PRESIDENT SAYS GO SLOW

(By International News Service.)

Washington, June 20.—Pending a complete investigation by the state department into the Tabriz incident, President Wilson has laid a restraining hand on Congress, in which body there is a growing demand for an immediate declaration of war against both Turkey and Bulgaria. Through Secretary Lansing, the President is said to have conveyed "vital reasons," why the government should not act in a precipitate fashion. What the reasons were was not revealed.

COMMODORE BENEDICT'S FAMOUS ESTATE USED IN "SCANDAL" PRODUCTION

An interesting note in connection with "Scandal," the new big Select production in which Constance Talmadge scores the success of her life, contained in the settings of the Vanderdyke country home, where Beatrice the spoiled daughter of the family queens it over every member of the household.

The Vanderdyke place in real life is none other than the beautiful estate of Commodore E. C. Benedict at Greenwich, Conn., which was placed at the disposal of Miss Talmadge and her director, Charles Giblyn, by Commodore Benedict himself. In fact, so interested was the well known yacht man in the picture that he also furnished his famous steam yacht, the "Isida," for a number of equally important scenes in the story.

AIR PRESSURE BURST LUNGS

TWENTY OF CREW OF U-BOAT
THAT HIT MINE DIED AS
THEY WERE CATAPUL-
LATED.

London, June 20.—Harrowing details of destruction of one of the largest and most recently constructed submarines are given in a dispatch from a neutral correspondent. The submarine was one of the last to leave Zeburg before the entrance of the harbor was blocked by British forces on April 24. The U-boat struck a mine and out of the crew of forty only two survived on reaching the surface. Some of the crew committed suicide, having lost all hope of leaving the boat alive.

The only chance of escaping was to force open the conning tower and the forward hatches and trust to the compression of air in one part of the vessel to force each man like a torpedo to the surface. The air pressure in the submarine had become so high that the great majority of the Germans could not keep their mouths closed.

The compressed air shot them to the surface and hardly had they reached the sea level when the air pressure burst their lungs and about twenty of them sunk like stones. The survivors described the yells of the men when the end came as the most horrible noise they had ever heard.

The attention of a British trawler was attracted and it hastened to the rescue. The condition of the survivors showed that their experience in the submarine had been of a dreadful character.

FEDERAL AGENTS FOLLOW HIM
TO RAINCOAT PLANT WHERE
THEY CHARGE BRIBE WAS
TAKEN.

Washington, June 19.—The trial of the government pursuit of profiteers of war contracts led to the arrest in New York of Lieut. James C. Staley, a reserve army officer on the charge of accepting money from the Truefit Raincoat Company of New York for a contract which he promised to secure. The arrest was made by the department of justice agents who had followed the officer during his inspection of the plant of a raincoat company whose proprietors acted in co-operation with the government to detect the fraud.

The secret agents arrested him immediately after he was said to have received a sum of money from Joshua Rosenthal and Louis Werner, proprietors of the plant. It was charged that he had told them he would expect more money as soon as they got the contracts which they sought for 50,000 raincoats costing nearly \$250,000.

BAKERS URGED TO COOPERATE

IN CONSERVATION OF WHEAT
AND INSTRUCTED IN USE
OF SUBSTITUTES.

The bakers of Hopkinsville were called together in a meeting last night with Food Administrators of the State Food Administration. The meeting was held in the parlor of Hotel Latham from 8:30 to 10:30 o'clock.

J. W. Burns, chief of the Bakery Division of the State Food Administration, presided and in a very plain and instructive talk made plain the duties of the bakers as patriotic citizens and gave good and sound reasons for every sacrifice the people are asked to make in the saving and conserving of all bakery products.

The American people by practicing economy and following rules laid down by Mr. Hoover, saved during the past year 129 million bushels of wheat. There is to be no let up on the use of substitutes on account of the wheat crop. The U. S. Government is arranging to amass 250 million bushels of wheat in France for the protection of our soldiers in case our transportation should be interrupted. Mr. Burns also advocated putting women in the bakeries to take the places of men and pay them men's wage and provide comforts for them. According to Mr. Burns, baking is not an ordinary business and is being elevated and known as the chemistry of baking and is a very difficult science. And because of this fact there will soon be a "bakers school" with a million dollars resource established in the county where the chemistry and science of baking will be taught.

