

Mrs. Foolish—"Well, I may be tired out, but I have the satisfaction of knowing I never slight anything. My clothes are boiled and rubbed good and hard every week — no dirt left in them, I can tell you."

Anty Drudge—"Yes, you look tired, and more than that, there's something you do slight. That's the sensible, easy, best way to wash clothes clean without wearing them out. Fels-Naptha Soap is the cure for you."

Stop thinking the hard way is the right way to do your housework. The right way is the cool-water, no-hard-rubbing Fels-Naptha way, and it's easy.

Go buy a cake of Fels-Naptha Soap. Follow the directions, and you won't dread washday any more. Your clothes will last longer and look better, because they're not boiled and rubbed to shreds. And you won't be tired to death, either.

In compliance with an order of the Crittenden County Fiscal Court, on the 7th day of October, 1913, I hereby advertise for bids to keep the county poor house of Crittenden county Ky., for the year, 1914, said bids are required to be sealed and presented to the Fiscal Court, which will convene at the Court House in Marion, Ky., on the 8th day of November, 1913, at nine o'clock, A. M., at which time and place members of said court will let contract to lowest and best bidder.

The person awarded the contract shall keep, feed, care for, and in case of sickness nurse all paupers so placed in said poor house, and shall have the washing and sewing for said paupers done without extra expense to the county, but said person awarded said contract shall be permitted to work any and all paupers that are able to work in doing the washing and sewing

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nerve trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

A LOVELY FACE-- BUT UGLY HAIR

How often you see an otherwise-lovely face spoiled by homely hair—a face that would be most charmingly beautiful if she only had prettier hair. What a pity!—and how foolish! Because that ugly hair, stringy, dull, lifeless-looking though it may be, can be made as glossy, soft, silky and beautiful as the heart could desire if only taken proper care of.

Harmony Hair Beautifier is just what it is named—a hair beautifier. It is not a hair dye or hair oil—it is just a dainty, rose-perfume liquid dressing to give the hair its natural gloss and brightness, its natural wavy softness, its natural rich beauty. Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of the hair and scalp, insuring a quick and thorough cleansing. Washed off just as quickly, the entire operation takes

only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet-smelling cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinker tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50 cts. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.

CARE OF THE CONSUMPTIVE

NOT DANGEROUS IN THE HOME IN THE EARLY STAGES OF THE DISEASE.

Important Information Regarding the Proper Care of the Patient—The Use of Material Eating Utensils—Care of the Clothes.

The home care of the consumptive in the beginning stage, under the supervision of a doctor or a nurse, is not dangerous to the other members of the household. The germs of the disease are almost wholly thrown off in the discharges from the mouth and nose, and a uniformly careful collection and destruction of this material will prevent the spread of the germs through the house. The consumptive should spit in a paper box or cloth which can be burned. Paper napkins should be used instead of the ordinary cotton or linen handkerchiefs to wipe the nose and lips, and these napkins should be carefully burned. The consumptive should have his own set of dishes, which should be washed separately in boiling water. His bed and table linen should first be soaked in a disinfecting solution or boiled for half an hour before being washed with the rest of the family laundry. He should wash his hands carefully before and after eating. He should never cough without a paper napkin held to his mouth. He should never kiss another person. These are practically all of the precautions; but they are really so difficult to observe day in and day out that special sanatoria for the care of consumptives are almost essential. FRESH AIR!

It's a lucky thing that God made so much fresh air; it does more for us than we ever imagine. Few things have such a destructive effect on most disease germs, after they leave the body, as a slow, steady draft of fresh air. For instance, the germs of consumption will be killed by it in less than twenty-four hours. Considering the number of people moving about and spreading the germs of consumption, it is lucky for us all that the fresh air keeps so steadily and effectively at work. Fresh air is also, by long odds, the most important factor in the cure of consumption. The steady breathing of fresh air twenty-four hours a day, regardless of the weather, will do more to produce a cure than any other single thing. The constant supply of fresh air, purging the body of impurities, keeps the machinery of the body literally in "good fighting trim," and, at the same time, slowly and surely kills the germs as they pass off.

FRUITS COULD BE KENTUCKY GROWN

\$17,000,000 Spent Outside State Each Year.

SHOULD GROW THEM HERE.

Schools Are Striving to Help Solve Problems That Will Confront Our Children—Useless to Talk to Older Farmers—Boys' Corn Clubs Point Way to Success.

It is estimated that there are 9,000,000 apple trees of bearing age in Kentucky at the present writing. Our annual crop from these trees is something like 3,000,000 bushels of inferior quality. We spend \$17,000,000 for fruits of all kinds that could be grown in Kentucky.

It is useless to talk to many of the older farmers, for they will tell you:

ROOT GRAFTING.

"Oh, yes; when I was a boy you could raise all the fruit you wanted to. But now—well, I reckon it's 'run out.'"

It must be the new generation with which we deal if we are to save this annual expenditure of \$17,000,000 some time in the future. We cannot go out to every farmhouse in the state and have a chat with the farmer and his boys and girls, so we must find a way to teach them easily and effectively. The Boys' Corn clubs point the way to success. They have been made possible by the co-operation of teachers everywhere in the country, and the same is possible in fruit culture. At one of our normal schools numbers of the young people who are training for teachers are getting ready for this new crusade.

