Quite a number of parties are complaining about having their gardens, corn patches and watermelon patches raided of late in this vicinity and if the parties are caught they will get the full limit of the law. After a person succeeds in growing a crop he should be protected in the enjoyment of it, and the only way to break up such detestable petty larceny is to apply the law to the fullest extent. This community is now worked to that point and unless such stealing comes to an end suddenly a vigorous effort will be made to catch the guilty.

The White Teacher's Institute of Adair county will be held the week beginning Monday, August 20th. He is a Democrat and a Methodist and travels in the interest of a patent medicine. In the last ten years he has sold over 1,000 boxes of Indian Root Pills. Not one of his descendants was ever charged with felony nor any other character of crime.

EDUCATIONAL MEETING.
Last Wednesday night quite a number of citizens of this place and vicinity met at the court-house for the purpose of providing ways and means to perpetuate a High School at the M. & F. college. An organization was perfected by electing Judge W. W. Jones Chairman and J. E. Murrell Secretary.

Hon. J. R. Hindman stated the object of the meeting, after which Dr. McDonald, representing the Home Board of New York, addressed the audience, telling in a concise manner what his people were willing to do; that the Board would give five hundred dollars a year to the school and make it perpetual, but in order to secure this amount of money, the people here would have to show their appreciation of the gift by giving something themselves. He asked for no specific sum, but wanted a substantial manifestation, upon the part of those who would be benefited, that the efforts of the Board were appreciated.

When Dr. McDonald closed a number of short addresses were made, every speaker expressing a desire for the school. To raise a sufficient sum various plans were suggested, and finally this motion, made by Judge Garnett, carried: That the amount be three thousand dollars. A motion was made to reconsider and a proposition to raise twenty-five hundred dollars was submitted and passed. The motion carries with it, that none of the money is to be paid in until the whole of the amount has been subscribed by good and solvent donors.

The Chair appointed Hons. J. F. Montgomery, H. C. Baker and J. R. Hindman to draw up a blank to be signed by those who desired to give, and C. S. Harris, J. R. Hindman, Dr. W. R. Grissom, Rev. T. F. Walton, Rev. E. W. Barnett and T. R. Stults were appointed to solicit aid. W. W. JONES, Chairman, J. E. MURRELL, Sec'y.

The school meeting, as announced in the last issue of the News, was held in the court-house last Wednesday evening. A good sized crowd was out and the interest manifested clearly indicated that the people of this community realize the importance of immediate action to secure the outside aid that is tendered. Dr. McDonald stated that the educational board of New York, which he represents, was willing to appropriate \$500.00 annually to the school here and to make it perpetual, provided the people of this section would appreciate it to the extent of putting the building and grounds in good condition, and to provide for keeping them in a comfortable and attractive form. The estimated cost of the money now needed and the funds necessary to place at the time of putting the building and grounds in nice order is \$2,500.00. This was agreed upon as the amount that this town would offer Dr. McDonald as proof of its ability, and appreciation for his generous and magnificent proposition to us, and in order to secure this amount a committee of five was appointed to solicit subscription to this fund. Dr. McDonald's proposition is one that every citizen in this section should appreciate, for it will beyond doubt, place our school on such footing as will guarantee a high grade and permanent institution of learning. The proposition is clear. We must raise \$2,500.00, or lose the school. In order to get up this amount it will be necessary for every body to give and give liberally. You will be asked to give, so make up your mind to do your duty, let others do as they may. It would be a great calamity to the rising generation for this to fail. It will be no great burden to the present one to make it a success. We must have the school; so don't let an opportunity slip.

How true is the sentiment contained in the old song, "Twenty Years Ago," and how often are we reminded of the words in that old ballad. It is a little more than twenty years since Mr. J. G. Winfrey, who is now City Judge of the Evansville, Indiana, court was a citizen of Columbia. He is here at this time, visiting relatives and friends of his early manhood. Meeting him last Sunday afternoon he said: "Well, I have been walking around; went over to my old home, down to the spring and up to the college. There have been many changes since I was here." A few more words and we separated. When he remarked "there had been many changes," it occurred to us that if he had stooped down at the spring and took a drink, seeing his face reflected in the water, he too would have been reminded that he too looked very different from twenty years ago. Jordan, your locks are getting thin—have a silvery cast, in fact the boys of twenty years ago are growing old. You have a sympathetic heart and we doubt not when you stood upon the college hill you was reminded that here you had watched for hours "barefooted boys at play," some engaged in tossing the ball, others jumping, and just over in the south corner sat a group playing "mumble-the-peg." Again, if you had gone into the building you would have doubtless found your own name written upon the wall and the name of your sweetheart underneath it. These reminiscences, Jordan, bring up both pleasant and sad recollections. Many of your old schoolmates have long since passed over the river, while others, like yourself, are fighting life's battle, trying to do all the good in the world they can.

Mr. Abijah Humphrey, an eccentric old man, living in the southern portion of this county, was shot and dangerously wounded last Thursday by John Smith. Smith had persuaded a daughter of Humphrey to elope with him to Tennessee, and they were about

ready to start when the old man appeared upon the scene and entered his protest. Hot words followed resulting in Smith shooting the father of his intended bride. Mr. Humphrey entertains some very peculiar ideas. About three years ago his wife died and was buried upon his farm. After she had been in her grave several months he concluded to remove the body to where he could view it at will. Accordingly he built a vault at his residence, took up the remains and placed them in it. The vault is made so he can enter it, and daily he goes in and views the face of his dead wife. He says she looks as natural as when alive and in health.

On the 24th of July, the relations of a friend of Mr. and Mrs. Steve Jones, whose home is near Green river, this county, gave a surprise dinner, the occasion being Mrs. Jones' 61st birthday. One hundred and thirty-five were present besides the children, and the dinner was one of the finest ever served on a similar occasion. Mr. and Mrs. Jones are very fleshy, and rarely ever get out from home, hence the visit of their friends. Mr. Jones weighs 287 pounds, while his wife pulls the scales to the 310 pound mark. They have two children and the combined weight of the family is 810 pounds. Mr. Jones is a brother to Mr. J. W. Jones, of Knifley, who is a larger man.

Mat Swanson, a well-known character, was found dead on the Columbia and Russell's Spring road, last Friday. He had a bullet hole in his head, but there is no clue to the guilty party. He was evidently shot from ambush. If we remember correctly Swanson has been charged with using his pistol pretty freely, shooting several persons, and his conduct generally has been that of a very bad man. Still the person who assassinated him deserves hanging.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. BUDICK, Liberty, R. I. For sale by M. Cravens.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor, of Wind Ridge, Greene county, Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by M. Cravens.