Mr. Burns stated that Mr. Hoover has paid the American newspaper the high compliment of being the best friend of the U. S. Food Administration.

102 SELECTS GO TOMORROW

GREAT PATRIOTISM SHOWN
YESTERDAY WHEN COLORED
MEN MEET AT TABERNACLE.

When the 350 or more colored men met yesterday afternoon at 1 o'clock in response to the order of the Local Board there was displayed a patriotic eagerness on the part of many of them to go into service of Uncle Sam at once. When volunteers were called for 170 stood up and answered ready. Out of this number 68 were much disappointed because only 102 could be sent at this time. The only begging and pleading heard yesterday was for an opportunity to go, except one voice was heard to grumble.

Most of those left behind were excused mainly on agricultural grounds. Many of these are ready and willing to go as soon as their crops are put in proper condition.

Before the selection of the men began Elder Williams, a colored minister, and C. R. Clark made brief talks to the drafted men. At the conclusion of the selection of the men Mr. Clark and Dr. Rice made eloquent and appropriate talks to both those going to war and those remaining behind as to their duty as soldiers and citizens.

The selected men will meet at the courthouse this afternoon at 5 o'clock for final instructions and organization for the trip to camp. They will also meet again tomorrow morning at the courthouse at 5:30 a. m. and go to the L. & N. depot in a body and entrain on the accommodation at 6:45. On the trip to camp the men will be under the command of Ulas Poston, Captain, and Jas. A. Lander, Lester Clark and Rich Williams as first, second and third lieutenants.

Tonight at the Tabernacle a big rally will be held by the colored people in the men's honor.

Those selected to go are as follows: Jake Jordan, Jesse Bronaugh, Clarence Payne, Arthur Hawkins, Henry Kimbrow, Wm. Humphries, Jr., Elmer Ervins, Allen Kilbrew, Henry Everett Williams, Sylvester Leavell, Ben Hudgins, Geo. Hite, Ed Sanders, Bonnie Mumford, Charlie Gar, Howard Preacher, Luther Miller, Richard Williams, Herbert Trice, Milton Hunt, Walter McKinney, Geo. Washington, June 20.—Senator Sherman, of Illinois, today launched in the Senate a campaign in favor of intervention in Russia, scoring the Bolsheviki Government as an ally of Germany and charging administration is guilty of irresolution and inaction as dangerous to the allies as an approaching column of an invading army. Sherman declared United States should meet the situation, not by "watchful waiting", but by instant and decisive action. The stand taken by Sherman brought to the surface the supreme question of the hour in diplomatic circles here.

AUSTRIANS ARE DRIVEN BACK ON THE ITALIAN FRONT

MANY CAPITOL CHANGES SOON

SOME DEPARTMENTS ARE TO BE
CONSOLIDATED, OTHERS
ABOLISHED.

Frankfort, Ky., June 18.—Changes at the State Capital incidental to the "Probe Committee act of 1915" will take place June 30, the close of the fiscal year.

These include consolidation of the Departments of Forestry and Geology and Prison Board and Board of Control, and abolishment of the State Insurance Rating Board and creation of an Insurance Superintendent, instead of the two members of the board, who now serve with the Insurance Commissioner.

The Supervisor of Revenue Agents and the Automobile Department also come under the State Tax Commission.

A suit will be instituted by Insurance Commissioner C. F. Thomas, secretary of the Rating Board, to test the law. If the law is held valid, it is probable that Chairman N. O. Gray, of the Rating Board, will become superintendent.

Brent Greene, Supervisor of Revenue Agents, will continue in office under the Tax Commission until his term expires, and the office of the Automobile Department will continue in its present rooms, as there is no room in the Tax Commission's office to accommodate it.

The five Democratic members of the Board of Control and Prison Board, John C. Burton, of Lebanon; Forrest Butts, of Carrollton; Henry Hines, of Bowling Green; Herbert Carr, of Fulton, and F. Thomas Hatcher, of Pikeville, will constitute the new Board of Control.

It is probable that no change of personnel is contemplated in the Forestry and Geological Departments, State Forester J. E. Barton and Geologist J. B. Hoeling, probably succeeding to their respective offices.
