

The Crittenden Record

Volume I

Marion, Crittenden County, Kentucky, Friday, April 7, 1905

Number 39

HEAVY VOTE CAST

IN REPUBLICAN PRIMARY ON APRIL FIRST.

Considering Circumstances Deboe and Conger Made a Good Race.—Morgan Not a Bad Runner.

MAGISTRATES BE NAMED BY MASS CONVENTION

Greater interest was manifested in the primary called off Saturday than was anticipated it being at the very busiest season of the year for the farmers. Considering the fact that the full Republican vote of the county is a little less than 1000 the total vote polled Saturday, which was 1513, was a heavy one.

In the Marion precincts numbers of citizens were very much concerned about the havoc done by the recent fire and apparently were not interested in the primary at all, but when the result of the days voting was announced it was learned that almost the entire quota of votes for the five precincts had been polled.

In the race for county judge a total vote of 1493 was polled. Walter A. Blackburn, winning the fight over his opponents, A. A. Deboe and A. Towery. Blackburn's plurality was 462.

In the race for county attorney Carl Henderson was named for re-election by a majority of 225 over his opponent Jas. A. Moore.

The greatest interest of all was manifested in the race for the nomination of sheriff. There were five candidates each of whom received a fairly good vote from the standpoint of the manner in which their strength was divided. The total vote polled in this race was 1513. The fight was won by J. F. Flannery by a plurality of 113. Frank Conger ran second and W. S. Hicklin was third in the fight.

Albert H. Travis was nominated for re-election to the office of jailer, his plurality over his opponents, Gilbert and Morgan, being 164. In this race Morgan made a good fight, receiving a vote of 633 out of a total vote of 1472.

In the race for the nomination of assessor the fight did not warm up as it otherwise might have done had the leading candidate, J. Anthony Davidson, been able to make an active personal canvas. He suffered with rheumatism and was confined to his bed nearly throughout the campaign. Mr. Davidson lacked but one vote, being named for the place four years ago when the nomination was made by forty committeemen of the county. For this reason Mr. Davidson held the prestige in the cam-

paigo, but his opponents won considerable strength. The total vote cast was 1452.

Charles Walker, and present coroner W. F. Holcomb, got in the race for the nomination for coroner just in time to get on the official ballot. They interested 1104 persons but Walker won the fight by a majority of 156.

The total vote received by Paris and LaRue for superintendent of county schools was 1396. Paris was nominated for re-election by a ma-

Crittenden county Republican committee met at the court house in Marion, Ky., on the above date, to count the vote received by all the candidates, in the Republican primary election, held in said county on April the 1st, 1905, and having performed said duty find that the following named candidates received the following number of votes to wit:

For County Judge—	
Walter A. Blackburn.....	867
A. Towery.....	221
A. A. Deboe.....	405
For County Attorney—	
Jas. A. Moore.....	605
Carl Henderson.....	890
For Sheriff—	
A. J. Duval.....	120
W. A. Wodall.....	137
J. Frank Conger.....	426
W. S. Hicklin.....	291
J. F. Flannery.....	549
For Jailer—	
Patrick C. Gilbert.....	102
Albert H. Travis.....	767
J. P. Morgan.....	603
Assessor—	
J. Anthony Davidson.....	729
J. L. Chandler.....	435
W. H. Ordway.....	297
For Coroner—	
Charles Walker.....	680
W. F. Holcomb.....	524
For Superintendent of Public Schools—	
John B. Paris.....	931
Robert A. LaRue.....	465

districts, be made by mass convention of the Republicans to be held at 2 o'clock p. m. on Saturday — day of May, 1905, at the following places to wit:

Marion No. 1, at the court house.
Marion No. 2, at the Marion Milling Co.
Dycusburg, at Frances.
Union, at Levias.
Hurricane, at Irma.
Ford's Ferry at Hebron.
Bell's Mines, at Rodney.
Piney, at Iron bridge.

