MULES BRING GOOD PRICES

A Mule Will Sell in Crittenden County

MONDAY'S SALES LARGE

Several Horses Sold at Good Prices ---Mule Colts Sold From Fifty-Five to Eighty Dollars

A NUMBER OF SCATTERING SALES

Mule and horse buyers and others were much in evidence on Marion streets Monday. All that was necessary for a trade was a meeting of Messrs. Layne & Leavell or Henry Rice and the mule or horse owners.

Prices were very stiff. When a mule colt brings \$80 the farmer certainly should feel pleased and should take courage.

No better barometer of the material welfare of the farming class of people can be mentioned than the price they receive for the products of their farms.

Among the many sales made Monday last we note a few as follows:

Bought by Layne & Leavell, of Hopkinsville, Ky.

One mule from J. R. Marvel \$140.00

One mule from W. G. Hillyard, 145.00

One mule from W. R. Stewart, 145.00

One mule from R. B. Cook, 90.00

One mule from Alvin Bebout 102.50

One mule from Ellis Klein, 100.00

Two mules from J. J. Hunt 265.00

One horse from Sullenger Bros 125.00

Two mules from Hugh Bennett 230.00

One mule from 140.00

Messrs. Layne & Leavell are old experienced stock dealers who have been coming to Marion for several years and who have merited and received the confidence of our people.

Mr. Henry Rice, our old friend from Kelsey, bought the following:

One mule colt from Oscar Eskew \$75

One mule colt from Albert Klein, 80

One mule colt from John Stewart, 75

One mule colt from Enoch Williams, 75

One mule colt from Ed H. Weldon, 65

One mule colt from Mr. Ford 65

One mule colt from H. C. Paris, 60

One mule colt from Mrs. L. H. Paris, 55

One filley colt from Jas. Baker, 65

One filley colt from Mr. Hughes, 70

Mr. Henry Rice is a well known business man from Kelsey, Ky.

Among other scattering sales it may be mentioned that Henry Wood sold a colt for \$80.

Tilford Righam sold one mule colt for \$65.

Rev. E. B. Blackburn sold mule colt for \$75.

Paul I. Paris sold mule colt for \$75.

H. C. Paris sold one mare to J. W. Shaffer, of Tolu, for \$140.

Keep the Gate Shut

An English farmer was one day at work in his field, when he saw a party of horsemen riding about his farm. He had one field that he was especially anxious that they would not ride over.

So he sent one of his boys to the field, telling him to shut the gate, and keep it shut, and let no one open it.

The boy went as he was bidden but was scarcely at his post before the huntsmen came up peremptorily ordering the gate to be opened. This the boy declined to do, stating the orders he had received, and his determination not to disobey them. Threats and bribes were offered alike in vain, one after another came forward as spokesman, but all with the same result: the boy remained unmoved and immovable in his determination not to open the gate.

After awhile one of noble presence advanced and said, in commanding tones, "My boy you do not know me, I am the Duke of Wellington, one not accustomed to be disobeyed, and I command you to open that gate that I and my friends may pass thru." The boy lifted his cap and stood uncovered before the great man whom all England delighted to honor, then answered firmly, "I am sure the Duke of Wellington would not wish me to disobey orders. I must keep this gate shut, nor suffer any one to pass but with my master's express permission." Greatly pleased, the sturdy old warrior lifted his own hat and said, "I honor the man or boy who can neither be bribed nor frightened into doing wrong. With an army of such soldiers I could conquer not only the French, but the world, and handing the boy a glittering sovereign, the old Duke put spurs to his horse and galloped away; while the boy ran off to his work, shouting at the top of his voice, "Hurrah! Hurrah! I've done what Napoleon Bonaparte could not do. I've kept out the Duke of Wellington. Boys keep the gate shut."

A SONGSTER ON THE WING

Travels Thousands of Miles and Thanks the Lord He is Alive

Billy Yates, the singer from Sheridan, blew into Crittenden county last Saturday night from Humboldt, Tenn., where he has been in a camp-meeting.

He told the Record Rounder that he had traveled over 11,000 miles thus far this season and felt as fresh as a daisy.

Furthermore he said, he had traveled now for twelve years and had never borrowed a dollar, had never missed a train and never missed but one appointment, and that was on account of sickness.

Billy left at three o'clock Wednesday morning for Greenville, Tenn., where he will have charge of the singing in a revival.

Speaking of Humboldt people and the meeting there he said: "That is the only place I ever visited where there was too much singing, if such a thing were possible. They had a large stage clear across the auditorium and it was filled with singers. Such singing you never heard. There must have been one hundred of them."

Joel Farmer edged in at about this stage of the game and suggested that probably such a large number would drown him out and that his voice would sound like a bumble bee in a barrel.

Billy replied, "that's all right, if they did, I made a fuss anyway."

In the course of five or ten minutes conversation Mr. Yates refused two or three invitations from different passers by to go home with them.

It appeared to the RECORD scribe that he would not soon be without a home or friends.

SANDERES ORE SEPARATING CO.

Receiving 500 Tons of Lead, Zinc and Fluor Spar

FROM ROSI CLARE, ILLINOIS

Business Better at the Kentucky Fluor Spar Mill than Any Previous Year During Dull Season

WORK AT PARISH MINE PROGRESSING

The work on the new shaft at the Parish mine is progressing rapidly.

The Asbridge mine is still putting out the usual amount of fluor spar.

