

Laxative for Women Free

There is a great difference in the purposes to which a laxative should be put. Tablets and pills, salts, etc., are usually violent purgatives or cathartics, and altogether too powerful for the average person.

A woman at all times needs only a mild laxative—in fact, none other is needed by anyone, weak or strong though they may be, for the object is simply to move the bowels, and if a gentle laxative will do it, what is the use of a violent one?

Dr. Caldwell's Syrup Pepsin has earned a well-deserved vogue among women and children and old folks—people who must necessarily be careful of what they take. It is a liquid laxative tonic and admittedly the greatest stomach, liver and bowel remedy before the American people. The price is only 50 cents or \$1 a bottle, as it comes in both sizes, and all druggists sell it. Its pleasant taste and gentle action make it an ideal remedy for women in constipation, torpid liver, sour stomach, sick headache, heartburn and such like digestive complaints. Its use for a short time will remove the trouble entirely so that future medication will be unnecessary. Its tonic properties build up the stomach and intestinal muscles so that they act naturally again. That this is so is the experience of many heads of families, like Mrs. Brannan, of Alvarado, Va., Mrs. K. L. Stout, of Louisville, Ky., and numerous others; in fact, way out in Williams, Cal., as Mrs. J. E. Blackmore, of that place, writes, the whole town seems to be using it.

If the remedy is new to you and you want to make a trial of it before buying, send your name to the doctor's address as below and a free test bottle will be sent you. Then, if results are satisfactory you can buy it of your druggist.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell Bldg., Monticello, Ill.

A Word About Powdered Sulphur

Powdered sulphur, or as it is technically called, "flowers of sulphur," is a valuable remedial agent. Who doesn't remember the old fashioned sulphur and molasses given in the spring to purify the blood. And it was a valuable remedy too. But the form of sulphur makes it hard of assimilation—makes it hard to get even a small quantity of the sulphur into the blood. The greater part of the flowers of sulphur taken into the stomach is undigested and passes out without doing any good whatever. The very little that is assimilated does great good considering its quantity. For this reason physicians and scientists have for years tried to find some way of holding sulphur in liquid solution so that all of it could be assimilated and taken into the blood or when applied externally to sores, etc. be absorbed into the skin. Little's Liquid Sulphur accomplishes this with absolute perfection. It is assimilated perfectly and every particle of it gets into the blood with not one of the wonderful sulphur curative and medicinal properties changed or lessened. Applied externally it is rapidly and readily absorbed and actually brings the sulphur into contact with the germs of suppuration, mortification, decay or disease which it rapidly destroys. Little's Liquid Sulphur stops itching instantly and permanently relieves all forms of skin complaint, eczema, erysipelas, pimples, running sores, tetter, ring worm, chaps, roughness, redness, or skin blotches. Sample bottle sent post paid to any address for 10c. Rhums-Sulphur Co. St. Louis, Mo.
