H. W. Edmonds, }
W. F. Wilson, } Com.
J. S. Stephens, }

Every body invited. Bring song books and dinner.

B. H. Edmonds, Sec.

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. Ten years of eczema, that 15 doctors would not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." In fallible for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c. at Paul Drug Co.

In Newport a fashionable woman wearing a hobble skirt was tripped in alighting from her runabout and fell upon her face, cutting it. She should now cut the hobble.

Free Sample For Baby's Ills

Something can and must be done for the puny, crying baby, for the child that refuses to eat and is restless in his sleep. And since the basis of all health is the proper working of the digestive organs, look first to the condition of the stomach and bowels.

A child should have two full and free movements of the bowels a day. This emptying of the bowels is very important, as with it comes a clear head, a lightness of step, good appetite and sound sleep. But it is equally important to know what to give the child in the emergency of constipation and indigestion. Cathartics are too strong and salts and other purgatives are not only too strong, but the child refuses them because of their bad taste. Have you ever tried Dr. Caldwell's Syrup Pepsin? It is a liquid tonic that families have been using for a quarter of a century. It is mild, pleasant-tasting and promptly effective. It is good for you as well as the child, but there is nothing better to be found for children. They like its taste—you will not have to force them to take it.

First of all, if you have not yet used it, Dr. Caldwell would like to send you a sample bottle free of charge. In this way you can try it before buying. Later, when convinced of its merits, you can get it of your druggist at fifty cents and one dollar a bottle, just as thousands of other families are doing. The family of Mr. D. W. Spangler of Strattonville, Pa., as well as that of Mr. A. P. Johnson of Walnut Grove, Tenn., started with it in that way and now write that it is their one family necessity next to food itself. If you are unfortunate enough to have a sickly child, one given to constipation and indigestion, you should send for a free sample of this remedy.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. E. Caldwell, R. 550 Caldwell building, Monticello, Ill.

Electrical Notes.

The cost of the transatlantic cable averages nearly \$1,200 a mile.

Modern electric hoists are so designed that the speed varies with the load.

The new metal filament lamps are not nearly so fragile as the earlier types.

A portable electrolytic bleaching apparatus has been devised for household use to remove stains from textiles.

A new sanitary mouthpiece for telephones is made flush with the transmitter case to avoid germ-catching corners.

A 20-watt tungsten lamp gives one-fourth more light than the carbon filament lamp of 16 candlepower, on one-half the current.

A coin-in-the-slot electric curling iron heater for the use of feminine patrons of the hotels and other public places has been patented.

All Sorts.

Just at present that sectarian insurrection in Spain looks like a fizzler.

It seems that the tussock moth scorns to put its eggs in cold storage.

For an agreeable summer job how would you like to demonstrate hammocks?

The Germans are using heavy artillery to shoot at airships. Why not try air guns?

No matter how the weather and temperature change, the humidity never fails to come back.

But even old Rome before it fell never had to contend with cold-storage eggs all the year round.

Are you giving proper appreciation to the class of summer weather the man in charge is handing out?

France wants an inspiring song for its soldiers to sing as they march. They are welcome to sing "Kelly."

And still the patient hen goes on without asking whether she is working for an incubator or a cold storage plant.

"Apple crop outlook good." Seems to us that we heard something about its certain failure just after those April frosts.

Plymouth has the rock, Provincetown the tall tower, and the country generally the rest of the monument in men and women.

The rubber acreage in India is said to be increasing, but then it is to be naturally expected that such a product would stretch out.

At some of the eastern hotels, we are told, they serve reed birds that can scarcely be distinguished from genuine English sparrows.

Singing songs while fishing will make the fish bite, a dispatch says, and, in most instances, small blame can be attached to the fish.

An instrument which is being used in London hospitals enables a doctor to see the interior of a patient's stomach. Being a London doctor must be disagreeable.

It is estimated that Americans have been swindled out of \$9,000,000 in Mexican rubber schemes. Think of the automobiles or duck trousers that money would have bought.

Scientists announce that people can become energetic by eating raisins. The trouble is that most of the energy produced by eating raisins has to be expended in removing the seeds.

A Missouri convict mathematically inclined hopes for pardon because he has discovered how to reduce equations of the tenth degree. A study of English might show him how to shorten his sentence.

Fears for the leaning tower of Pisa are shared only by admirers of the antique. If the worst should happen, a modern skyscraper would undertake to fit Pisa out with an even more remarkable structure.

