Pour a few drops from the bottle into the inhaler that comes with each outfit, and breathe it in four or five times a day.

Immediately you will know that HYOMEI soothes and heals the inflamed and irritated membrane.

But HYOMEI does more than soothe and heal; it kills the germs, those persevering pests that are at the roots of all catarrhal conditions.

### Will Clark Speaks to Old Soldiers.

W. H. Clark, attorney, formerly of Marion, attended the reunion at Seldon, Kansas last week and responded to a call for a speech to the old soldiers. In the course of his remarks, he dropped the following gem to the old boys:

Some one asked what I thought of your old soldiers? I said, I think they are a great band of faithful sentinels, getting drowsy under the weight of many years of service, lost in the melody of old camp-days, intoxicated with the sweetness of the war, held spell bound by the matchless charm of brotherly love of their comrades. Lost in the happiness of many dreams that gather joy and pleasure a new from each old comrade as the golden rod gathers sweetness and luster from each succeeding ray of God's glorious sunlight, and thus dreaming they pass away, one by one, and go to answer the roll-call of the Great commander, and depart-ingleave behind them in the hearts of the American people eternal song of "peace on earth good will toward men."

Atwood, Kan.

### NOTICE TO HUNTERS TRAPPERS AND FUR DEALERS

I will be in Marion every Saturday with the cash to pay top market price for all kinds of furs or possum up to bears.

### Letter From Dan Stone.

West Liberty, Ky.—I left Marion Nov. 13th at 11 a. m. made connections at Louisville with C. & O., and arrived at Morehead at 10:33 p. m.

Morgan county is in east Kentucky, and was established in 1822 was named in honor of Daniel Morgan who whipped the British at Cow Pens S. C. (I was on the battle field of the Cow Pens and saw old statue of Morgan) Area 336 sq. mi. Bound Rowlan north and Breathitt on the south and that is saying enough for the fighting quality of Morgan's men. The county is hilly, and small mountains up to 400 feet. The Licking river flows through the county for 30 miles. One third of the county is covered with timber. The county is among the richest in the state in coal, both stone and Cannel coal-oil and gas are also found. The county has 30 miles of rail road. The dirt roads are not good.

West Liberty near the centre, is the county seat on the Licking river about 500 inhabitants. Morgan county is the tenth Congressional District. Total valuation of taxable property in the county is \$2,447,617.00. Total amount of taxes paid \$33,253.80 Tax rate is \$1.10 per hundred dollars \$1.50 county poll, 50 cent school tax. 79 schools in the county all white, there is only one colored man in the county. 163,000 white folks in the county. 35 churches all protestants. 3,176 voters. 5,682 school children, thus there is no danger of race suicide. One news paper in the county 2 banks. The people are very friendly to strangers.

This is a great county of ours and was really worth the discovering by Columbus, and the defending by Washington Putman Morgan and we really cannot figure the possibilities offered any sober industrious young man in America today when we remember that forty years ago a baby was picked up in the streets of Knoxville, Tenn., and that on Nov. 8, 1910 that same boy was elected Gov. of the old volunteer state that is so proud of its manhood and old Hickory.

Young men get busy and remember its education first that helps you when money and friends are gone. Business is fine, will go to Elliot county next week.

### Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings. Backache or headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c. at Jas. H. Orme and Haynes & Taylor.

Every morning when the train rolls in it brings a pair of pretty girls, and five stalwart young men, who are attending the "Marion Graded School" from out of town. They return to their homes each afternoon which makes it quite nice for them. One of the girls is Miss Virginia Bugg, daughter of Mr. and Mrs. Grant Bugg of Fredonia, and the other is Miss Ruby Cook, daughter of Dr. and Mrs. O. C. Cook of Crayne. The boys are Paul Cox, son of Mr. and Mrs. W. E. Cox, of Fredonia, Allen Young, son of Mr. and Mrs. Thomas Young, of Mexico, Bird Loyd, son of Mr. and Mrs. James Loyd, of Crayne, Roy Cook, son of Dr. and Mrs. O. C. Cook, of Crane, Worth Bositure, son of Mr. and Mrs. D. E. Boisture, of Crayne. The latter although a graduate of the Graded school and now a high school pupil is only 12 years of age, which shows what a boy can do if he tries.