Almost any afternoon this spring in the basement of one of the big buildings, tables littered with roots of young apple trees, twigs from standard varieties, thread, wired figs and knives might have been seen.

As rapidly as deft fingers cut roots and twigs to fit snug, they were wound with thread and placed in small bundles. These bundles of ten, fifteen or twenty-five tiny trees were then sent to the country by parcel post. These trees were to be planted in the home gardens of the pupil teachers and carefully cultivated for a year before being set out permanently.

That the interest in this real vital work of education is growing is shown by the fact that the number of trees

TWENTY-FIVE JONATHANS READY TO SEND OUT.

mailed to the homes of the students this spring will be about five times as great as it was two years ago.

The first year the work was inaugurated 4,000 trees were grafted, last year 8,000 and this year about 20,000 will go on their mission of education.

With such work being done by teachers here and there over the state the children are sure to see a new vision of Kentucky as a fruit state.

BIBLE-STUDY-O-N

THE REPORT OF THE SPIES. Numbers 13:1-3, 17 to 14:25—Oct. 19. "If God be for us, who can be against us?"—Romans 8:31.

THE Israelites' first journey was from Egypt to Mt. Sinai, where they remained about a year.

Their second journey began after Miriam had been received back into the camp. Their journey led through a barren wilderness scorched by the sun, very different from Sinai's valleys, in which they had rested. The distance to Kadesh-Barnea, on the border of Canaan, was approximately 160 miles. The journey was beset with unknown dangers—serpents, wandering bands of Arabs, lack of water, etc. The Israelites, including women and children and possessions, household goods, cattle, sheep, etc., necessarily travelled slowly. Apparently one or two months were spent on the way, as they arrived at the time of the first ripe grapes—July.

Kadesh-Barnea, their objective point, is a delightful place, well watered—a sharp contrast to the Desert of Paran. Here they rested and refreshed themselves. Moses, full of faith, proposed that they proceed forthwith to enter Canaan, the Land of Promise.

But the Israelites were timid. They had no knowledge of war, excepting a little experience with the Amalekites near Mt. Sinai. Their caution overbalanced their faith. They urged upon Moses the sending of the twelve spies. These apparently were divided under two leaders, Caleb and Joshua. One party went the length of the land, and returned in forty days; the others took a shorter journey and returned sooner. The spies were cautious men and gave a truthful report of the land, declaring that its cities had high walls and would be difficult to overcome. They reported also that they had seen giants. The report of the ten is described as an evil report because they presented the matter from the viewpoint of its difficulties, as in contrast with the report made by Caleb and Joshua, which was styled a good report, because encouraging.

The spies really should have considered themselves as a committee of ways and means for entering Canaan, rather than for deciding whether it was possible to enter. The possibilities were already determined by God's promise; hence Joshua and Caleb left these out of account. If God could deliver them from the Egyptians and the Amalekites He surely could fulfill His promise to bring them into Canaan.

Did God Encourage War? In studying this lesson, many are perplexed. They say, It seems unreasonable to believe that God gave such a message to Moses and the Israelites. Contrast this with the Scriptural declaration that God "will make wars to cease unto the ends of the earth."

Let us inquire, Where is the justice of commissioning the Israelites to steal the lands of the Canaanites, and to exterminate utterly all the people? To understand the Bible, we must view it from its own standpoint, and not from that of our creeds formulated in the darker days, nor from that of our own imperfect reasoning. The Bible is beautiful, consistent, Godlike, only when viewed in its own light.

We must remember that the Bible antagonizes the theories of our creeds, which tell us that those slaughtered Canaanites went straight to an eternity of torture because they did not know the true God and Jesus Christ, the Savior. The Bible tells us that all mankind are children of Adam, and all perishing because of his death sentence. When they die, they are not alive anywhere. They are dead. They are suffering the penalty that God pronounced. "Dying, thou shalt die."

It matters not, therefore, in what way we die, or very much whether our experiences be longer or shorter. In the case of the Canaanites, God declared that their iniquity had come to the full. That is, God determined that they were merely cumbering the earth. God was using the Israelites as a typical people, through whom He was making types and shadows of coming blessings. He would give Canaan to Israel, to illustrate the destruction of the works of the flesh and the Devil, which His people would accomplish in themselves by fighting the good fight of faith and overcoming the evil tendencies of their own flesh.

Although God is not bound by justice to give future life to anybody, He has arranged to do so. To this end Christ has already died for the sins of the whole world—including the Canaanites. Aside from this Plan of Redemption the whole race would have perished. But by God's grace we are to be recovered from death.

So we read, "God so loved the world that He gave His Only Begotten Son, that whosoever believeth in Him might not perish, but have everlasting life." Messias' Kingdom—the Redeemer and His Church, His Bride, the members of which are now being selected from the world—will for a thousand years bless, uplift and restore all the nations of earth—from sin, degradation, death.

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.