A minister in New England has the audacity to suggest that there will be baseball in heaven. Probably thinks that if the streets are gold the fields may be diamonds. But what will they do for umpires? They have all been told to go to the other place.

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, for keen brain and strong body. 25c. at Paul Drug Co.

Provisions of New State Law.

Much interest is felt in the indeterminate sentence law recently passed by the Kentucky Legislature, under which the first convictions have just occurred in Warren county.

After a man has been found guilty he is sentenced to the penitentiary and the prison board decided as to length of time he shall remain, much depending on his good behavior, etc. The jury and trial judge have nothing to say as to his term of services further than is shown by the following, which is the law governing in such cases:

"That the jury by which an offender indicted for a felony is tried shall ascertain only whether or not said person is guilty of the offense charged if said person shall be found by the jury guilty of a felony. The jury shall so state in its verdict and after such finding by the jury the Judge trying such offender shall pronounce an indeterminate sentence of imprisonment in the penitentiary for a term, stating the minimum and the maximum limits thereof, according to the penalty prescribed by law."

One Good Breeding.

A great part of our education is sympathetic and social. Boys and girls who have been brought up with well informed and superior people show in their manners an inestimable grace. Fuller says that "William, earl of Nassau, won a subject from the king of Spain every time he took off his hat."

You cannot have one well bred man without a whole society of such. They keep each other up to any high point. Especially women; it requires a great many cultivated women—saloons of bright, elegant, reading women, accustomed to ease and refinement, to spectacles, pictures, sculpture, poetry and to elegant society—in order that you should have one Mme., de Stael.—Emerson.

Stocks Tip the Acme of Excellence.

New Fall Carpets
Rugs and Wall Paper

Are shown in many representative styles. Low prices are linked to good qualities, making trading here absolutely safe and saving. Special inducements in Tulaid Linoleums, \$1.50 grades per square yard \$1.10; 6 patterns. Plenty of each and every yard Jos. Wild & Co's. first grade.

Hubbich Bros. & Wellendorff,

522 & 524 W. Market St.

Louisville, Kentucky.

Program.

The Musical Association will be held at the Pleasant View Church McGaha, Ky., the second Sunday in Oct. 1910, to open at 9 o'clock a. m.

Bible lesson, James Nead.
Invocation, Rev. James Burton.
Welcome address, Rucker P

Grimsley.
Response, Capt. Wm. Bradshaw.

Song by audience.
What is music? H. W. Womack, Albert Bryant.

How find the key note in any key, Stewart, Rexroat, Dennie Grimsley.

How teach note reading, A. G. Coffey, A. G. Hill.

Scale building, John Pierce, John Wolford.

Relative and absolute pitch, J. F. Hughes, Robert Blair.

Transposition of scale by flats, Transposition sharps, R. O. Cabbell, Geo. Pike.

Double sharps, flats and intermediate tones, I. M. Grimsley, Perter McCaffree.

Relative length of notes and rests, Ruck P. Grimsley, John Burton Jr.

Double measure, Joe Kerns, Lucian Burton.

Quadruple. M. James Kerns, B. H. Burton.

The program will be interspersed by solos by some of the very best singers in the county, and it is hoped that all lovers of music will be present to take a part.

W. H. Womack, }

F. J. Hughes, }

The Crippen Case.

If Doctor Crippen is convicted it will be on circumstantial, or indirect, evidence; it will be because the persuasion of guilt amounts to moral certainty such as to convince the minds of his judge and of his jury beyond all reasonable doubt. The evidence against him will have to preponderate to an extent such as to make the presumption of his innocence in the highest degree improbable; such as to amount to judicial proof. No eyes witnessed the act; but the collateral evidence is ocular, tangible, and may prove to be overwhelming.

Cumulative circumstance have determined more mysterious murder trials than most people remember; visible and positive evidence in such cases is not to be looked for, nor is it frequently available. Men do not go about such acts before witnesses; deeds of darkness are not done in daylight, and it follows, therefore, that, in criminal proceedings, circumstantial evidence

must frequently be relied on.

The Crippen case will be followed here with something more than a merely morbid interest; from the meager reports to hard the probabilities do not favor the accused; the admitted facts have an ugly aspect. We may, however, be sure that he will have every advantage of a skillful defense, and of that presumption of innocence which is basic in the British courts.—Louisville Times.