## "Sure Cure"

"I would like to guide suffering women to a sure cure for female troubles," writes Mrs. R. E. Mercer, of Frozen Camp, W. Va. "I have found no medicine equal to Cardui. I had suffered for about four years. Would have headache for a week at a time, until I would be nearly crazy. I took Cardui and now I never have the headache any more."

## Take CARDUI

### The Woman's Tonic

The pains from which many women suffer every month are unnecessary. It's not safe to trust to strong drugs, right at the time of the pains. Better to take Cardui for a while, before and after, to strengthen the system and cure the cause. This is the sensible, the scientific, the right way. Try it.

### NATIVE OF CHRISTIAN

Mr. F. B. Moody, a native of this county, died Nov. 16th at Lake City Fla., aged 77 years. He left this county many years ago and was one of the pioneer Baptists of Florida. He was a brother of Rev. Dr. J. B. Moody, the noted Baptist divine, and a nephew of Mrs. J. F. Mills, of this city. He was born and reared near Fairview.—Hopkinsville Kentuckian.

Mr. Moody was largely interested in mining matters in this country and was a regular reader of the Crittenden Record-Press for many years.

### THE LINCOLN FARM

Doubtless every school boy and girl in Crittenden county know of Abrahm Lincoln, but none perhaps have seen his old home place in La Rue county. It was my privilege to conduct a series of meetings lately near the birthplace of this great man.

The church is situated on the old Louisville and Nashville turn pike. This road was built nearly a hundred years ago and will stand a hundred more. There were what is known as stage stands along the road, where fresh horses were kept ready to take the place of those that had galloped from the last stopping place. I say galloped for that was the way they went we are told, changing every few miles for fresh ones. These big red stages drawn by four horses were of as much interest to the early people as the automobiles that run on this road now, and perhaps more so as they carried the mail as well as many passengers with their cargo of bundles and trunks piled high upon top. The boy who has not seen one of these stage coaches has missed something for to me they are more interesting than a fast railroad train.

Along this pike Andrew Johnson, James K. Polk and many other prominent Southern men used to travel going to Louisville and on to Washington. One of the most picturesque scenes on this road is where this pike passes over Muldraughes hill, winding here and there, cut out of the mountain side, this smooth and broad road runs no doubt at a cost of many thousands of dollars. But I began to tell you about the Lincoln farm. Well this farm lies about two and a half miles from this pike on a dirt road leading from the pike to Hodgenville the county seat of LaRue county. Now don't imagine a beautiful farm well laid off, with large barns and strong fences, for it is not, but it is one of the poorest farms in the county. The land is limestone, full of sinks, it is sodded with sedge grass and has thickets of sassafras, sumac and various kinds of Kentucky sprouts.

The old cabin stood about a quarter of a mile from the road, near a very large spring, known as the Lincoln spring.

There are two entrances leading to this notable place, from the main road at one two large brick pillars stand, at the other two massive granite structures with a large copper chain for the gate. Where the log cabin stood there is now a large memorial hall of granite which is thirty feet wide, fifty feet long and forty feet high, all this stone came from stone creek Connecticut and put up at a cost of one hundred thousand dollars. Money enough spent to erect a large school building, but as it is it looks like some deserted mosque. This structure stands on a hill facing the South, on the South side there is a porch with six massive granite columns, while there only are four on the other three sides set in so as to make it more majestic and beautiful. There are large double doors on North and South sides of the building. Once

there was a winding path from this cabin to the large spring down under the hill, where Lincoln, a barefoot boy use to go to get water. Now there is a broad flight of steps, twenty or twenty-five feet wide from curb to curb. These steps are in four flights with fourteen to each flight with a base of perhaps ten feet between each. After going down these we come to a level where all the carriages will stop, turning to the right we go down a flight of narrow stone steps to the spring, where the old gourd use to be and the sparkling waters are ever falling. There is a great white oak tree standing above the spring listening to all you say and watching all you do.

