

The Morganfield Sun is still waging war against the whipping post.

While the New York State convention was being held, Mr. Cleveland was at Ann Arbor, Mich., delivering an address to the University students on "Sentiment in our National Life."

In waging the war for the enforcement of the local option law in this community all parties should remember that ill feelings and rough words help neither faction, and is calculated to stir up a bitterness that will last long after the courts have passed on the question in dispute.

Judge Campbell, of Paducah, was in town Saturday. He is a native Kentuckian, and a fine character. He is a handsome man, a little past the meridian of life, a pleasant face, amiable disposition, a ready mixer, and withal a brainy man, and a pure Democrat.

Senator Palmer made a fine speech in the Senate Thursday on the bill providing for the election of United States Senators by the popular vote. Among other things he said: "The amendment to the Constitution which I propose is adopted by the members of the Senate of the United States will be chosen by the direct vote of the free people of the several States and it will be, what it never yet has been, the popular branch of the Congress of the United States."

There is an abundance of good Congressional timber in the first district, and it is not going to stand in the forest. Already Campbell and Robertson are mixing with the people, Gannett has his eye on the field, and by and by Stone will be at home. It is evidently going to be a free-for-all race, with plenty of starters. Those who are not in the Congressional race will be candidates for Circuit Judge and Commonwealth Attorney. There is room for all this year, and all are going to take room.

The New York State Democratic convention was held on the 22nd, and appointed and instructed its delegates to the National convention to vote for Hill for the nomination for the Presidency. With a State like his own to back him, it looks as if the New York Senator was in the fight. But it is very doubtful about any other State in the Union doing as New York did. Hill is strong in that State, but weak in the others when compared to Cleveland. The factional fight between the Hill and Cleveland elements will go a long way towards convincing the conservative Democrats elsewhere that the wise thing to do is to find a candidate outside of the Empire State.

An Eddyville Mystery.

On Wednesday night of last week Mr. J. B. Smith, agent of the railroad at Kuttawa, left Eddyville to return to Kuttawa, since which time nothing has been seen or heard of him. Excitement over the mysterious disappearance has run high. He is known to have carried a considerable sum of money with him and the most plausible theory is that he was murdered. Two young men, named Duggitt and Brindley, who have a rather unsavory reputation, disappeared from Eddyville the day after the disappearance of Smith, and turned up in Paducah with more money than they usually handle. They were arrested, and it is reported that blood stains were found on their clothing, and while they protested their innocence, public opinion fastened the murder and robbery of Smith on them. They were taken to Eddyville Tuesday and will be held for investigation.

Another theory is that Smith has skipped out, taking money belonging to his employees. This idea appears to be gaining ground. An inspector for the express company has been out of the ground, and according to reports received here, he says that Smith's books have been seriously tampered with and falsified, but that he was short in the sum of \$600 or \$700, and money packages which had gone into his hands had never been accounted for. Thus the matter stands. Smith was popular and had the confidence of everybody. He had been the agent at Kuttawa for several years.

Nunn Suspended. Pending the investigation of the difficulty between Sam Nunn, deputy warden of the Eddyville penitentiary, and Montgomery, the Sinking Fund Commissioners have suspended the deputy warden. From all the reports it appears that Nunn was justifiable in shooting Montgomery, who was the aggressor.

The Paducah Standard says that Col. Lucas will not be a candidate for a delegateship to the National Republican Convention. It is not our fight, but we hope we are not intruding in suggesting that among the best men of the party in the district is Harry A. Baynes, of Marion; besides he is the only Republican Circuit Clerk in the Gibraltar district, and in that respect would be an oddity in the convention. He is a capable and worthy man too.

A SPLIT IMMINENT.

SOUTHERN DELEGATES THREATEN TO GO ON THE WAR PATH.

The Odds and Ends of Other Organizations Demand Admission—The Knights of Labor Make Known Their Demands—Other News About the St. Louis Convention.

St. Louis, Feb. 23.—A most serious split in the industrial congress, now in session here, is threatened by the action of a large number of south delegates. At a caucus held during the past night it became evident that many southerners were not in favor of third party action, holding that their secession from their old party, the democratic, would only strengthen the republican.

The logic of this argument was conceded by all, and before the caucus closed all of the delegates from Georgia, including Mr. Moses, Hon. L. F. Livingston, member of congress from the Fifth Georgia district and state president of the alliance, announced that should the conference determine on a third party they would withdraw from the body. Four of the six Alabama delegates announced that they would do like wise, as did the delegations from Tennessee, Maryland, Virginia, West Virginia and the president of the North Carolina alliance.

If the split in the southern delegation is not sufficient to give the conference more than it can handle, there are a number of protesting delegations, representing national organizations, which are knocking loud for admission at music hall door and which threaten a second conference, which are not represented on the credentials committee, and which have applied for representation in the conference, are the reform press association, woman's alliance, united order of anti-monopolists, union reform association, central nationalists, farmers' league, alliance assemblies of the industrial union, and many smaller organizations. All have sent delegates, and are protesting loudly that they have complied with all conditions of the call for the conference, and should have a place on the credentials committee, but will be satisfied if they get their representatives a voice in the conference. If they do not, they promise that they will move for the conference than it can possibly handle.

At a meeting of knights of labor, which ended late last night, the demands of the order regarding the matters which it desires represented, were formulated in the following planks which will be submitted to the resolution committee when appointed:

The land, including all the natural sources of wealth, is the heritage of all the people and should not be subject to speculative traffic. Occupancy and use should be the only title to possession of land. The taxes upon land should be levied upon its full value for use exclusive of improvements, and should be sufficient to take from the community all unearned increment.

The establishment of a national monetary system, in which a circulating medium in sufficient quantity shall issue directly to the people without the intervention of banks; that all the national issue should be full legal tender in payment of all debts, public and private, and that the government should not guarantee or recognize any private bank or create any banking corporations.

The government shall obtain possession by purchase under the right of eminent domain of all telegraph, telephone and railroads, and that hereafter no charter or license be issued to any corporation for the construction or operation of any means of transportation of intelligence, passengers or freight.

In case the above resolutions fail to find favor the knights will offer resolutions adopted by the confederation of industrial organizations, held at Washington, D. C., January 23 to 24, 1891.

The untimely Iron Hill written to the Monitor said that some three thousand years ago the proud champion of Goth blotted that same old horn in the faces of the Lord's people for forty consecutive days. It is a stupidity in style as every clear headed person admits. Tell me in his next issue what kind of business he has in attacking my person and calling a little bubble and also tell me what I have done that ever hurt or offended him. It was the same horn that he has been tooting with quite a complimentary tone. Where did he hide the same horn as soon as he felt the shock of the last election when the Democrats carried the largest majority to Congress ever known in this century. For that fact it's sake he contended with one of its particulars on an eloquent across the golden harvests of matrimony and take a pleasure sail up Salt river in November. If he is anxious to find his lost horn I will find it for him in November. Hurray for Aunt Phib, though unfortunately, she can't enjoy her suffrage.

"The Bible says, 'God is no respecter of persons.' I understand by that that no men, or set of men, have been born with special privileges or rights, not possessed by their fellow-men. There are people in the world, however, who seem to think that others have no right to say or do anything that does not coincide with their own views or selfish interests. 'As ye would that others should do to you, do ye even to them.'"

There was a sleight of hand show, and the smallest man known on earth, in town several nights last week. "The Boss" was a good ventriloquist, musician, and well up to illusive trickery of all sorts.
