

## KILLED

### And Mutilated With Machetes.

#### Fate of Four Marines at Guantanamo Camp.

Washington, June 14.—(Special.)—Secretary of the Navy Long this morning received the following dispatch:

Mole St. Nicholas, June 13: Lieut. Blue has just returned after a detour of seventy miles to observe the fleets at Santiago harbor, and reports the Spanish fleet all there.

The Spanish vigorously attacked the American camp at Guantanamo and four marines were killed and their bodies mutilated barbarously by machetes, the features being hardly recognized. The killed were:

John Blair Gibbs, assistant surgeon, New York.

Charles H. Smith, sergeant, Smallwood.

William Dunphy, private, Gloucester, Mass.

James M'Colgan, private, Stoneham, Mass.

Three others were wounded as follows:

Bartholomew McGowan, private, hand shattered.

Corporal Glass, head wounds.

Cuban Pilot, leg wound.

When the news got around of the terrible mutilation of the bodies, particularly of McColgan and Dunphy, who were of Capt. Spicer's company, there was a howl of rage, and the men declared that a dozen Spanish lives would pay for each wound that had been inflicted on their comrades.

#### Winslow Badly Done Up In The Scrap at Cardenas.

Key West, June 14.—(Special.)—The torpedo boat Winslow, which narrowly escaped destruction by Spanish guns at Cardenas when Lieut. Bagley and others were killed, was sent here for repairs, after being rescued and towed out of range of the guns that had disabled her. The boat was patched up and given a trial to-day, but broke down and will probably have to be sent to Norfolk to undergo general repairs before being fit for service again.

#### BAPTISTS COMING.

The General Association Begins This Week.

Will Be Preceded By the Ministers' Meeting to Be Held on Thursday.

Before the end of this week there will be four hundred strangers in the city, a large proportion of them ministers of the gospel.

The Baptist General Association will meet on the 18th, but the meeting will really begin two days before with the Ministers' and Members' meeting, a separate body, but made up of the same delegates.

The General Association is a state body and the highest authority of the Baptist church in the state. As a body it is one of the ablest in the South of any of the religious denominations. A great many men of wide reputation will be present and the session is expected to be the most interesting one held for years. Of course a great deal of routine business pertaining to the denomination will come up and some questions of general interest.

Foremost among these will be the Whitsitt matter. Last year at Georgetown the Association had this question up and adopted a resolution urging the trustees from Kentucky to use their influence to secure the removal of Dr. Whitsitt from the head of the Southern Baptist Seminary, the denomination school for the education of ministers in the South, for placing himself on record in an article prepared for an encyclopedia against the position held by Baptists in regard to Baptists historically considered.

Dr. Whitsitt still holds on and will be here in person to resist further efforts to separate him from the handsome salary he receives.

Dr. Whitsitt has been assigned for entertainment to E. M. Flack, Dr. T. T. Eaton, of Louisville, and Rev. Fred D. Hale, of Owensboro, two of the most prominent men of the state, will stop at the College. Dr. Harrison will entertain in all twenty-five delegates.

Dr. J. N. Hall, one of the anti-Whitsitt leaders, and editor of the Baptist Flag, will stop at H. H. Abernathy's.

Rev. J. T. Christian, of Louisville, who led the fight against Dr. Whitsitt last year, will be on hand again.

Rev. Carter Helm Jones and C. M. Thompson, of Louisville, Dr. J. M. Frost, Editor E. L. Folk, of the Baptist and Reflector, and Revs. A. J. Ramsey and W. C. Golden, of Nashville, will be among the notables present.

Miss Mary Hollingsworth, prominent in the Woman's Work, and Miss Broadus, who is at the head of the Orphans' Home, are also coming.

The session will be held at the Baptist church and the Association will not adjourn until the middle of next week.

#### A FRENCH DUEL.

Editor Furot Gets the Worst of It In Three Rounds.

Paris, June 14.—(Special.)—Count Castellane this morning fought a duel with Editor Furot. Three rounds were fought with swords, Furot being wounded in each round. One wound was severe and ended the duel.

#### Charged With Larceny.

Mr. R. L. Moore, Town Marshal of Pembroke, arrested Will Leavell, col., yesterday afternoon on a warrant charging larceny. The negro was brought here and placed in jail to await the action of the grand jury. It is alleged that Leavell stole a coat from another negro, who had hung the garment on a clothes line to give it an airing.

#### LEITER ATTACHED.

The Young Plunger's Troubles Not Over.

A New York Firm After Him For the Big Debt of \$800,000.

New York, June 14.—(Special.)—An attachment was to-day granted for \$793,925 against Joseph Leiter, by Judge Dale, of the Supreme Court, in favor of Otto E. Lohrke & Co., grain brokers of New York, for money advanced between February 1st and June 13th. Copies of the attachment were served on three of the local banks where Leiter was in the habit of keeping deposits.

#### The Passing of Joe Leiter.

In the meteor-like existence lived by the average factor in that human kaleidoscope, the Chicago Board of Trade, a failure is so common as hardly to attract much notice. But Leiter's case is different. His operations so boldly original and so audaciously successful have for months kept onlookers paralyzed with astonishment, and what is more to the point has made the farmers of this country millions of money. Hence to the great agricultural interests of the United States, the passing of Mr. Leiter is freighted with unusual significance. This is accentuated by the fact that his financial demise occurs just as harvest is beginning. Three weeks ago the price of July wheat was \$1.25 per bushel. But for the battle just fought and won against Mr. Leiter, this price or even a higher one, would have obtained on July wheat until Aug. 1. Look at what this would mean to Kentucky alone, whose crop could almost all be marketed by that time.

It is estimated that her crop this year will be sixteen million bushels. July wheat is now 80 cents—just 45 cents per bushel less than three weeks ago—making a loss to Kentucky farmers alone of over seven millions of dollars by his downfall. Nobody imagines that Joe was in it just for the good of his country cousin, the farmer, but the fact remains that in him the said country cousin has lost a valued relation. In the future when the farmer gets on his annual tirade and cusses out the speculators with all the earnest eloquence known only to himself he will make a mental exception of Joe Leiter, the college bred dude, who sold to the world this country's 1897 crop of wheat at his own price.

A CONTRIBUTOR.

#### To Caucus On Hawaii.

Washington, June 14.—A caucus of the Democrats of the House will meet this afternoon immediately after adjournment to consider the question of Hawaiian annexation. A lively fight over making it a strictly party question will occur, many of the Democrats who favor annexation being opposed to taking part in the action. Those who oppose this position insist that the party can secure whatever benefit is possible from opposition to annexation without taking caucus action and emphasizing the differences that exist within the organization. A large majority of the Democrats oppose annexation, but an appreciable number advocate it.

### Castle Guns at Havana Dare Our Ships.

#### American Vessels Do Not Return the Fire.

Key West, June 14.—(Special.)—At noon yesterday the Spanish batteries in the Morro Castle fortifications opened a terrific fire upon the blockading fleet off Havana harbor, without any apparent reason. No ships were in easy range and no harm was done. Over two-hundred shots were fired, but not a vessel was touched.

It is believed Capt. Gen. Blanco is anxious to put up a fight while he is able, as his resources are fast dwindling away. The fire from the Spanish guns was not returned.