The old Columbia mine, one of the most famous in the district, is to be opened soon.

At the Tabor shaft they are working in a 9-foot breast of spar and they are hoisting right along.

The Marion Zinc Co. is working in three levels at their Riley mine and are raising a fine grade of lead and spar.

Work is progressing at the new Sam Matthews shaft and they will soon cross-cut for the well known 17-foot vein.

The work at the Old Jim mine is getting along nicely, with an excellent showing for another fine bed of carbonate.

The Great Northern Mining & Milling Co. have installed their new machinery and the work at the Ada Florence mine is progressing fast.

The Sanders Ore Separating Co. are having shipped to them 500 tons of lead, zinc and fluor spar from Rosi Clare, Illinois, this week.

The Hodge vein has been opened by the Kentucky Fluor Spar Co. with prospect work in five different places, with a fine showing of lead and spar.

The Keystone Mining Co. have abandoned their old shaft and have begun sinking a new one. They expect to go down at least 200 feet.

The parallel vein at the Hodge mine has been proven for a distance of half a mile. Four or more openings have been made, all of which has uncovered No. 1 spar, carrying a good per cent of lead.

The Ohio Mining Co. shaft is being sunk rapidly and is now 55 feet deep. At a depth of 60 feet they will cross-cut and catch the famous Columbia vein. The work is being pushed by Supt. Grant Davidson.

H. A. Haynes, of the Kentucky Fluor Spar mill, reports business better this year during the dull season than any year previous. He also states they are shipping more ground spar now than ever before.

A fine large piece of carbonate from Mann mine was placed on exhibition this week by C. S. Knight, by the side of the two large pieces of spar near the New Marion Hotel. It would be a good idea if each company in the district would do this.

The Igneous dike vein, which is shown on the map of the U. S. Geological survey, made by E. O. Ulrich and W. S. T. Smith, of the Western Kentucky mineral field near Levisa has proven to be mineralized with lead and fluor spar. Well posted men of the district declare this to be the first strike made where lead and fluor spar has ever been found with the Igneous Dike in Western Kentucky. This lead and spar is found at or near the crossing of the Igneous dike and the Stevens fault, as shown on map of the U. S. Geological survey made by the above named parties in 1904. This vein is now being prospected by Wm. S. Lowery, and is his intention to organize a company and develop the new ore bearing dike vein.

DOCTORS MEET

Session of Crittenden County Medical Association Held Tuesday

The Crittenden County Medical Society held its regular monthly meeting in the court house last Tuesday, Sept. 11th, at 1 p. m.

These meetings are always held on the second Tuesday of each month, in the town of Marion. It would be most beneficial to both the profession and the laity if every physician in the county would attend and take part in the exercises of each meeting.

Last Tuesday quite a number were absent, and one physician was called away before the exercises began.

None of those assigned work on the programme were present except Dr. T. Atchison Frazer.

The subject of his paper was: "The Fallacy of the Maternal Impression Theory."

The subject was handled in a very able manner and at the conclusion of the reading it was generally discussed by the society, for about an hour.

Dr. Thos. Perkins and Dr. Wolfe, of Frances, were elected members of the Society. Dr. Perkins was honored with a life membership without the payment of any fees, he being the oldest practitioner in the county.

Among the members present we note, Matlock, Salem.

Wolfe, Frances.

Perkins, Tribune.

THE FINEST TOBACCO CROP

Yet Reported this Season Raised by

W. G. CONGER, OF TRIBUNE.

Patch Contains Six Acres of as Clean and Nice Tobacco to be Found in County

LARGEST 49 IN. LONG, 27 IN. WIDE

In the Tribune settlement there lives one W. G. Conger. This season he got busy and has thus far produced the best crop of tobacco in Crittenden county. It is all clean and nice and free of worm holes and is the finest sight a tobacco man ever beheld.

There are in the patch six acres, and six dandies too. It will begin to ripen the last of this week and cutting will begin probably next week.

Several leaves were measured and the largest being 49 inches long and 27 inches wide.

If any one in this county thinks they can beat this story let them.

HOW IS THIS

Will Messrs. Hager, Hayes & Company Answer Quick.

To the average lay member of this Kentucky Commonwealth there comes some funny sights and sayings which in a measure recompense the aforesaid lay member for the inconspicuous and humble part he plays in this economic household.

Of course there are very few RECORD readers who would not like to hold some honorable position in the gift of the people, but imagine, if you can, the amount of perspiration shed by Hager, Hays & Company when they endeavor to answer the following questions propounded to them by the Anti-Saloon League:

"1. Will you, if elected to the office of Governor, use all your power and influence of your office to enforce the laws against the Sunday sale of liquors?"

"1. Will you recommend in your message to the next Legislature the passage of a bill extending the operation of the 'county unit law' over the whole State as contemplated in the original Cammack-Redwine bill offered to the Legislature of 1906?"

"3. Have you any understanding or agreement, expressed or implied, with the liquor interests in which your policy as Governor will be in any way controlled by their desires?"

"We will thank you for an early answer, and we will in turn give the information to the people of the State."

There are times and tides in the affairs of men that are in the language of Happy Hooligan, "sumpin fierce."

Five Carloads Stock Shipped

Sullenger Bros. shipped two carloads of hogs and cattle.

Oliver, Conyer & Co. shipped on load hogs and cattle.

Clement & Moore shipped one load hogs and cattle.
