WEDNESDAY, APR. 25.

Floods in the lower Mississippi Valleys have done much damage to property.

Col. W. D. Colson seems to have a clear case of self defense in the shooting of Scott. LATER—He was acquitted Saturday.

A bill has been introduced in the United States Senate to grant a pension of \$50 a month to Gen. Longstreet, as a Mexican veteran.

Charley Finley says he will not return to Kentucky until his case is called, but that he will return then. He might come before he should be ready.

The Franklin county grand jury has not been at work on the assassination case for several days, the Commonwealth's Attorney being engaged in the Colson murder trial.

Republicans went up Salt river in Louisiana last week. Democrats carried every parish in the State excepting two and elected every officer in the state except 2 sheriffs 4 police judges and 3 magistrates—Expansion where art thou?

The Republican State Convention at Montgomery, Ala., last week, split wide open in an attempt to organize. The Sergeants-at-arms of the two factions had a fight and one was shot and seriously wounded. Two delegations go to the National Convention.

The Louisville Post, urges the Republicans to organize early and by so doing the Democratic party of Kentucky can be wiped from the face of the earth. Democrats should take warning for Dickey Knott is a bulger. He thinks, since the Post has supplanted the Commercial, for Republican favor, that he is the whole thing.

The Republicans of Tennessee split wide open in their Convention last week in Nashville, and as a result two Conventions were held, two State tickets were nominated and two sets of delegates will go to the city of brotherly love. The Republicans are splitting from "Amsterdam to Skeddadle" in this good year of expansion, imperialism and trusts.

It is reported that Mr. W. S. Taylor has been indicted as an accessory to the murder of Governor Wm. Goebel, but no warrant for his arrest has been issued. We do not know how this is but as others have been indicted for this crime and accused of conspiring with W. S. Taylor and others, we cannot see how one could go free and the others indicted. Webster said, "murder will out."

Next Monday the Supreme Court will begin an investigation of the Kentucky muddle. The question before the Court will be that of jurisdiction and each side is allowed a short time to present argument. If the court decides that it has no jurisdiction in this matter then the battle will be a thing of the past and Mr. Beckham will be the lawful Governor of Kentucky, beyond further dispute.

Should it decide that it has jurisdiction, then the case will be tried on its merits and would probably be a long time before the declaration of peace in this State, but as heretofore stated we do not have a doubt that the Supreme Court will claim jurisdiction in this matter as it is purely local.

Last Wednesday in the Franklin circuit court the amended answer of the Republican State officers was overruled by Judge Cantrell and judgment entered for the Democratic State officers. The Republicans must either vacate the offices within ten days from the time judgment was entered or execute supersedeas bond and carry the case to the Court on Appeals. The sheriff is ordered by the judgment to eject the usurpers if they have not evacuated within ten days.

The outlook for a great national Democratic victory this fall is brightening every day. Four years ago our party was divided and many of its ablest leaders openly fought Mr. Bryan, but now it is different. In every State the Democrats are uniting and preparing to win a great victory with the same man some rejected and fought four years ago, and exactly upon the same platform as then with a few additional planks. However, the paramount question in the approaching fight will probably be shifted from the money question to that of Trusts and Imperialism, and should this prove to be the case, it does not indicate that the free silver question is dead, not by any means. It will merely impress the fact that the power of trusts more seriously threatens the welfare of the people than does our monetary standard; that this evil is within the power of the people to cripple and abolish, while the money question, for the next six years, has for a certainty passed beyond our reach. It would mean that the present Administration has established governments for our newly acquired territories that are unjust and discriminating, and that the power is within the reach of the Democratic party to change and to overthrow such unjust laws. It means that the great principles of Democracy are founded on justice; that truth is mighty and will prevail. Many of the great papers that fought Mr. Bryan four years ago are now back in the party and supporting him for the nomination. The Courier-Journal has returned and will be a powerful factor in the South in the next campaign. The New York Journal is now supporting Mr. Mr. Bryan for the nomination in preference to all other Democrats. Four years ago it led a powerful fight against him. With almost one million circulation it will be a potent power in sending New York and other states back into the Democratic fold. While harmony prevails in our party the Republicans in large number of the states are fighting and dividing. Many of the states will send two delegations to their convention, one to be elected the other rejected and by the time they will meet the common rank and file will both the office holder no little. On the 10th the Republican convention in Montgomery, Ala. indulged in a wide open split and free fight and held two conventions. We are willing to see the split grow wider. The man that was rejected is fast forging to the front and will soon be our President.
