

Always Use High Class STATIONERY to Create a Good Impression

The Very Latest Styles

It's an old, old saying that the people you write to often judge you by your stationery. And there is a great deal of truth in the fact that stationery can be so chosen as to reflect the best of judgment and taste. Stationery suitable for one occasion may be entirely out of place for another. Then, too, the styles in stationery change the same as styles in clothing. To be sure that your stationery is right for all purposes, always buy it here.

J. O. COOK
DRUGGIST

Our Aim IS TO GIVE THE BEST SERVICE TO BE HAD

In the Jewelry and Optical business. We do all our optical work and all our jewelry and watch repairing right here in our own shops and we are the ONLY people in Hopkinsville or Owensboro who do.

DOG'S SENSE OF DIRECTION

Trait That is Found in American Animals, as Strong as Among Those of France.

"French war dogs are not the only ones that could be taught to do great service in the world struggle," remarked H. R. Turner, a Kentuckian, discussing the marvelous feats performed by some of the dogs on the battlefields of France, at the Willard, according to the Washington Post. "The dog of America commonly called a 'cur' has instinct for such service. His sense of direction is astonishing. Some patriotic women in the West have undertaken to train dogs for Red Cross work, and they have found that the 'cur' dog is possessed of all the natural qualifications for war service. But, in my judgment, the Kentucky hunting dog is better adapted for this work than any other because of his wonderful instincts. A few years ago a sportsman of Iowa had a hunting dog bred in Kentucky. It was an unusually fine dog, and during the 'racing' season in Kentucky he sent his dog back to Kentucky to take part in the fox chasing. After the sport was over the friends to whom the animal had been sent lost him. They were much perturbed because they had promised they would see that the dog was sent safe back home to Iowa. After many days of searching, however, they sent word to the owner that the animal had disappeared. Sixty days afterward they were informed that the dog had returned to his home in Iowa."

LESS WORK IN COLD MONTHS

Interesting Facts Brought Out by Study of Efficiency in Factories and Educational Institutions.

Dr. Ellsworth Huntington of the department of geography of Yale university has called attention to the fact that there are some rather surprising results to be obtained from a study of efficiency in factories and in schools and colleges at different seasons of the year. The studies were made over a period of four years, and plotted curves show that the lowest wages are earned during January; then there is rather steady increase through February, March, April, May and the first half of June. During the latter part of June and through July and August the curve remains at a lower level than in early June, but much higher than during the winter. About the end of August people begin once more to work fast, and they go on at an increasing rate until the middle of November again. It recovers somewhat in December, owing evidently in part to the rush of holiday orders, and in part to the extra incentive of the special need for money because of Christmas expenditures. Finally, at the end of that month, efficiency drops off rapidly, to remain at its lowest all during January.

SUGAR SOAP.

The discovery is announced of a method of manufacture of soap from sugar instead of from oil. In the past it has been possible to use sugar only in soaps that had little value. By the new method, it is claimed, the soap produced is not fine and delicate, but it acts as efficient in salt water as in fresh—a fact that may make the soap valuable for the navy. Articles that formerly had to be sent to chemical laundries can be washed with this new kind of soap. The finest kinds of silks, it is alleged, not only are not harmed by it, but their colors are brought out brilliantly as if new. In addition, the sugar-soap seems to be responsible for a minimum of the wear and tear occasioned by old-fashioned cleansing soaps.

GLAD TO GO.

Detective Sergeant—Have any difficulty getting "Big Ike," the strong-arm guy?

Detective—Not a bit. He thanked me for taking him. He was having an argument with his wife.

AMENITIES.

Belle—I hear the government is badly in need of camouflage artists.

Nell—It is a wonder you have not been snatched up with that complexion, dear.

A MEAN BLAM.

"I was in the mob scene," boasted Yorick Hamm.

"I don't doubt it," responded Hamlet Felt, his rival. "And were you in the mob scene?"

KARLSRUHE SICK OF AIR RAIDS

WANTS AGREEMENT THAT ALL FIGHTING SHALL BE RESTRICTED TO THE ZONE OF HOSTILITIES.

Amsterdam, April 15.—A Karlsruhe dispatch to the Frankfurter Zeitung reports the passage of the chamber of the grand duchy of Baden there of a resolution requesting the imperial German government to endeavor to secure a general agreement for the cessation of hostile air raids on places outside the zone of military operation.

Karlsruhe, capital of the grand duchy of Baden, with a population of between 75,000 and 100,000 and situated about fifty miles from the French border, has been several times visited by allied airmen.

There was a daylight air raid by British squadrons on Karlsruhe in January during which a ton and a quarter of bombs were dropped.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poisons from the Blood and healing the diseased portions. After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists.

Origin of Dover's Powder.

"Dover's powder," an old-fashioned remedy still to be found at most druggists, is named after Captain Dover, a worthy of the seventeenth century. Captain Dover's other claim to fame is that he rescued Alexander Selkirk, the castaway of the island of Juan Fernandez, and thus was instrumental in giving "Robinson Crusoe" to the world. Captain Dover practiced medicine in an independent way—chiefly on his own men—and in this way came to concoct the powder which bears his name.

Oak First for Tables.

Oak was the wood first used in tables then walnut came into general use in the middle of the seventeenth century. An early form of table was the chair table, convenient because it served the purpose of a seat when the top was lifted and stood against the side of the room. But gradually the table took its present form and use. It became the custom to leave the board upon the trestle instead of removing both, and in time the piece of furniture was called the table.

Tender Thoughts in Will.

Sometimes there are found such tender touches as these in the will of a late town clerk of Monmouth, who died in 1915, aged seventy-two. He left to the Monmouth General hospital and dispensary, for the children's ward, in memory of his darling child Lizzie, \$500 and a framed portrait of the child, and directed the authorities to place on her grave a wreath of flowers each Palm Sunday and a wreath of holly each Christmas day.

For baby's croup, Willie's cuts and bruises, mother's sore throat, Grand ma's lameness.—Dr. Thomas' Eucletic Oil—the household remedy. 30c and 60c. Advertisement.

Helmet Styles Unchanged.

Helmet styles have not changed in centuries. There is a curious resemblance between the iron pots worn by ancient knights and those employed by the soldiers of America and Europe. Indeed, ancient and medieval armor dating back to the time of the Crusades has been imitated by the twentieth century. Some of the designs found in museums have not even been altered.