Said convention is to be called to order and presided over by the members of the county committee residing within the bounds of the Magisterial district and they are directed to certify the result of said convention to the chairman of the county committee to be approved by the county committee at its next meeting after said date.

(Signed)

H. A. Haynes,
Chm. Rep. Co. Com.
J. G. Asher, Sec.
Rep. Co. Com.
Jno. T. Pickens,
Ed. Beard,
J. A. Clark,
J. A. Davidson,
Obe Hunt,
J. J. James,
W. H. Reynolds.

LOUISVILLE MANUAL

At the April First Meet Our Home Boy Wins Prize.

Lossie E. Gilbert, son of James Gilbert of this city, won a prize in the Louisville Manual, Saturday, April 1st. In the relay race between the University of Louisville and the Dental college he won the gold cup for the university. He was second in the fifty yard dash to break the world record, his time being 51-5 seconds.

Lossie entered the race with a sprained ankle, and we have been informed that without this handicap he would have outstripped all other contestants. It will be remembered that Lossie has won a number of local foot races, the most important of which was the winning of a lot in the Obyran subdivision of the city. In this race his father was a contestant and ran a close second.

Lossie is in Louisville taking a medical and surgical course at the University of Louisville, and being very young and agile he enters the foot races for the benefit of his physical training.

A Dardevil Ride

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at

MINING.

Compressed Air Plant.

FOR COMMODIOUS MINING COMPANY.

The First Plant Of the Kind
(To Be Installed In
This District.

The Commodore Mining Company, of which William Miller and John Scheas, capitalists of Louisville, are president and vice-president respectively, has recently closed a contract with the Ingersoll-Sargent Drill Co., for a complete compressed air drilling plant, consisting of the latest improved machinery.

The compressor is of the simple, straight line type, and has a capacity of six drills.

The drills are of the percussion type, and are known as the "Little Jap," having a capacity of from 60 to 70 feet of lineal feet of hole per day, and are dressed especially for block-holing in lead, zinc and floor spar work.

These drills, operated by compressed air, together with the hoisting plant which the Commodore Company has also ordered, will give a capacity of 3 to 4 feet depth of shaft per day, or equal to a week's sinking with the ordinary methods now used in the district.

It is the expectation to sink the Commodore shaft at least 500 feet before stopping, which means much in the development of this district, as the Columbia shaft, which is less than 200 feet, is now the deepest shaft in the district.

This machinery is expected here in the course of the next week or two, at which time Messrs. Miller and Scheas will spend several days in the district, accompanied by the

drill company's representative, Mr. V. R. Evans, who negotiated the sale, and who is also an experienced engineer, having been a mine superintendent for several years.

The Commodore company owns the Dave Franks 100 acre tract in fee and mineral right on the Della Flannery and Simon Station tracts each consisting of about 85 acres, all located near Glendale.

With the showing of lead and zinc ore already made in the Commodore shaft, the company does not feel that any risk is incurred in installing the compressed air plant, and they are very anxious to develop their properties in the quickest possible manner.

JOPLIN LEAD IN GOOD DEMAND.

Top Price Reported for Zinc
During the Week was
\$45 Per Ton.

Joplin, Mo., April 2.—The highest price reported paid for zinc ore in the Joplin district during the past week was \$45 per ton for 63 per cent zinc. The assay price was most generally on a \$42 basis, with a few bins said to have been sold higher, but no definite report was made and some very low grade ore sold as low as a \$39 basis.

Several large mills have been closed down for repairs and doing dead work in the ground, and others will likely be closed down this week and others next week. It is conceded a splendid opportunity just now to prepare for a steady summer run. Lead continued in extra good demand at \$55 per ton, and the sale of this mineral were unusually heavy, one of the largest shipments ever made in one week.

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at L. L. Elgin.

Ruins of Masonic building, showing residence of C. H. Whitehouse, our temporary quarters, in rear. This dwelling has twice in the past six months withstood the ravages of the flames from Wallingford's stable, the site of which is marked by chimney left standing.

BANK.
