

A STRANGE LADY.

Gives the Slip to a Lady Who Befriended Her.

Gave Her Name as Flora Wallace and Her Age Eighteen Years.

Yesterday evening a young woman in a buggy drove up to the house of Mr. Torian, just South of town on the Cox Mill road, and said she was sick, and asked to be allowed to come in and lie down for a few minutes.

Mrs. Torian granted her request and at the expiration of half an hour she said she was still so sick she would wait a while longer.

At sunset she asked to be allowed to stay all night and her horse was put up.

She said her name was Flora Wallace and that her father's name was Wm. Wallace and that he lived a few miles north of Hopkinsville.

She was well dressed and wore her dark brown hair hanging down her back. She claimed to be eighteen years of age. This morning she remarked before starting away that her mother wanted a house-keeper and when Mrs. Torian said she would like to have the place, invited her to get in the buggy with her and go home with her to see her mother about it.

Mrs. Torian did so and came to town with the pretty stranger. When they got to the postoffice Miss Wallace asked her to go in for her and inquire for her mail.

Mrs. Torian did as requested and when she returned to the street the young lady had disappeared.

OPPOSED BY JOLLY.

Doesn't Want Republicans to Recommend Election Commissioners.

The Hon. George W. Jolly, who is seeking the Republican nomination for Congress in the Second district, has addressed a letter to each of the County Chairman in his district requesting that they pay no attention to the letter of Chairman Barnett, of the State Central Committee, relative to recommending Election Commissioners for appointment by the State Election Board. Mr. Jolly contends that the Goebel law is unconstitutional, and that Republicans should not recognize it.

Chairman Barnett says he recommended the said action after consulting with members of the State Committee. He denies that the recommendation of Election Commissioners will commit the Republican party or jeopardize its standing in court.

Surgeon Takes a Bride.

Dr. O. W. Rash, of Henderson, and Miss Ella Waddill were united in marriage at the home of the bride's parents, in Madisonville Tuesday morning at 10:20 o'clock, the Rev. J. W. Story officiating, says the Henderson Journal.

Dr. Rash received orders from the War Department to report for duty at Fortress Monroe at once and as a marriage in the near future had already been settled upon, they concluded to marry and go together to Dr. Rash's post of duty. The bride is the pretty and accomplished daughter of Hon. O. Waddill, a wealthy and prominent lawyer of Madisonville. She is quite young and exceedingly popular in the highest society circle.

Henderson Wheat Crop.

Several thousand bushels of new wheat were disposed of by Henderson county farmers to local buyers yesterday. The ruling price was 72, although a considerable quantity was bought for 70.

The yield per acre is reported as highly satisfactory and even if the price goes no higher than at present an enormous amount of money will be in circulation by the sale of the present crop.—Journal.

SLAPPED SHAFTER.

Sylvester Scovell May be Sentenced to be Shot.

Will be Tried by Court Martial for Striking the American General.

Washington, July 21.—(Special.)—Gen. Shafter has not notified the War Department of the disgraceful conduct of Sylvester Scovell, the New York World correspondent, who slapped his face during the ceremonies incident to the occupation of the Governor's palace in Santiago and the raising of the United States flag over the capitulated city.

Assistant Judge Advocate Gen. Morrison says the offense is a most serious one and that it is punishable by death.

According to the reports, Scovell was arrested and is now in custody. The method of procedure is the appointment of a military court by Gen. Shafter.

According to information obtainable here Scovell attempted to make himself a part of the commission assigned to raise Old Glory at Santiago.

The guards forced him to retire. This so angered him that he pushed his way through the crowd to Gen. Shafter's side and insultingly slapped his face.

The general was ignorant of Scovell's treatment at the hands of his soldiers, and was at loss to know the cause of his conduct.

He ordered the correspondent arrested, however, and the latter is now said to be in a strongly protected guard house.

Scovell's fate rests entirely in Shafter's hands so long as he is within his jurisdiction.

The court-martial can sentence Scovell to be shot.

A FALSE ALARM.

Fire Department Ordered Out on a Wild Goose Chase.

A fire alarm was turned in at 1 o'clock to-day and after trying in vain to find out about it, the fire department set out to hunt for the fire, going in the direction from which the alarm came.

When the firemen reached the L. & N. railroad, they found that somebody had seen a dense cloud of smoke escaping from a locomotive on the track and supposing a fire was breaking out turned in the alarm from the nearest box. There was no fire.

DOG DAYS COMING.

Let the Council Begin a Warfare on Canines.

Every Day We Read of Somebody Being Bitten by a Mad Dog.

"Mr. Thomas Rowland, who was brought here from Eddyville to have the mad stone applied, is at the residence of Rev. Duncan," says a Paducah paper. "He is in a very bad condition, and one of his little fingers will have to be amputated to-day."

As will be remembered, he was attacked by a vicious dog while in the field pulling weeds. He was knocked down and terribly bitten before help could arrive, his hands, arms and face being chewed in a most horrible manner. Mr. Rowland has been a preacher for fifty-one years.

Instead of having his wounds dressed by some doctor after being bitten, he wrapped a few old dirty rags around them and came to Paducah to have the "mad stone" applied. Now there is imminent danger of blood poison, in which event he will lose his life. Had the wound on his little finger been properly dressed at the start, amputation would not have become necessary."

The affair at Eddyville calls attention to the fact that Hopkinsville has several hundred more dogs than are needed, and it is about the right time for the city council to take the canine question in hand.

Only one more meeting will be held before "dog days" and the work of killing and collaring dogs ought to be put on foot at that meeting.

Owensboro has recently thinned out the town dogs and the city has not been injured in the least by the efficient work of the official poisoner.

The town dog as a rule is a nuisance and it would be a good idea if the council would discourage the canine industry by putting the dogs under the provisions of the anti-stock law.
