

COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED.

The Day Should Be Signaled in Every Town and Village in the Republic by a Local Celebration of Which the Public School is the Center.

To the scholars of the public schools of the United States the executive committee of the Columbian public school celebration sends the following message:

The 12th of October, 1892, the 400th anniversary of the discovery of America, ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian exposition grounds. The day also may be signified in every town and village in the republic by a local celebration of which the public school is the center.

The public schools of the republic will form the most fitting centers for all these local celebrations. A national public school observance simultaneous with the Chicago exercises will awaken a popular interest in the coming exposition. For more than a century the public school has the right to occupy the most prominent place in the celebration. The public school is the one characteristic institution which links all the neighborhoods together, and can thus furnish a common bond for a national celebration. The public school is the ripe fruit of the four centuries of American civilization. The public school of today awakes the hundred years to come.

How It Came About. The first approval of this suggestion came from the public school scholars themselves. When the plan was first proposed by The Youth's Companion, January, 1891, thousands of letters were received, testifying to the enthusiasm with which the scholars responded.

The world's congress auxiliary of the Columbian exposition took up the proposal, calling upon all the people of the republic to observe the day in their own localities, and suggesting that the public schools be everywhere the centers of the celebration.

The superintendents of education were the next to recognize the fitness of giving to the public schools the first place in this Columbian anniversary. At their national convention in Brooklyn in February, 1892, they took charge of the movement, and appointed the undersigned an executive committee to lead the schools in their commemoration.

Appeal to the Scholars. This executive committee now appeals to the scholars themselves to be the first to move. It is for you, scholars of the American public schools, to arouse a sentiment in your schools and in your neighborhoods for this grand year of celebrating the finding of America. Teachers and teachers will meet you from their side. But it is for you to begin.

There are 13,000,000 now in the public schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the republic through the coming century.

What to Do. The first thing to do is to determine, when you read this message, that you will do all you can to induce your school to enter the celebration. Then show this message to your teachers; every patriotic teacher will be glad to help you if you show your zeal in earnest. Take the message to the school committee and the superintendent—their consent and aid are indispensable.

After you secure the support of all these, then let the school vote that it will enter the celebration. The next thing after this public vote will be the appointment of a strong committee made up jointly from citizens, scholars and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

The Programme. A programme of exercises will be furnished by the executive committee. It will be simple and adapted to any school, yet so arranged that more elaborate exercises may be added whenever desired. The aim of this official programme will be that certain leading exercises may be the same in every school in the republic, and that at least in one feature the Chicago programme and the school programme may be identical.

In due time this executive committee will make further suggestions.

The Local Committee. The duty of your committee will first be to interest the citizens and to prepare the school. Exercises may be arranged. The veterans, both north and south, will gladly be escorts for the schools. The other military, civic and religious organizations of each town will lend their aid if they see that the school is doing worthy of the day. The local press will be the most valuable of all supports.

On Oct. 12 the stars and stripes should be floating from every school house in the republic.

It is the hope of the friends of common school education that not one public school in the United States will allow itself to be left out in this most important celebration.

Executive Committee. Francis Bellamy, chairman, representing Youth's Companion, Boston. John W. Dickinson, secretary of Massachusetts board of education. Thomas B. Sheddwell, commissioner of public schools of Rhode Island. W. R. Garrett, superintendent of public instruction of Tennessee. W. C. Howitt, superintendent of Michigan educational exhibit at World's fair.

MURDERED ON THE HIGHWAY. Gold-Blooded Assassination of a White Man by Two Negroes.

ROSELLEVILLE, Ky., May 9.—A foul murder was committed Thursday near the little village of Roselleville, about fourteen miles from this city. Jim Ford, a prominent farmer, living three miles from the village, was walking alone on the road on his way to town. When within a short distance of Roselleville he was met by two negroes carrying double-barreled shotguns. As soon as they got within a few feet of him one of them emptied both barrels into him. The other negro walked up to the wounded man, who was lying prostrate in the road, and emptied the other two barrels into him, literally tearing his body to pieces. They immediately fled, and at this writing have not been heard from. Ford and the negro had some trouble in the courts here a short time ago, and it is supposed that the killing grew out of that. A posse of men are scouring the country for the negroes, and if caught they will be lynched.

IN THE DARK LAND. Arabs Arriving at Zanzibar Report That Dr. Emin is Dead.

That for the German colonies in Africa telegraphs that Arabs arriving at Zanzibar, say that Dr. Emin is dead. The report, which says, lacks confirmation, although it was undoubtedly true, as Wolff telegraphed on May 3, that Dr. Emin was taken with smallpox while following his advance force from Wadai to Bahr el Jebel.

This force was under Dr. Steinhilber and reached Bahr el Jebel on Feb. 12. The latter reports from Steinhilber have been received. Whether Dr. Emin is supposed to have died of the smallpox or violent causes the dispatch fails to state.