On each side of this flight of steps the ground is terraced and sown in bluegrass, with a beautiful little fence of tiny evergreen shrubs, around it and farther out there are two rows of silver poplars, some day all this will be beautiful.

This log cabin is now in the great hall under lock and key. No one will be allowed to see it until dedication day which will be next summer perhaps.

We saw this cabin two years ago, when Mr. Teddy Roosevelt was there, it looked just like other cabins but I am sure many of our young people would like to see this noted place.

### GIRLS WILL BE GIRLS

Soon after the girls of a family residing in one of Philadelphia's suburbs had been called in a fashionable seminary near that town their names had been transformed in accordance with the practice obtaining at the seminary. Mabel had become "Maibelle;" May, "Maeme;" and soon Jessie caught the infection. She wrote a letter to her elder brother Sam, and signed it "Jessica." Sam detected the signs of the times, and this was his reply: "Dear Sister Jessica: Your letter received. Aunt Marica and Uncle Georgica started for Bostonica yesterday. Mammaica and papaica are well. I bought a new bull terrier yesterday. She is a beauty." Her name is Maudica. Your affectionate brother, "Samica."

### ARE YOU DEAF?

Catarrh is probably The Cause. Get Rid of The Cause.

If you have catarrh and have constant ringing noises in your ears look into the matter at once.

It's a pretty sure sign that catarrh is spreading and is making its way through the Eustachian tubes that lead from the nose to the ears.

When catarrh gets to the ears partial deafness follows. If you have ringing noises in your ears go to Haynes & Taylor's to-day and get a HYOMEI outfit and drive out catarrh.

To cure catarrh HYOMEI should be breathed through the Hyomei inhaler for a few minutes, four or five times a day. Just pour a few drops into the hard rubber inhaler and breathe it.

It kills the germs; soothes the irritation; heals the inflammation; stops hawking, spitting and snuffing.

HYOMEI keeps the throat free from mucus and prevents crusts in nose.

The complete HYOMEI outfit which includes the little indestructible hard rubber inhaler, a bottle of HYOMEI and simple instructions for use, costs \$1.00.

### THE DAIRY COW

The dairy cow does more than bring financial success to the dairy farmer. She makes him a better citizen than he would otherwise be. Her influence upon home conditions is a most pleasing contribution to those factors which are responsible for the changed conditions which prevail in the farm homes of today. Thousands of these homes are now characterized by comfort and happiness where formerly they were blighted by drugdery and unhappiness.

Better financial conditions have contributed to this change, and the dairy cow has been in no small measure responsible. She has contributed in still another way. The dairy cow teaches kindness. Her owner soon learns that only by treating her kindly can he secure the highest possible returns from her, and she responds quickly to kind words and proper care. Her disposition is one that the human family might well emulate. She is patient and long suffering, acquiescing mutely in the arrangements made by her owner for carrying on the dairy business, striving at all times to repay him for every effort made for her care and comfort.

The members of the family, as they come in contact with her and her kindly disposition, are influenced for good. As they appreciate the financial benefit to come from caring for her well they take a deeper interest in her, in doing so they unconsciously cultivate those qualities which make them better citizens.

The dairy cow—the prototype of man's best friend—is wielding a greater influence than she is generally credited with. She has always been found in the front ranks in the march of civilization and no agricultural country can long prosper without her. She is a potent factor in the upbuilding of such a country, financially, and socially, and a wise people will appreciate her and encourage the industry of which she is the foundation.

The National Dairy Union.
