THE STORY OF TRIPOLI

An Interesting Narrative of the City Under Turkish Rule.

The city of Tripoli is clean and well built and pleasing in aspect. It is surrounded by a wall and its many Moslem domes and minarets mark it as Eastern and Mohammedan. It manufactures carpets and cloths and does a caravan trade of considerable importance over the desert of Sahara.

Tripoli, the Turkish "vilayet" or province, has a coast line of 700 miles on the Mediterranean almost unbroken by headlands or bays save at the harbor of Tripoli. A little explored and thinly inhabited country divided between mountain and desert interspersed with fertile valleys, interior Tripoli has been the home of bedouin Arabs and other wild tribes nominally under Turkish rule, but practically independent, but some progress has been made in cattle breeding and the cultivation of olives, figs, almonds, cotton, wheat, Indian corn, lemons, watermelons, tobacco, dates and silk in the coast region. A fair trade is driven with Soudan. European goods go south across the desert and ivory, ostrich feathers and other Central African products come north. The agricultural and mineral resources of the country are probably susceptible of development that would make Tripoli a valuable possession to any European Power.

Tripoli is under the rule of Turkey, whose Sultan appoints the Governor, who in turn appoints the beys or pashas, who rule the provinces. Revenues are raised in the old-fashioned way by collecting tribute from the Arabs, a tax upon merchants and upon land and by export and import duties. The official language is Arabic and the inhabitants, probably numbering no more than 1,000,000, are nomadic Arabs or "bedouins" and urban and agricultural Moors with the exception of a few thousand Jews and Christians. The State religion is Mohammedan and in both city and country the pious

Moslems are seen at any time of the day, and especially at sunset, kneeling at prayer with their faces toward Mecca.

Tripoli belonged successively to Carthage, Numidia and Rome. It subsequently passed into the hands of the Vandals, who reached the Mediterranean through the Iberian Peninsula, and the Greeks. The Arabs captured it in 644, when the Moslems were moving westward to take Spain and cross the Pyrenees in an effort to establish their empire on the shores of the North Sea. In 1510, eighteen years after the backbone of Mohammedanism was broken in Spain by the capture of Granada by Ferdinand and Isabella, and the expulsion of Boabdil from the Alhambra, Tripoli was taken by Ferdinand, and the Catholic order of the Knights of St. John held it from 1530 to 1551, when it became a Turkish province. Turkey allowed it to lie fallow and run amuck for three centuries, and it was the stronghold of ferocious Barbary pirates till the second quarter of the Nineteenth century when the Turks reasserted their authority and reduced it to the condition of a "velayet."

As one of the so-called Barbary States Tripoli became involved with European nations and with the United States as a result of the practice of piracy. The U. States, in the Eighteenth century paid tributes to the Barbary States to secure immunity from the Barbary pirates, and in 1796 was glad to conclude peace under a treaty without ransom. The treaty was broken and in 1801 the Barbary Pirates had the effrontery to demand of this country a tribute of \$25,000 annually. On being refused they declared war. An American squadron under Commodore Dale blockaded Tripoli, and three years afterward Commodore Preble bombarded the port five times while Gen. Eaton captured the city of Derme, in the province of Barca. In 1805 the Pasha, representing the banded pirates, who called themselves the Government, signed a treaty of peace and in 1815 Admiral Decatur forced him to release all ships and prisoners of whatever nation and pay numerous indemnities. Since 1835 Turkey has kept order in Tripoli.

Morocco, Fez, Algeria, Tunis and Tripoli comprise the Barbary States, a strip of North Africa from 140 to 500 miles wide lying between the Mediterranean and the Sahara. While the Barbary States have been referred to as barren they are really pretty well supplied with fertile soil and the nature of their climate is such that they will produce an abundance of fruit of both tropical and temperate zones at points just across the Mediterranean from European markets.

THE CAUSE OF ECZEMA

is germ life that burrows under and feeds on the skin. The way to cure ECZEMA is to remove the cause by washing away with a clean, penetrating liquid, the germ life and poisons that cause the trouble.

We have a preparation that will do this. The first application will stop the itching and give prompt relief to an irritated, itching or inflamed skin. If you are a sufferer from skin or scalp eruption in any form, try one bottle of ZEMO the clean scientific preparation, we are confident you will be pleased with the result from the use of this standard preparation for eczema.

Good for infants as well as grown persons.—Haynes & Taylor's Drug Store.

Coming Again Some Time.

Probably the cleverest and most interesting entertainment ever given for the money in Marion, was the Baby Show, under the management of Goodrich & McGary, which closed an eleven nights' engagement at the opera house last week.

From the opening night the seating capacity of the house was taxed to the utmost, and on some nights many people were turned away. No other show has ever been greeted with such enthusiasm by the Marion public and so far as we know, there is no other show of this kind on the road. The main feature of the show, is showing on the big curtain, pictures of all the small children of the town as well as many of the grown ups, and lots of local scenes of interest.

It seems that local pictures strike a more popular chord than any others, and Mr. Goodrich, the photographer, certainly understands the art of getting good ones. Besides the home pictures, the motion pictures shown were of the very best quality and very interesting subjects.

The many contests, taken part in, by the boys and girls, were very amusing and enjoyed by all. All together, a show of this character is bound to make good any where and we predict continued success for this company.
