, New Orleans, basic; Kansas City and Omaha, five cents less than basic; Duluth and Minneapolis, three cents less; St. Louis two cents less; New York ten cents more than basic; Baltimore and Philadelphia, nine cents more; Buffalo five cents more.

The basic grades are No. 1 hard winter, red winter and northern spring.

Members of the committee said they expected a great deal of criticism from the farming classes but they felt that every farmer should consider himself a part of the war machinery of the government and willingly relinquish a part of his profits in the interests of the common good.

FLOUR PROFIT.

Chicago, Ill., Aug. 31.—J. F. Bett, chairman of the United States Millers' committee, issued the regulations governing the profits of the millers in accordance with the agreement made with Food Administrator Hoover by the millers' committee, organized last week.

A profit of 25 cents a barrel on flour and fifty cents a ton on feed are to become effective Sept. 1.

Pembroke's New Pastor.

Rev. O. C. Peyton, the new pastor of the Baptist church at Pembroke, who accepted some time ago, will preach his first sermon tomorrow. He comes from Erin, Tenn.

Police Court.

With the fair in progress and the extra amount of traffic, the local police force has been pushed to the extreme to keep everything running in order.

The particular trouble has been with drunks and in almost every case these have been some wayward citizen of Tennessee. Judge Wood said that this week at least he wished there was some "wet" town between here and Tennessee.

RUSH PATRIOTS INTO THE GAPS

Republicans, Spite of New Mutiny, Repulsing Attacks West of Fokshani.

COWARDS ARE DISPERSED

White Feather Regiment Probably Executed by "Blood and Iron" Ruling.

While the Russians west of Fokshani again have deserted their posts, thereby permitting the Germanic allies to make further gains in the regions of Cona and Kesedi-Vasarhely, they are giving battle to the invaders and on both sectors, having repulsed strong attacks. Between Ireshiti and Fokshani a majority of the men comprising two Russian regiments deserted their trenches and fled, but the Russian commanders have taken steps to restore the former state of the line by filling the gaps with loyal men.

Following the reports of fresh disaffection among the Russians on the east Bukovina front, which came prior to the commencement of the backward movement in southern Moldavia, Premier Kerensky, in a speech at the closing session of the Moscow conference, let it be known again that order was to be brought out of the chaos by putting to death of cowards who threw down their arms in the face of the enemy. The possibility that the "rule of blood and iron" already has begun with the deserters before Fokshani is indicated in the latest Russian official communication which says that one of the cowardly regiments was "dispersed."

As is usual when the Germans see a faltering among their foes, they have thrown into the battle line in Moldavia some of their tried attacking troops who doubtless will press to the full the advantage they have gained there through the cowardice of the Russians.

On the Bainsizza plateau of the Austro-Italian theater, General Cadorna is giving the Austrians no rest, keeping up his intensive attacks along the entire front. New gains of considerable importance in the general scheme of the Italian commander's offensive have been made and at several points where the Austrians have striven to hold back the Italians or to recapture lost positions, they have been repulsed. More than 500 prisoners have been taken by the Italians.

On the front in France and Belgium no important engagements have taken place, although on the various sectors held by the British and French artillery duels are being fought and small operations by infantry are taking place.

SUIT FILED FOR \$15,000

Administrator of Henry Moore Col., Prays Damage In Above Sum.

The Kentucky Public Service Company is made defendant in a \$15,000 damage suit filed by John W. Moore, administrator of Henry Moore col. Henry Moore was killed a days ago, when, it is alleged, he received a heavy charge of electricity by leaning against a pole on First Railroad streets. In the petition alleged that the light company responsible for the negro's death that they did not have their wires or other equipment properly fixed for the safety of the public.
